

KELLY BROTHERS, INC
COMMERCIAL MARINE CONTRACTOR

RESPONSE TO

Invitation to Bid

Spencer's Boatyard Seawall

ITB #24-014

CREATED FOR

City of Key West

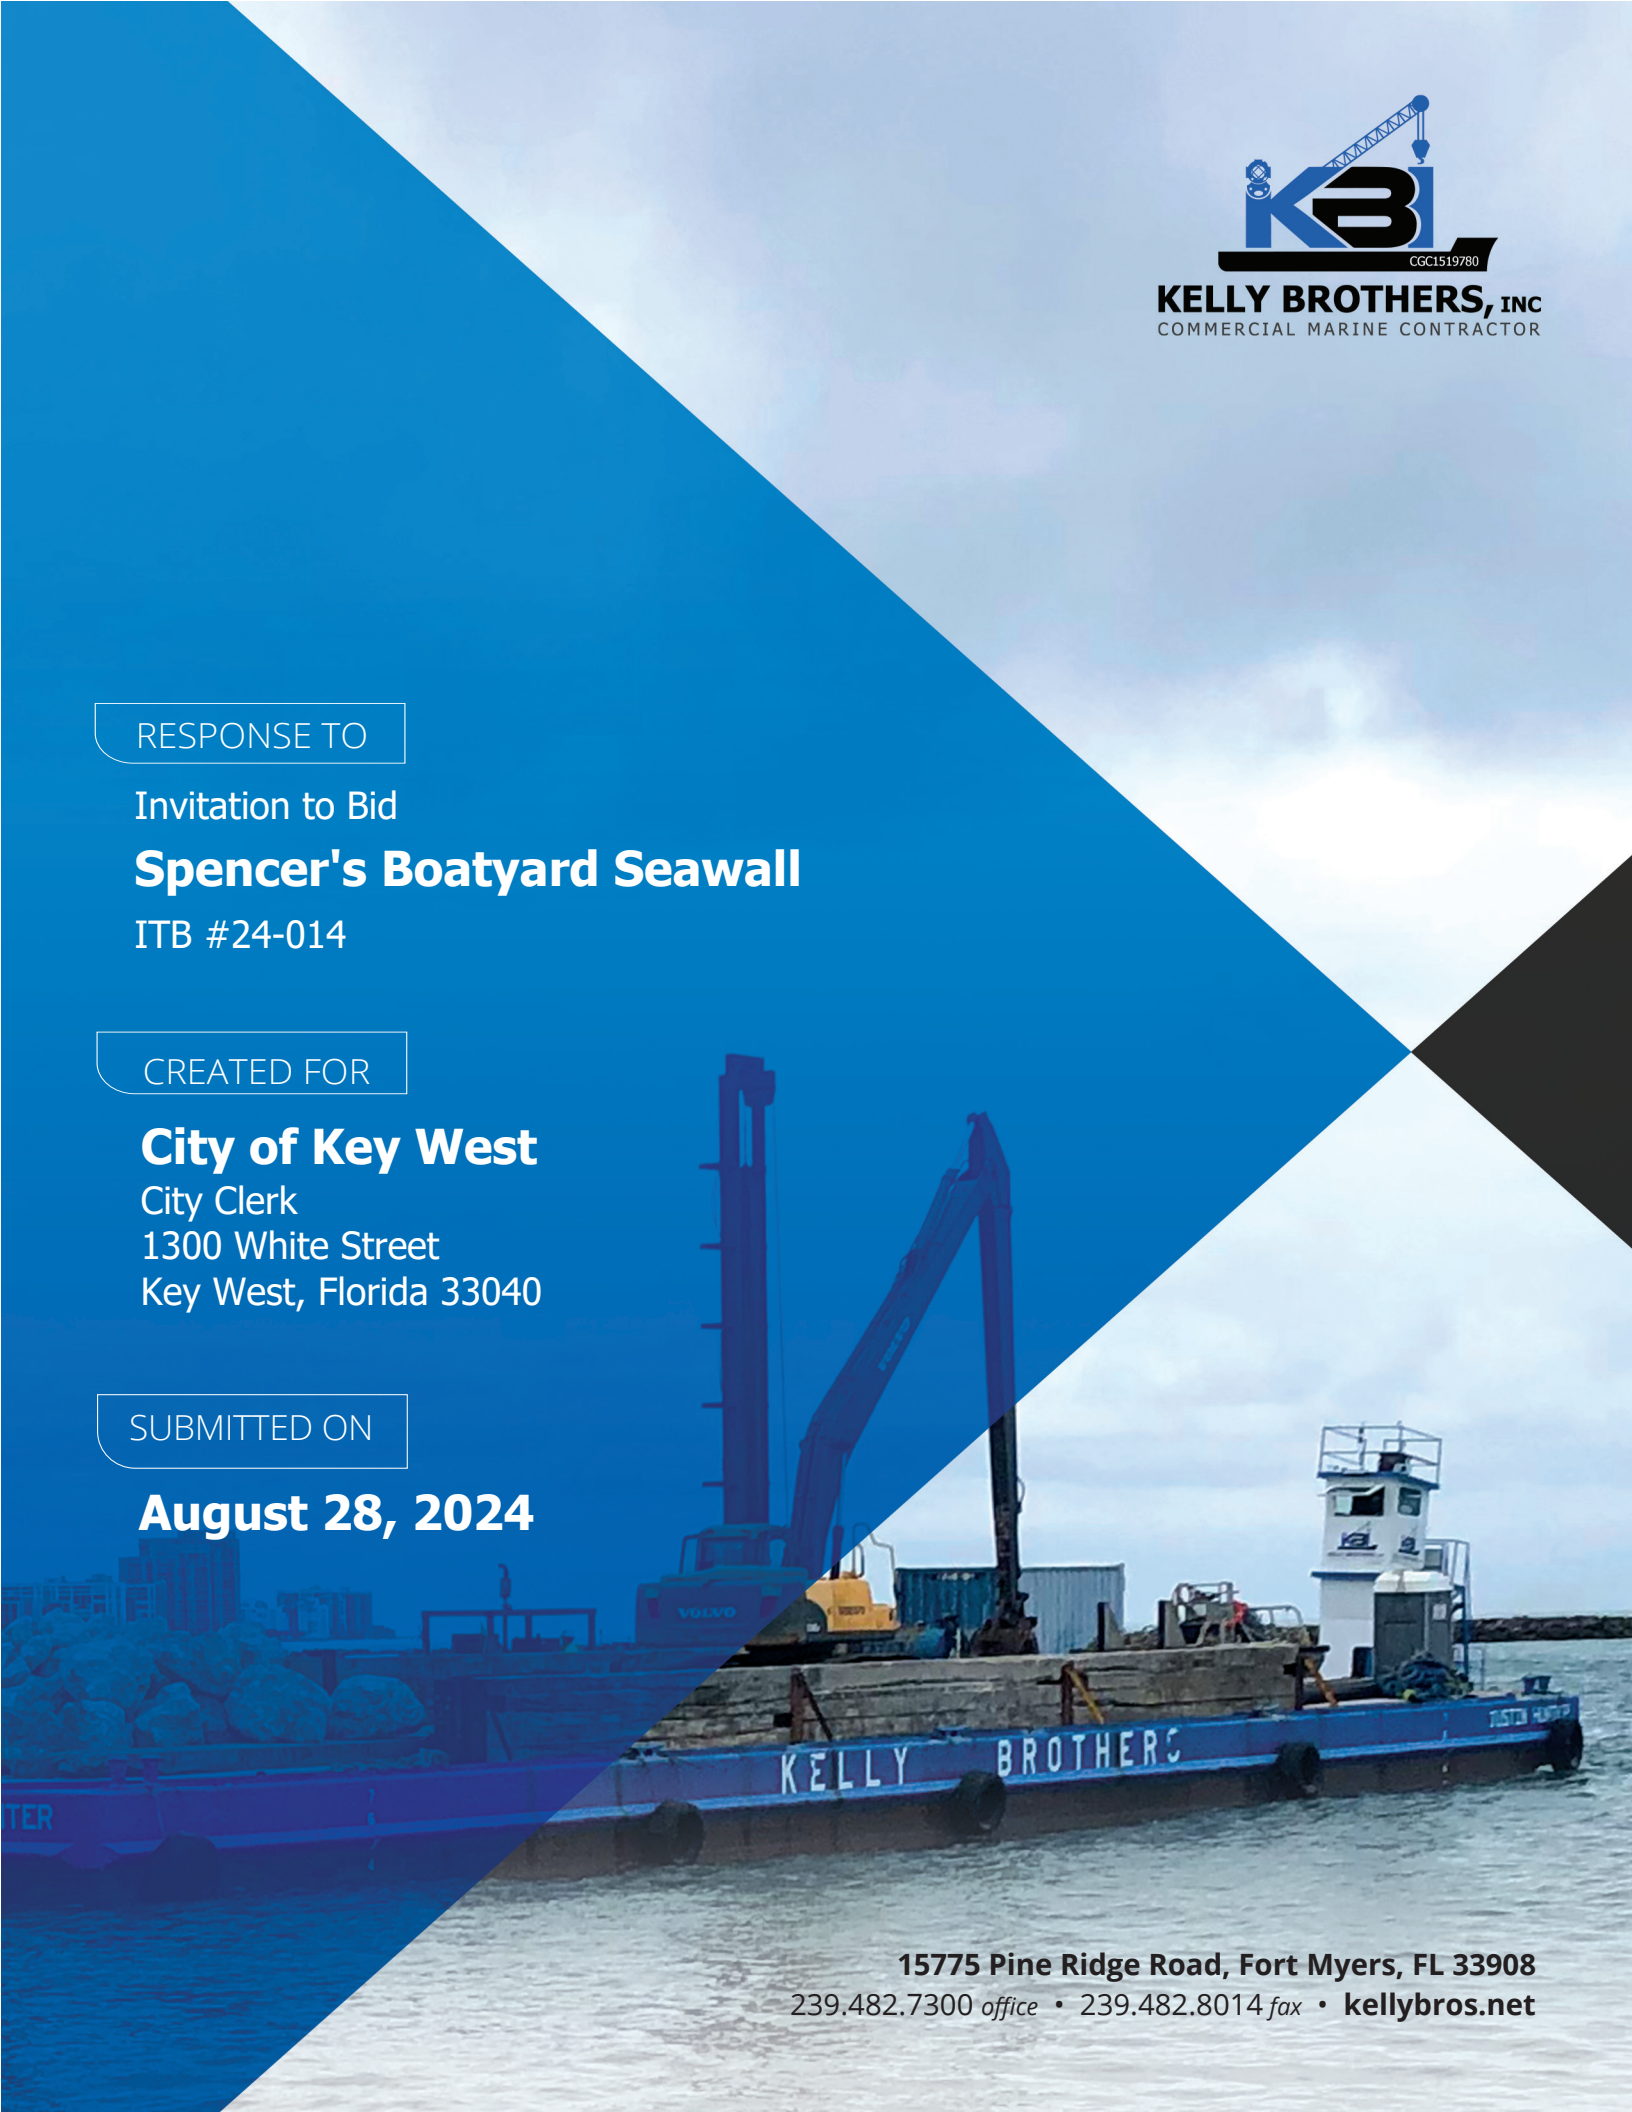

City Clerk

1300 White Street

Key West, Florida 33040

SUBMITTED ON

August 28, 2024

15775 Pine Ridge Road, Fort Myers, FL 33908
239.482.7300 office • 239.482.8014 fax • kellybros.net

Bidding Requirements

NOTE TO BIDDER: Use preferably BLUE ink for completing this BID form.

PROPOSAL FORM

To: The City of Key West
Address: 1300 White Street, Key West, Florida 33040
Project Title: **Spencer's Boat Yard Seawall**
ITB# 24-014

Bidder's contact person for additional information on this BID:

Company Name: Kelly Brothers, Inc.
Contact Name & Telephone #: Dane Kelly, 239-482-7300
Email Address: estimating@kellybros.net

BIDDER'S DECLARATION AND UNDERSTANDING

The undersigned, hereinafter called the Bidder, declares that the only persons or parties interested in this Bid are those named herein, that this Bid is, in all respects, fair and without fraud, that it is made without collusion with any official of the Owner, and that the Bid is made without any connection or collusion with any person submitting another Bid on this Contract.

The Bidder further declares that he has carefully examined the Contract Documents for the construction of the project, that he has personally inspected the site, that he has satisfied himself as to the quantities involved, including materials and equipment, and conditions of work involved, including the fact that the description of the quantities of work and materials, as included herein, is brief and is intended only to indicate