

**The above pricing does not include:**

- Any work not specifically listed above.
- Rock excavation.
- Manhole supply, clean-outs or grates, or manhole covers.
- Storm water pollution prevention plan.
- Soil stabilization.
- Union labor.
- Fencing.
- Electrical work or boring for utilities.
- Any permits, fees, applicable taxes, licenses, or bonds.
- Relocation of any existing utilities, communication boxes, sports equipment, etc.
- Provision of any new sports related equipment.
- Security of site.

**Pricing Notes:**

This quote excludes all work associated with the installation of the base. Prior to installation of the synthetic turf, an A-Turf representative, typically the chief of the installation crew, will conduct a strictly visual inspection of the base for overall planarity (levelness) and accurate dimensions.

Problems associated with porosity or compaction of the base, including but not limited to poor drainage and settlement of the base, and or problems associated with exacting tolerances in planarity, cannot be identified through visual inspections, and are NOT the responsibility of A-Turf, Inc.

A staging area roughly 10% of the project size within 100 feet of the project site is required.

Pricing assumes one mobilization to the project site. Extra charges may apply if additional mobilizations are required.

**Please call Dean Ferrell at 888.777.6910 or 716.866.0303 (cell) if you have any questions regarding this quotation.**
