## Staff Report for Item 26

**To:** Chairman Michael Miller and Historic Architectural Review  
Commission Members

**From:** Kelly Perkins  
HARC Assistant Planner

**Meeting Date:** April 26, 2016

**Applicant:** William Shepler

**Application Number:** H16-03-0029

**Address:** #715 Frances Street

---

### Description of Work:

New one-story wood frame accessory structure.

### Site Facts:

#715 Frances Street is listed as a contributing resource in the survey and first appears on the 1899 Sanborn map. The eyebrow house is one and half stories with a one story addition on the rear. After 1962, a side rear addition was added. This property came in front of the HARC Commission last year to construct a new rear patio roof, side addition, and deck extension. The project was approved.

### Guidelines Cited in Review:

Additions and Alterations/New Construction (pages 36-38a), specifically guidelines for new construction.

### Staff Analysis

This Certificate of Appropriateness proposes the construction of a new one-story accessory structure in the rear yard. The structure will be 15 feet, 10 inches tall – a similar height to the one story rear addition. The structure will also have a similar massing as the one-story addition. The new structure will have a v-crimp roof, wood siding, and aluminum impact windows and doors.

### **Consistency with the Guidelines**

This project alters no historic fabric. Staff feels the structure will have no adverse impact on the neighborhood and the historic district and has an appropriate height, scale, and massing. Therefore, the project is consistent with the guidelines regarding new construction.