the general nature of the work and to identify the said quantities with the detailed requirements of the Contract Documents, and that this Bid is made according to the provisions and under the terms of the Contract Documents, which Documents are hereby made a part of this Bid.

CONTRACT EXECUTION

The Bidder agrees that if this Bid is accepted, he will, within 10 days, not including Sundays and legal holidays, after Notice of Award, sign the Contract in the form annexed hereto, and will at that time, deliver to the Owner evidence of holding required licenses and certificates, and will, to the extent of his Bid, furnish all machinery, tools, apparatus, and other means of construction and do the work and furnish all the materials necessary to complete all work as specified or indicated in the Contract Documents.

CERTIFICATES OF INSURANCE

Bidder agrees to furnish the Owner, before commencing the work under this Contract, the certificates of insurance as specified in these Documents.

START OF CONSTRUCTION AND CONTRACT COMPLETION TIME

The Bidder further agrees to begin work within 10 calendar days after the date of the Notice to proceed and to complete the project, in all respects within 180 calendar days after the date of the Notice to Proceed.

LIQUIDATED DAMAGES

In the event the Bidder is awarded the Contract and shall fail to complete the work within the time limit or extended time limit agreed upon, as more particularly set forth in the Contract Documents, liquidated damages shall be paid to the Owner at the rate of \$1,000.00 per day for all work awarded until the work has been satisfactorily completed as provided by the Contract Documents.

