### ADDENDUM NO. 1

#### ***RAHEPF ferric sulfate tank replacement & gangway replacement ITB 22-005***

This addendum is issued as supplemental information to the bid package for clarification of certain matters of both a general and a technical nature. The following addresses specific questions asked by plan holders.

**Question 1: Would aluminum structural beams be acceptable as well so we can provide a bid for a complete aluminum structure?**

No, please bid stainless steel structural framing as specified.

**Question 2: Is the removable mid rail just the one section that is highlighted on the specs or would the entire section of railing need to be removable as well, so as to act as a gate?**

A removable mid-rail is required on all four gangways. The highlighted section (aka one horizontal bar) shall be removable; the top bar and toe board are permanent. This is intended to allow for room to manually operate the gates.

**Question 3: Do you know the project's estimated value?**

No, there is no EOR prepared estimate for this project.

Figure 1.0: Removable horizontal bar shown

All Bidders shall acknowledge receipt and acceptance of this Addendum No. 1 with Attachment by submitting the addendum with their proposal. Proposals submitted without acknowledgement or without this Addendum may be considered non-responsive.

### ADDENDUM NO. 2

#### ***RAHEPF ferric sulfate tank replacement & gangway replacement ITB 22-005***

This addendum is issued as supplemental information to the bid package for clarification of certain matters of both a general and a technical nature. The following addresses specific questions asked by plan holders.

**Question 1: Please confirm that the city will drain the majority of chemicals from the existing tanks and that the contractor is only responsible for minimal residual chemical removal i.e. 55 gallons or less per tank, along with cleaning the tanks before disposal.**

Yes, plant staff will remove all chemicals required.

**Question 2: Please confirm that the city will be providing all chemicals for this project. If the contractor is responsible for the new tank fill, please provide the city's chemical supplier including a contact name and phone number.**

The city will be providing chemicals to refill the tanks. The contractor is not responsible for supplying ferric sulfate.

**Question 3: Are any coatings required on this project?** Bituminous paint is required where stainless steel parts contact aluminum. A corrosion protection coating required for rebar in repaired concrete sections.

**Question 4: Is any electrical or instrumentation required on this project except for the lightning protecting and grounding that is noted?** A new high level alarm and level monitoring system is required as shown in the project drawings.

**Question 5: What is the site location address?** 100 Fleming Key Rd, Key West, FL 33040

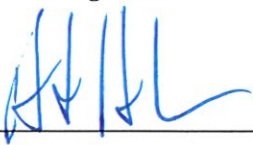

**Question 6: One section of the bid package refers to a contract time of 365 days, but the contract time is specified as 270 days elsewhere. Please clarify.**

The section on page 33 should be revised to read 270 days.

Question 7: The proposal form has three individual separate bid items without a grand total. It has tanks, the gangways, and a contingency. Is this project going to be awarded as a whole or on individual bid item components? Can a bid item for general conditions be added to the proposal form?

The contract will be awarded based on the bid total. Please see revised bid proposal form attached. Please use this sheet when submitting a bid. General conditions can be included in the list items at the bottom of this page.

All Bidders shall acknowledge receipt and acceptance of this Addendum No. 2 with Attachment by submitting the addendum with their proposal. Proposals submitted without acknowledgement or without this Addendum may be considered non-responsive.

### ADDENDUM NO. 3

#### ***RAHEPF ferric sulfate tank replacement & gangway replacement ITB 22-005***

This addendum is issued as supplemental information to the bid package for clarification of certain matters of both a general and a technical nature. The following addresses specific questions asked by plan holders.

**Question 1: Per the Attachments above concerning Edwards Manufacturer, can they be considered a "same as" to the tank specified?**

In general, we recommend that the plast-tank tank specified be used. This matches the current tanks and is expected to make for a smoother replacement process. However, from a structural standpoint, we do not oppose accepting an alternative tank manufacturer, provided:

- Dimensions, capacity, and required fittings are equal
- Each tank is provided with (12) 3/4" anchor locations as shown in the plans
- The tank is designed to resist applicable wind and flood loads as specified in the plans

**Question 2: Our vendor is not finding the aluminum grating in I-Bar that is 19-SG-2 as specified on the drawings. Can there be a substitution? Maybe 19-SG-4?**

Yes, an alternate of 19-SG-4 may be used if it is serrated.

All Bidders shall acknowledge receipt and acceptance of this Addendum No. 3 with Attachment by submitting the addendum with their proposal. Proposals submitted without acknowledgement or without this Addendum may be considered non-responsive.

A handwritten signature in blue ink, appearing to be "Razorback", is written over a horizontal line.

A member of such a committee shall be deemed a city official for the purposes of subsection (c) below.
  - (4) *Vendor* means a person or entity that has entered into or that desires to enter into a contract with the City of Key West or that seeks an award from the city to provide goods, perform a service, render an opinion or advice, or make a recommendation related to a competitive solicitation for compensation or other consideration.
  - (5) *Vendor's representative* means an owner, individual, employee, partner, officer, or member of the board of directors of a vendor, or a consultant, lobbyist, or actual or potential subcontractor or sub-consultant who acts at the behest of a vendor in communicating regarding a competitive solicitation.

- (1) Any communication regarding a particular competitive solicitation between a potential vendor or vendor's representative and the city's administrative staff including, but not limited to, the city manager and his or her staff;
  - (2) Any communication regarding a particular competitive solicitation between a potential vendor or vendor's representative and the mayor, city commissioners, or their respective staff;
  - (3) Any communication regarding a particular competitive solicitation between a potential vendor or vendor's representative and any member of a city evaluation and/or selection committee therefore; and

- (1) Communication between members of the public who are not vendors or a vendor's representative and any city employee, official or member of the city commission;
  - (2) Communications in writing at any time with any city employee, official or member of the city commission, unless specifically prohibited by the applicable competitive solicitation.

- (A) However, any written communication must be filed with the city clerk. Any city employee, official or member of the city commission receiving or making any written communication must immediately file it with the city clerk.

- (8) Purchases exempt from the competitive process pursuant to section 2-797 of these Code of Ordinances;
- (d) *Procedure.*
  - (1) The cone of silence shall be imposed upon each competitive solicitation at the time of public notice of such solicitation as provided by section 2-826 of this Code. Public notice of the cone of silence shall be included in the notice of the competitive solicitation. The city manager shall issue a written notice of the release of each competitive solicitation to the affected departments, with a copy thereof to each commission member, and shall include in any public solicitation for goods and services a statement disclosing the requirements of this ordinance.
  - (2) The cone of silence shall terminate:
