To Whom it may concern,

Thank you for Considering me to Represent the City of Key West Plumbing Board.

I am a seasoned plumber and Business Owner in Key West with a rich history in the industry, starting my journey in Louisiana at the early age of 15. Beginning in new construction, I quickly transitioned into the septic tank installation sector, where I honed my skills and developed a deep love and passion for plumbing.

At the age of 20, I relocated my life to West Palm Beach, Florida, to further my career in a different state. Shortly after settling in, an opportunity arose for me to lead a crew in Las Vegas, working on high-profile projects in the hotel and hospitality industry. However, my heart led me back to West Palm Beach, where I obtained my state Master Plumbing License and established my own plumbing business, which I successfully grew and eventually sold to a fellow plumber. That company is still open and thriving today!

After taking a brief hiatus to travel and explore, I found my way to Key West, fulfilling a lifelong dream of living in the vibrant city. Here, I founded my own plumbing company, which has flourished over the past three years, boasting a fleet of six trucks and a team of 17 dedicated employees.

Looking ahead, my goal is to continue expanding and solidifying my business in Key West while also venturing into local politics. I aspire to contribute my wealth of knowledge and experience to the construction division and more, offering valuable insights and dedicated service to the community.

In conclusion, I am eager to share my expertise and collaborate with fellow industry professionals, always striving to make a positive impact and be a valuable resource to those in need. Thank you for considering my candidacy.