ADDENDA

The Bidder hereby acknowledges that he has received Addenda No's. 1, 2,
 , , , , , , , , , ,
(Bidder shall insert No. of each Addendum received) and agrees that all addenda issued are hereby made part of the Contract Documents, and the Bidder further agrees that his Bid(s) includes all impacts resulting from said addenda.

SALES AND USE TAXES

The Bidder agrees that all federal, state, and local sales and use taxes are included in the stated bid prices for the work.

LUMP SUM

The Bidder further proposes to accept as full payment for the work proposed herein the amounts computed under the provisions of the Contract Documents and based on the following lump sum amounts. The Bidder agrees that the lump sum represents a true measure of the labor and materials required to perform the work, including all allowances for overhead and profit for each type and unit of work called for in these Contract Documents.

THE CITY OF KEY WEST

Post Office Box 1409 Key West, FL 33041-1409 (305) 809-3883

ADDENDUM NO.

This addendum is issued as supplemental information to the bid package for clarification of certain matters of both a general and a technical nature. The referenced Invitation To Bid (ITB #24-014 Spencer's Boat Yard Seawall) package is hereby amended in accordance with the following items:

**AFFIDAVIT ATTESTING TO NONCOERCIVE CONDUCT
FOR LABOR OR SERVICES**

All Bidders shall acknowledge receipt and acceptance of this Addendum No. 1 with Attachment by submitting the signed addendum with their bid. Bids submitted without acknowledgement or without this Addendum may be considered non-responsive.

THE CITY OF KEY WEST

Post Office Box 1409 Key West, FL 33041-1409 (305) 809-3883

ADDENDUM NO. 2

This addendum is issued as supplemental information to the bid package for clarification of certain matters of both a general and a technical nature. The referenced Invitation to Bid (ITB #24-014 Spencer's Boat Yard Seawall) package is hereby amended in accordance with the following items:

Question 1:

Page 3 of the ITB says there's a part 4 and part 5 of the bid documents containing 33 pages of information. Those pages are not included in the ITB or any other file provided in the solicitation. Will both parts 4 and 5 be issued to bidders?

Response to Question 1:

Part 4- General Requirements & Scope of Work and Part 5- Attachments are not applicable to this bid. General Requirements and Scope of Work and Attachments are included in the construction Documents.

All Bidders shall acknowledge receipt and acceptance of this Addendum No. 1 with Attachment by submitting the addendum with their proposal. Proposals submitted without acknowledgement or without this Addendum may be considered non-responsive.

EXPERIENCE OF BIDDER

The Bidder states that he is an experienced CONTRACTOR and has completed similar projects within the last 5 years.

(List similar projects, with types, names of OWNERS, construction costs, ENGINEERS, and references with phone numbers. Use additional sheets if necessary.

Please see our Experience Record for details on similar projects completed in the last 5 years including
Owner information, construction costs, Engineers and references with phone numbers following this
page. Also see our Sampling of Project Experience section that follows our Experience Record that further
demonstrates the depth and breadth of our experience. In addition, we have provided Letters of
Recommendation, which speak to the quality of our work and the professionalism of our employees.

**Kelly Brothers, Inc. (KBI)
Bidder's Experience Record**

Kelly Brothers, Inc. (KBI) has an unrivaled reputation as an ethical and respected leader providing comprehensive commercial marine construction services. KBI has provided the following projects to demonstrate our experience by providing at least five current or recent projects (within the past 5 years) of similar work, within the State of Florida. We offer decades of experience working in, on, under, over, and around the waters of southwest Florida. KBI's well-known expertise has been acquired over a multitude of years and a myriad of successfully completed projects during our 44 years in business. Also, please see the Sampling of Projects and Letters of Recommendation provided following this document for additional evidence of our experience and capabilities, including the projects listed below.

Description and Location of the Work	Contract Amount	Dates Work was Performed	Owner and Name of Contact Person and Phone Number	Designer (Engineer) and Name of Contact Person and Phone Number
<p>Pelican Isle Yacht Club, Naples, FL Project consisted of seven phases. Phases I, IV & VI consisted of 26,900 sq. ft. of concrete floating dock, seventy-eight 14" dia. x 56' L steel pipe piles with HDPE sleeves, nine gangways, and fifty 12" x 40' timber fendoff piles. Phases II, V & VII included 741 LF of seawall with over 132 helical anchors. Phases II, III & V also included 10,476 SF of timber-framed fixed docks with composite decking and piles needed for future boat lifts. Phase VII included installation of 3,328 SF of aluminum floating dock with nine 14" steel pipe piles with HDPE sleeves, one gangway, a set of articulating stairs, and a 5' x 10' aluminum fixed landing supported by 14" concrete piles. 604 LF of dock handrail constructed from composite decking & stainless-steel wire rail components completed the docks. Please see the Project Information sheet provided in the Sampling of Project Experience for additional details on KBI's scope of work.</p>	\$ 7,858,459.17	June 2023 - June 2024	<p>Pelican Isle Yacht Club, Inc. Description and Location of the Work	Contract Amount	Dates Work was Performed	Owner and Name of Contact Person and Phone Number	Designer (Engineer) and Name of Contact Person and Phone Number
<p>Park Shore Landings, Naples, FL Work started with the removal and disposal of the pressure-treated wood docks then the portion of existing seawall needed to install 901 LF of vinyl sheet pile was demolished. The installation of the vinyl seawall included a concrete cap, concrete deadman and helical anchors. Once the new seawall was in place and the property secured, eighteen 4' x 24' fixed finger docks, totaling 1,896 sq. ft., were constructed in the original footprint along with a 7' x 24' fixed dock for fishing. All docks were constructed of pressure treaded lumber and decked with WearDeck composite decking. Added to the KBI's scope was a 12' x12' kayak dock with "Safe Launch." The kayak dock is accessed by a seven-step articulating aluminum stairway, which allows quick access without incorporating a long gangway. KBI's scope of work also included a 5' wide paver walkway alongside the seawall with low voltage landscape lighting, a fish cleaning table, fire standpipe system, fire extinguishers and the installation of shore power and water for each of the 36 slips. Please see the Project Information sheet provided in the Sampling of Project Experience for additional details on KBI's scope of work.</p>	\$ 1,784,242.22	August 2021 - April 2022	<p>Park Shore Landings Condominium Associaton, Inc. <p>Saltleaf Marina, Phase I and II, Bonita Springs, FL Completed Phase I, construction underway for Phase II of this multi-million-dollar marina. The environmentally sensitive wetland site required extensive clearing and dredging for the marina basin to be cut from the raw land. More than 14,803 CYs of spoils were removed via mechanical dredging from KBI's company-owned barge along with auxiliary dredging from land. The dredge material was stockpiled upland for use later as backfill. Please see the Project Information sheet provided in the Sampling of Project Experience for additional details on KBI's scope of work.</p>	\$ 8,155,608.23	In Progress	<p>LB Estero Bay Investments Rick VanDyne Senior Construction Manager London Bay Development Group Office: 239-449-1514 Email: RickVanDyne@londonbay.com</p>	<p>Coastal Engineering Consultants, Inc. Jeremy Herget Professional Engineer Office: 239-643-2324 Email: jherget@cecifl.com</p>
<p>One Naples, Naples, FL Demolished the existing seawall and riprap embankments in order to construct a 568 LF cantilevered seawall engineered without deadmen. The "combi" seawall's substructure is constructed of 18' long steel sheet pile and 47' long H-piles. The seawall's curtain cap entombs the steel substructure from the top to the mudline in order to prevent corrosion and increase the structural integrity of the wall. De-mucked and backfilled behind the wall making the land buildable and ready for upland construction. Supplied and installed 6,901 SF of concrete floating dock. The floating docks are secured with 65' long, 12.75" dia. steel pipe piles with HDPE sleeves. Provided dock amenities including dock boxes, safety ladders, along with environmental and slip number signage. Coordinated and managed the installation of the marina's fire suppression system. Please see the Project Information sheet provided in the Sampling of Project Experience for additional details on KBI's scope of work.</p>	\$ 5,210,329.00	November 2022 - November 2023	<p>Vanderbilt Naples Holdings, LLC Christopher L. Date Completed:

October 2012

Final Contract Amount:

\$1,805,054.01

KELLY BROTHERS, INC
COMMERCIAL MARINE CONTRACTOR

Tin City Naples, Florida

Kelly Brothers (KBI) was the construction team responsible for the waterfront restoration of Tin City after Hurricane Irma caused massive seawall and boardwalk damage at this historical restaurant and shopping complex. The project started with the demolition of the failed seawall and boardwalk. The new 392 linear ft. of seawall was constructed as a resilient H-Pile Combi-Wall. Steel H-piles were drilled deep into rock, steel sheet piles were driven into the rock, all topped with concrete cap. The seawall was engineered to cantilever on its own; independent of tie backs. Zinc anodes were welded onto the steel sheet piles below the water line. Over 1,900 sq. ft. of new IPE boardwalk was installed, supported seaside by the concrete cap and landward by new pressure treated pilings driven into the land. Over 400 LF of hand railing was also installed. Two mooring facilities were constructed with 14" wood fender piles, along with the removal and replacement of a floating dock. Construction of two decks, backfill restoration and utilities were also part of the KBI's responsibilities in the restoration efforts.

Location:

1200 5th Ave. S
Naples, FL

Contract:

Prime

Date Completed:

December 2018

Final Contract Amount:

\$1,547,311.03

KELLY BROTHERS, INC
COMMERCIAL MARINE CONTRACTOR

Naples Land Yacht Harbor Naples, Florida

Kelly Brothers (KBI) worked to remove and replace 240 LF of seawall, which was severely pushed out of alignment during Hurricane Irma. The failed concrete wall was replaced with 12 x 8 Truline vinyl U-Channel panels, which were set to rock and cut to grade. Prior to tremie pouring concrete into each panel the existing tieback rods were modified with a HDG pivoting termination inserted through the panels to secure a composite exterior waler. Concurrently, a temporary sheet pile wall was installed in front of each home prior to removing short sections of damaged wall to prevent further soil erosion beneath the homes located in the immediate vicinity of the repairs. A steel reinforced concrete cap was installed followed by a french drain / well point system and then backfilled.

Location:

301 Pier C
Naples, FL

Naples, FL 34104

Contract:

Prime

Date Completed:

December 2018

Final Contract Amount:

\$281,650.34

KELLY BROTHERS, INC
COMMERCIAL MARINE CONTRACTOR

Ville de Marco West Marco Island, Florida

Phase I of the project consisted of installing a 365 linear ft. cantilever steel sheet pile (SSP) wall with a concrete curtain wall and cap replacing the concrete seawall obliterated during Hurricane Irma. The Z-profile SSPs, ranging in length from 40' to 52', were installed to top of rock; damaged piers, concrete blocks, landscaping, and other hurricane debris were removed from the alignment. Once the seawall was secured, a 2' deep x 4' tall concrete curtain wall, spanning the tidal zone, was poured along the entire face followed by a 3' x 2.5' concrete cap. Additionally, a 40 linear ft. section of SSP toe wall was constructed 20' below water for scour counter measures. An engineered cathodic protection system was installed consisting of 34, 240 lb. aluminum anodes welded along the seawall face and toe wall. During all SSP installation the exposed building was monitored for vibrations and observed for settlement by a third-party surveyor. The steel sheet piles were successfully driven into place without causing any added duress on the already precarious structures.

Phase II consisted of filling in behind the new seawall with 6,800 cubic yards of locally dredged sand, rebuilding the fishing pier and resident finger docks, along with restoring a 12,000 sq. ft. area in front of the seawall with 3450 cubic yards of locally dredged sand and securing it with armor mat for scour protection. Timber dock and mooring piles ranging from 25 linear ft. to 50 linear ft. were installed in their previous footprint with all new composite decking. The fishing pier located at the point encompasses grout filled steel pipe piles wrapped with HDPE sleeves, composite decking, IPE railing, ADA accessible ramps and viewpoints, and a fish cleaning table. In addition, a 500CF concrete deadman/tie-back system was constructed to offer additional support to the new seawall and a French drain was installed. Due to the washout effects of the Hurricane, the underside of the building slab closest to the point was exposed and needed to be sealed with waterproofing materials and backfilled.

KELLY BROTHERS, INC
COMMERCIAL MARINE CONTRACTOR

Rose Marina, Forklift Pad Marco Island, Florida

Kelly Brothers (KBI) demolished and reconstructed the forklift pad for this 3-acre full-service waterfront marina. This 109-slip marina nestled in Factory Bay offers deep water and direct access to the Gulf of Mexico and local inter-coastal waterways. This 49 ft. x 14 ft. fork lift pad was rebuilt using 33 concrete piles, each 35 ft. in length, SG950 vinyl sheet pile, 21,000 lbs. of reinforcing steel, and 825 sq. ft. of concrete. KBI was also responsible for the installation of the forklift stop.

KELLY BROTHERS, INC
COMMERCIAL MARINE CONTRACTOR

Pelican Isle Yacht Club Naples, Florida

Kelly Brothers (KBI) is currently working with the Pelican Isles Yacht Club (PIYC), which was one of many marinas in SW Florida heavily damaged by Hurricane Ian. KBI was contracted shortly after the horrific hurricane to demolish the storm-ravaged docks, construct new docks, and replace multiple seawalls. The project has been broken into seven phases allowing each phase to be turned over to the PIYC community for use as each is completed. Phases I, IV and VI consists of concrete floating dock; KBI has installed 26,900 sq. ft. of floating dock, seventy-eight 14" dia. x 56' L steel pipe piles with HDPE sleeves, nine gangways, and fifty 12" x 40' timber fend-off piles. Phases II, V and VII include replacement of 741 LF of seawall. The new vinyl seawall and concrete cap build had to be done with great care to avert any damage to the multiple upland utilities that remained in place, such as electrical transformers and stormwater drainage. Over 132 helical anchors have been installed as part of the new seawall build. Phases II, III and V also included 10,476 SF of timber-framed fixed docks with composite decking along with the piles needed for future boatlifts. The work of phase VII includes installation of 3,328 SF of aluminum floating dock with nine 14" steel pipe piles with HDPE sleeves, one gangway, a set of articulating stairs, and a 5' x 10' aluminum fixed landing supported by 14" concrete piles. Installation of 604 LF of dock handrail constructed from composite decking and stainless-steel wire rail components will complete the docks.

KELLY BROTHERS, INC
COMMERCIAL MARINE CONTRACTOR

Riverside Marina, Marco Island Yacht Club Marco Island, Florida

Kelly Brothers (KBI) completed work on the prestigious Riverside Marina at Marco Island Yacht Club. This exclusive marina provides 26 wet slips ranging from 50' to 125' long and 22' to 29' wide. Work started with the demolition of an existing fixed dock and gazebo. Mechanical dredging of the marina's waterfront footprint was done to a -6 to -7 below mean low water resulting in approximately 4,000 CY of spoils being removed from the site. KBI constructed 550 LF of vinyl seawall with a helical tie back anchoring system and reinforced concrete cap. Riprap refurbishment consisted of placing 25 tons of 12 to 24" rock while 382 tons of 57 stone filled the void between the old and new seawall. The buildout also included the construction of a 4,746 S.F. fixed dock finished with WearDeck composite decking. Additionally, KBI assembled and installed 5,787 S.F. of concrete floating docks and 9,577 S.F. of floating concrete wave attenuator. The 21 accompanying 18" by 60 ft. steel pipe piles with HDPE sleeves were driven to the required pile penetration utilizing a V35 vibratory hammer. Sixty-four fendoff piles, two concrete piles bents with concrete caps used to anchor the marina's two aluminum gangways and five 40K boat lifts were also installed. Modernization of the utilities including fire, water, pump-out facilities, lighting, and electric with Wi-Fi were within KBI's scope. The upgraded electric provides the marina with the ability to concurrently power multiple mega yachts.

KELLY BROTHERS, INC
COMMERCIAL MARINE CONTRACTOR

Park Shore Landings Naples, Florida

Kelly Brothers (KBI) was hired to replace a failing seawall and time-worn docks located on the intercoastal waters of Venetian Bay. The jobsite offered limited land accessibility thus the majority of the work was conducted waterside from KBI's sectional barge. Work started with the removal and disposal of the pressure-treated wood docks then the portion of existing seawall needed to install 901 LF of vinyl sheet pile was demolished. The installation of the vinyl seawall included a concrete cap, concrete deadman and helical anchors. Special care was taken while working in areas where buildings encroach on the radiused seawall. Once the new seawall was in place and the property secured, eighteen 4' x 24' fixed finger docks, totaling 1,896 sq. ft., were constructed in the original footprint along with a 7' x 24' fixed dock for fishing. All docks were constructed of pressure treated lumber and decked with WearDeck composite decking. Added to the KBI's scope was a 12' x 12' kayak dock with "Safe Launch." The kayak dock is accessed by a seven-step articulating aluminum stairway, which allows quick access without incorporating a long gangway. KBI's scope of work also included a 5' wide paver walkway alongside the seawall with low voltage landscape lighting, a fish cleaning table, fire standpipe system, fire extinguishers and the installation of shore power and water for each of the 36 slips.

Cons-Buckley's Pass Punta Gorda, Florida

Kelly Brothers' (KBI) was tasked to create a navigational access channel connecting the Punta Gorda Isles canal system to Charlotte Harbor. The channel, approximately 1,446 ft. long and 60 ft. wide, was cut through a mixed wetland / upland area. Over 17,500 CY of material was dredged to form the pass and clear the adjoining waterways. Due to the constrictive site conditions and access, dredging operations were limited to small barge loads of 65-75 CY of material, with multiple trips to the spoil site on a daily basis. In addition, 1050 LF of vinyl seawall with helical anchor tie-backs was installed below water to protect the newly formed mangrove banks. A Smalltooth Sawfish habitat was created, 900+ tons of rip rap was installed for erosion control and 700 mangrove seedlings were planted. Regardless of the challenging site conditions, the project was completed on time and under budget.

Water Control Structure No. 108 North Port, Florida

Kelly Brothers (KBI) was the prime contractor to construct a new water control structure (WCS) located on the Cocoplum Waterway between the existing structure and Collingswood Blvd. The new WCS includes a coated sheet pile weir with reinforced concrete cap, riprap, and catwalk with lighting. It is constructed with a total of six new manually operated stainless steel gates; two push-down center gates and four pull-up gates. Work included installation of a temporary coffer dam upstream and downstream of the work area, a bypass pipe to maintain waterway flow, dewatering & turbidity monitoring, along with demolition/disposal of the old dilapidated structure. Construction of the 150' long structure spanning fully across the waterway included driving 41' long steel sheet pile with an embedment of +32', dredging/grading of the waterway and surrounding area, forming and casting the concrete cap and support columns, installation of the stainless-steel gates, assembly and installation of the aluminum catwalk, placement of riprap and site restoration. Coordination and installation of a new power pole, electric feed and installation of the electrical service and lighting components were also the responsibility of KBI. The contracted project duration was 365 calendar days; KBI was able to complete the project in 162 calendar days. In addition, during a very volatile raw materials market the project was completed on budget with zero change orders.

KELLY BROTHERS, INC
COMMERCIAL MARINE CONTRACTOR

Saltleaf Marina, Phase I and II Bonita Springs, Florida

Kelly Brothers (KBI) has completed Phase I and construction is underway for Phase II of this multi-million-dollar marina project; part of the Ritz-Carlton Residences, Estero Bay development. The marina is located on Estero Bay boarding one of Southwest Florida's last great stretches of waterfront, which is next to Florida's very first aquatic preserve. The environmental sensitive wetland site required extensive clearing and dredging for the marina basin to be cut from the raw land. A partially built seawall was removed and disposed of; the area surrounding the basin was cleared of debris and overgrowth in preparation for the construction of the 1086 LF of concrete seawall. KBI mobilized to the jobsite prior to project commencement and created a casting area, where 280, 15' x 4' x 8" concrete panels were cast onsite. Casting of the panels along with eight 4' x 20' boat ramp slabs took approximately 16 weeks. Work then began with installation of the concrete seawall panels, and continued with casting of the seawall cap, and dredging of the marina basin. More than 14,803 CYs of spoils were removed via mechanical dredging from KBI's company-owned barge along with auxiliary dredging from land. The dredge material was stockpiled upland for use later as backfill. KBI's work also included the construction of a 17' W by 90' L concrete boat ramp with armorat scour protection, 122 LF of submerged vinyl sheet pile, and 39 LF of vinyl seawall. The successful completion of Phase I convinced the Owner to enthusiastically award the contract for Phase II of the marina build to Kelly Brothers. Phase II will include 11,438 SF of fixed dock, 2,564 SF of floating dock, 52 boatlifts, along with dock electric, water, sewer and fire suppression.

COMMERCIAL MARINE CONTRACTOR

One Naples Naples, Florida

Kelly Brothers (KBI) completed the work at this multi-slip marina, which is part of the Ritz Carlton Residences, Naples. KBI demolished the existing seawall and riprap embankments in order to construct a 568 LF cantilevered seawall engineered without deadmen to allow for full development of the site's upland property. The "combi" seawall's substructure is constructed of 18' long steel sheet pile and 47' long H-piles. The seawall's curtain cap entombs the steel substructure from the top to the mudline in order to prevent corrosion and increase the structural integrity of the wall. KBI also de-mucked and backfilled behind the wall making the land buildable and ready for upland construction. Waterward, Kelly Brothers supplied and installed 6,901 SF of concrete floating dock. One of the three structures has been engineered and installed with the ability to float the future 20' x 27' dockmaster's office and fueling station. The floating docks are secured with 65' long, 12.75" dia. steel pipe piles with HDPE sleeves. KBI also provided dock amenities including dock boxes, safety ladders, along with environmental and slip number signage. KBI also coordinated and managed the installation of the marina's fire suppression system.

Port and Marine Services
(305) 809-3791

June 23, 2017

To whom it may concern:

Kelly Brothers was hired to be the prime contractor for the Mallory Square 20,000 sq. ft. wharf renovation project in 2009. During the construction Kelly Brothers provided the expertise and leadership to make this project run efficiently.

Their crew was highly focused on safety and quality, along with being very skilled in their trades. I commend them for their hard work and dedication. The work was done with care and precision and the project was completed on time and within budget.

The Kelly Brothers management team utilized excellent project management skills to problem solve any issue that arose during the project. Their personnel was knowledgeable and communicative, often anticipating potential issues and working cooperatively with the City to resolve them. I found them to be very honest, straightforward and fair on all issues, which allowed me to make informed decisions keeping the project moving forward and to a successful completion.

I would definitely recommend Kelly Brothers for any marine construction project, large or small. Please feel free to contact me; my office phone number is 305-809-3792.

Sincerely,

A handwritten signature in black ink, appearing to read "DB", with a long horizontal line extending to the right.

Doug Bradshaw
Port and Marine Services Director

January 16, 2017

To whom it may concern:

I would like to extend my personal thanks to you and the tremendous team at Kelly Brothers for your work on the Diversified Yacht Services marina construction project. Kelly Brothers was a true partner throughout the process and was instrumental in the successful completion of this project.

Your company is able to deliver excellent quality, on time and within budget, while not losing sight that safety is a number one priority. I enjoyed working with you and your colleagues. Your staff is highly-skilled with an eye for detail and showed a commitment to quality, which exceeded our high standards.

Kelly Brothers persistence, hard work, knowledge and experience proved invaluable to us and I am extremely pleased with our decision of having selected Kelly Brothers to join us in the construction of this luxury yacht facility. Please feel free to refer any prospective clients, I will gladly provide your company a strong recommendation.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Jack Jamme', is written over the word 'Sincerely,'.

To whom it may concern:

I am pleased to provide this letter of recommendation for Kelly Brothers, Inc.

I have worked with Kelly Brothers, Inc. (KBI) on several diverse projects; most recently on the historic Tin City Waterfront Shops' seawall and boardwalk reconstruction. Tin City's waterfront promenade required major restoration after Hurricane Irma devastated the area causing the seawall and boardwalk to fail. We designed the reconstruction of the seawall and boardwalk and bid the work out to qualified marine contractors. Kelly Brothers was recommended and selected over other bidders for the project due to their experience working in very difficult site conditions, their competitive pricing and heavy equipment needed to perform the complex installation. KBI worked very well with the various business owners to ensure their work had as little impact as possible. Regular site meetings were held and any concerns were promptly, professionally and fairly addressed. The project workmanship was excellent and their dedication to the prompt completion of this \$1.5 million project was greatly appreciated by all.

Consistent with previous work experience, I found their staff to be skilled and knowledgeable. Everyone goes above and beyond to satisfy the client. The quality of the service provided as well as the level of professionalism and integrity demonstrated by their employees is outstanding.

I highly recommend Kelly Brothers for any marine construction project you may be proposing. I am impressed with the quality of their work and will certainly utilize their firm in the future. If you require additional information please contact me at (239) 643-0166 or via email at patrick@thanaples.com.

RE: Letter of Recommendation: Seawall Replacement – Naples Land Yacht Harbor, Naples FL

To whom it may concern:

On behalf of the community at Naples Land Yacht Harbor I would like to thank Kelly Brothers' team for the replacement of 240 LF of Hurricane Irma damaged seawall. The management and construction team appointed to perform this work was excellent and contributed to the success of the project's execution and completion time frame.

Special care was required for this repair since homes are located in the immediate vicinity of the severely damaged seawall. KBI took great care in preventing additional damages to these homes by demolishing the seawall in small sections and installing effective temporary shoring as erosion control. The team kept the site clean and tidy, and were always polite and professional to inquisitive members of the community. The completed seawall exceeded our expectations of what was to be expected by leaving the site in pre-hurricane conditions.

I highly recommend Kelly Brothers, Inc. to anyone needing the installation of a Truline panel. I am confident they will be able to handle any challenge your project may encounter and provide quality workmanship.

Regards,

Jack Bonzelaar
Naples Land Yacht Harbor

Ville de Marco West

Where the dolphins play...

To Whom it May Concern:

In September 2017 Hurricane Irma destroyed 360 feet of seawall at Ville de Marco West on Marco Island, Florida. The devastation wreaked havoc, resulting in the total undermining of a four-story building, removing a ½ acre of land, exposing the area to the invading waters of the Gulf of Mexico, and depriving 10 owners access to their homes. Kelly Brothers, Inc. was hired to restore this beloved piece of paradise, which we call 'the Point,' to a state even better than when Irma found it.

From the outset challenges presented themselves in many forms in both the design and building phases of the seawall, the replacement of the surrounding land, and remediation of the underside of the undermined building. Whether in the board room or in the field, Dane and Travis Kelly's expertise ensured an excellent product all around.

Because of the extensive land loss and strong currents, a cantilevered seawall, unique to this area, was designed with input from both Kelly Brothers. They helped to reduce our risk and enhance the future integrity of the structure. They listened to any comments, be they suggestions or complaints, giving us answers which met or exceeded our expectations.

The brothers made sure our Directors understood each element of every aspect of the project and worked seamlessly in the field to make it happen. Dane and Travis Kelly's expertise resulted in a superior seawall and successful conclusion to our restoration.

The complex nature of the project, and its perilous location at the corner of the Collier Creek and the Marco River, presented difficult site conditions which Supervisor Bob Horne expertly managed, both in and out of the water, with his team of workers using everything from hand trowels to huge cranes. His crew were professional, courteous, and conscientious.

The Point at Ville de Marco West is restored with what we believe is a stronger, more secure seawall with a long life span as a result of our contract with Kelly Brothers, Inc. From what we hear from local disaster experts, engineers, residents, and passing boaters, they agree.

The owners and Board of Directors of Ville de Marco West thank Kelly Brothers, Inc. and their employees for a job well done. We look forward to continuing our relationship.

Yours truly,

Ben Farnsworth
President
Board of Directors

President
Kelly Brothers, Inc.
15775 Pine Ridge Road
Fort Myers, FL 33908

Having reached the very successful conclusion of our project to upgrade our seawall and install a new marina, I want to take this opportunity to thank you and the entire Kelly Brothers, Inc. team. From the initial quoting process through to resolving punch list items at the conclusion of the project, you and your employees demonstrated a level of professionalism and competence rarely found in business today

Two attributes embedded in your company culture which I especially appreciate are complete transparency and a commitment to quality...in other words "getting it done correctly". It was impressive to see these attributes exhibited by the employees working on the project. Every member of our Club associated with the project commented to me about the skill, diligence, and responsiveness of KBI employees working on the project.

I also appreciated the efforts to minimize the impact of the construction activity on our Club during the project. Enabling us to continue our dining and banquet operations certainly added a burden to the KBI team. However, your team's efforts enabled us to continue to serve our members and guests with a minimal impact on them and our daily operations

On behalf of the entire Marco Island Yacht Club, I want to convey our appreciation and gratitude for a project 'well done'! I heartily recommend your company to any individual or group that is considering a complex marine construction project. From my perspective, there is no other marine construction company that approaches the capability and customer focus demonstrated by Kelly Brothers, Inc.

David Everitt
Chairman, Board of Directors

**RE: Contractor Recommendation
Kelly Brothers, Inc.
15775 Pine Ridge Road
Fort Myers, FL 33908**

To whom it may concern,

Our firm has worked with Kelly Brothers Inc. for over 25 years on a variety of seawall, riprap, dredging, dock, boathouse and marina construction projects. They have the proper equipment and properly trained staff to tackle nearly every aspect of marine construction minimizing the chance for delays and complications experienced by smaller contractors. To back up their construction crews they have very experienced office staff that ensures contract conditions are followed, pay requests are submitted on time and proper permits are secured for all work.

In the last 10 years I have personally worked with Kelly Brothers Inc. on projects that range from re-decking a multi-family docking facility to commercial marine construction and every job has been completed on budget with minimal punch list items needing to be addressed. Their job sites are kept clean which transfers to their workmanship and finish quality of their projects.

We have recommended Kelly Brothers Inc. to many clients, developers and municipalities based on our experience with them and the long list of satisfied clients we both have together. I can assure you that they are one of the most qualified and competent contractors in southwest Florida and recommend them for consideration.

If you have any questions regarding their past performance feel free to contact me at the number in the letterhead above.

Regards,

Joshua W. Maxwell, P.E./Chief Engineer
Turrell, Hall & Associates, Inc.

Collier County has implemented a process that collects reference information on firms and their key personnel to be used in the selection of firms to perform this project. The Name of the Company listed in the Subject above has listed you as a client for which they have previously performed work. Please complete the survey. Please rate each criteria to the best of your knowledge on a scale of 1 to 10, with 10 representing that you were very satisfied (and would hire the firm/individual again) and 1 representing that you were very unsatisfied (and would never hire the firm/individual again). If you do not have sufficient knowledge of past performance in a particular area, leave it blank and the item or form will be scored "0."

Project Description: Cons-Buckley's Pass Completion Date: April 2020
 Project Budget: \$1,788,424.16 Project Number of Days: 245

Item	Criteria	Score (must be completed)
1	Ability to manage the project costs (minimize change orders to scope).	10
2	Ability to maintain project schedule (complete on-time or early).	10
3	Quality of work.	10
4	Quality of consultative advice provided on the project.	10
5	Professionalism and ability to manage personnel.	10
6	Project administration (completed documents, final invoice, final product turnover; invoices; manuals or going forward documentation, etc.)	10
7	Ability to verbally communicate and document information clearly and succinctly.	10
8	Ability to manage risks and unexpected project circumstances.	9
9	Ability to follow contract documents, policies, procedures, rules, regulations, etc.	10
10	Overall comfort level with hiring the company in the future (customer satisfaction).	10

Evaluator Comments (please attach additional pages, if needed):

The KBI team is extremely professional, responsive and their work quality is impeccable.

Jake Kinnear is the KBI project manager, Dale Bird is the site supervisor, Bob DeMeo is the Controller & Contract Administration.

This project is one of the fastest water control structures constructed in the City, with no issues from the surrounding community.

Jake is very thorough and timely in shop drawings submittals. Where needed, request for information was submitted. Jake's management skills kept the project moving forward and completed well in advance of the deadline with no change orders.

Pay requests were submitted accurately and request for additional information provided promptly.

Would you recommend this Contractor for future contracts? Yes No . If no, please explain below:

It was a pleasure to work with the KBI team and I look forward to working again with KBI on future projects.

Contractor Comments (please attach additional pages, if needed):

Working for the City of North Port to construct WCS No. 108 was a great experience. The city staff and EOR were knowledgeable of all aspects of the the project and responsive to submittals, RFI's and pay applications. In addition, the team atmosphere and amiable personalities of the cities staff inspired efficiency and quality throughout the project. Kelly Brothers Inc. greatly appreciates the opportunity to work for the City of North Port and hopes to work together again in the future.

To Whom It May Concern,

It is with great professional pride that I write this letter of recommendation on behalf of Kelly Brothers for the outstanding work they did for Lee County. I had the pleasure of working with Kelly Brothers on Phase IV of the Manatee Park Canal Bank Reinforcement project. I was extremely impressed with their work on this project.

Manatee Park is a heavily trafficked tourist attraction during its season. Kelly Brothers was contracted prior to the park's season on a very tight deadline, so the challenges were great. They not only met the deadline, but beat it with plenty of time to spare. Their work was completed in a safe and professional manner with integrity and courtesy towards everyone. The job site was kept so neat that it was difficult to differentiate the disturbed areas from the non-disturbed areas. As for the work itself, they installed some of the finest sea walls and retaining walls I have seen in my career. They were very easy to work with, and always willing to go to extra lengths to meet our expectations.

I highly recommend Kelly Brothers for any marine construction project you may be proposing. Their knowledge and expertise has proven to be invaluable, and I look forward to working with them again in the near future.

Respectfully,

Rick Whalen

Richard P. Whalen, P.E.

Fort Myers, FL 33908

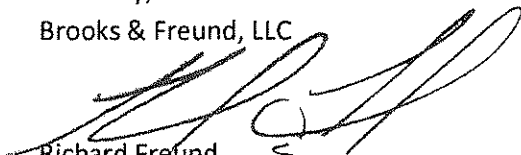

To Whom it may concern:

I am writing this letter as a recommendation for Kelly Brothers Inc. They have just completed a \$1,300,000.00 project for Brooks & Freund located in Largo, Florida. This project consisted of installing vinyl piles from 8' to 26' in length which included a concrete cap and vinyl weir.

Kelly Brothers is a very professional company. The Project Managers and foremen were outstanding. They cleaned up on a daily basis, met project schedules, and reported to and worked with engineers to resolve challenges that arose to minimize delays. I believe it is their attention to detail that sets Kelly Brothers apart from other companies.

I would recommend Kelly Brothers for any project, large or small. Their performance and professionalism has been exemplified in every project completed for Brooks & Freund.

Sincerely,
Brooks & Freund, LLC

RE: Letter of Recommendation: Seawall Replacement – MarineMax, Naples, FL

To Whom It May Concern:

On behalf of GCG Construction, Inc. I would like to thank the Kelly Brothers team for the replacement of 90 LF concrete seawall and cap destroyed by Hurricane Irma at MarineMax in Naples, FL. The project was addressed in a timely manner and completed ahead of schedule.

The project required the existing concrete wall to be replaced with a new vinyl sheet pile wall tied back with helical anchors and a new cap and slab-on-grade cast-in-place with steel reinforcement. All work was completed per the plans and specification throughout the construction process as documented by the Engineer of Record. Our client, MarineMax, appreciated the communication during the project, the expedited processing and execution of requested change orders, and maintaining an organized jobsite.

It is with great pleasure that I recommend Kelly Brothers, Inc. as a contractor for any type of marine construction that you may be considering. The project was a complete success by all accounts. GCG Construction, Inc. looks forward to a continued relationship and future projects with Kelly Brothers.

Sincerely,

Jim Del Vecchio
Project Manager
GCG Construction

Nothing we do is more important than planning and performing our work SAFELY

October 21, 2019

Dear Kelly Brothers, Inc.,

Our team at GCG Construction, Inc. wanted to let you know how much we have appreciated working with the KBI team. From the beginning of our MarineMax – Sarasota project, KBI set a tone for professionalism and work ethic that has become increasingly harder and harder to find in our industry. Every obstacle was met with immediate solutions and every attempt to reduce any impact on our client or the marina operations has been greatly appreciated. As you know, so much of our pipeline of work is based off word of mouth and repeat business.

GCG has received much acclamation from the MarineMax staff on KBI's performance. The staff has recently witnessed numerous trades and contractors over the past year and have many times acknowledged KBI as one of the most impressive. These comments were specifically directed towards Jorge and the crew and how they simply just moved with a purpose, and a plan that appeared to be executed efficiently and effectively.

It is obvious that KBI puts a high level of importance on a clean, safe work environment, well-organized and competent crew with excellent communication. This team effort and project experience speaks volumes and we appreciate it. We look forward to more of the same as we successfully progress to the end of this project and sincerely hope we have the opportunity to work together on many more in the future.

Thank you,

Teely Byrd
Vice President
GCG Construction, Inc.

Re: MarineMax – Sea Wall Replacement
Ft. Myers, FL

Mr. Kelly,

On behalf of GCG Construction, Inc., I would like to thank you and the entire Kelly Brothers, Inc. team for the effort and service provided for the Sea Wall replacement at MarineMax in Ft. Myers, Florida. The project was completed ahead of schedule and on budget with no cost overruns.

The project consisted of 155 LF of new steel sheet pile wall tied back with steel pile dead men and a new poured-in-place concrete cap. All work was completed per the plans and specification as documented by the Engineer of Record throughout the construction process. Our client, MarineMax, appreciated the coordination with the barge move in/out and is very happy with the final product.

By all accounts the project was a complete success. GCG Construction, Inc. looks forward to a continued relationship and future projects with Kelly Brothers, Inc.

Sincerely,

Andrew Solon
Senior Project Manager
GCG Construction, Inc.

and my relationship to the entity named above is President

4. I understand that a “public entity crime” as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including but not limited to, any bid or contract for goods or services to be provided to any public or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, material misrepresentation.

5. I understand that “convicted” or “conviction” as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication guilt, in any federal or state trial court of record relating to charges brought by indictment information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an “affiliate” as defined in Paragraph 287.133(1)(a), Florida Statutes, means

- a. A predecessor or successor of a person convicted of a public entity crime; or
 - b. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term “affiliate” includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm’s length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.
7. I understand that a “person” as defined in Paragraph 287.133(1)(8), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with public entity. The term “person” includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.
8. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies).

Neither the entity submitting this sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members, or agents who are active in management of the entity, nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989, AND (Please indicate which additional statement applies.)

There has been a proceeding concerning the conviction before a hearing of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order.)

The person or affiliate was placed on the convicted vendor list. There has been a subsequent proceeding before a hearing officer of the State of

Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. (Please attach a copy of the final order.)

The person or affiliate has not been put on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services.)

INDEMNIFICATION

To the fullest extent permitted by law, the CONTRACTOR expressly agrees to indemnify and hold harmless the City of Key West, their officers, directors, agents, and employees (herein called the "indemnitees") from liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees and court costs, such legal expenses to include costs incurred in establishing the indemnification and other rights agreed to in this Paragraph, to persons or property, to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of the CONTRACTOR, its Subcontractors or persons employed or utilized by them in the performance of the Contract. Claims by indemnitees for indemnification shall be limited to the amount of CONTRACTOR's insurance or \$1 million per occurrence, whichever is greater. The parties acknowledge that the amount of the indemnity required hereunder bears a reasonable commercial relationship to the Contract and it is part of the project specifications or the bid documents, if any.

The indemnification obligations under the Contract shall not be restricted in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for the CONTRACTOR under workers' compensation acts, disability benefits acts, or other employee benefits acts, and shall extend to and include any actions brought by or in the name of any employee of the CONTRACTOR or of any third party to whom CONTRACTOR may subcontract a part or all of the Work. This indemnification shall continue beyond the date of completion of the work.

As a nongovernmental entity executing, renewing, or extending a contract with a government entity, Vendor is required to provide an affidavit under penalty of perjury attesting that Vendor does not use coercion for labor or services in accordance with Section 787.06, Florida Statutes.

As defined in Section 787.06(2)(a), coercion means:

1. Using or threatening to use physical force against any person;
2. Restraining, isolating, or confining or threatening to restrain, isolate, or confine any person without lawful authority and against her or his will;
3. Using lending or other credit methods to establish a debt by any person when labor or services are pledged as a security for the debt, if the value of the labor or services as reasonably assessed is not applied toward the liquidation of the debt, the length and nature of the labor or service are not respectively limited and defined;
4. Destroying, concealing, removing, confiscating, withholding, or possessing any actual or purported passport, visa, or other immigration document, or any other actual or purported government identification document, of any person;
5. Causing or threatening to cause financial harm to any person;
6. Enticing or luring any person by fraud or deceit; or
7. Providing a controlled substance as outlined in Schedule I or Schedule II of Section 893.03 to any person for the purpose of exploitation of that person.

As a person authorized to sign on behalf of Vendor, I certify under penalties of perjury that Vendor does not use coercion for labor or services in accordance with Section 787.06. Additionally, Vendor has reviewed Section 787.06, Florida Statutes, and agrees to abide by same.

Certified By: Dane Kelly, who is authorized to sign on behalf of the above referenced company.
