Re: Lot Split/Boundary Line Adjustment
523 and 525 Fleming Street
(Parcel ID 00006430-000200) Lot 15 and Lot 16

Dear Katie:

Our client, Robert James Dean Revocable Trust, (“Applicant”), is the owner of the above-referenced parcels located at the corner of Fleming and Bahama streets within the HNC-1 zoning district. The Applicant desires to adjust the boundaries of the two parcels, pursuant to section 118-169 of the Land Development Regulations, to reflect a new configuration (Exhibit A)¹. Enclosed with this letter are surveys reflecting the existing and proposed layouts of the parcels.

Existing²: Subject property is a corner lot with dimensions 73.85’ x 85.25’. Currently on the property is a one-story concrete block structure used as a storage facility.

Proposed: To adjust the existing boundary line between Lot 15 & Lot 16 (Exhibit A) where one parcel will front Bahama Street and the second parcel will front Fleming Street. Lot sizes remain relatively the same.

In accordance with code Sec. 122-31(b), which allows for, “...two or more adjoining lots or building sites shall not be considered to be an undivided parcel, and **may** [emphasis added] be sold or used for single-family dwellings, if allowed by applicable district regulations, so long as each lot or building site is at least 75% of the minimum lot size of the applicable district regulations, and is not otherwise required to provide required parking for the adjacent parcel.”

Parcel A	4,000 sf	3,195.59 sf	79.8%
Parcel B	4,000 sf	3,149.98 sf	78.7%

Intended Use:

Parcel A: Construct an affordable residential unit compliant with HARC guidelines and current land development regulations including required off-street parking.

Parcel B: This lot is to remain vacant at this time.

Site Data:

Density	16 u/ac	1.15 units	1.15 units	1.17 units	1.17 units

History: This property was platted in 1829³ by William A. Whitehead as part of Square 37 which originally consisted of four (4) 241'- 3" x 176'- 0" lots. The creation of Bahama Street (pre-1908) split Square 37, separating Lots 1 and 2 from Lots 3 and 4. This dissection was not equally distributed leaving the whole width of Bahama Street taken from Lots 1 & 2, reducing the width of that half of Square 37 by 30'-3". This is significant because it impacted the subject parcels.

Throughout the almost 200 years since originally platted, Square 37 has been subdivided and re-subdivided multiply times as downtown Key West developed. The 1908 city map⁴ shows an early delineation of property lines which corresponds with the 1912 Sanborn Fire Insurance Map⁵. See Attachment "E" comparing the 1912 Sanborn and the 1908 city map. Note the one-story dwelling shown on the 1912 map within what was then Lot 8 (1908), located within the current parcel Lot 16 of Marvin's Diagram.

In January 1926, William Marvin filed a Diagram of Square 37 with the clerk of court identifying sixteen (16) parcels within platted Lots 1 and 2. Platted Lot 3, the site of St. Paul's Episcopal Church, remained unchanged and platted Lot 4 was divided into nine (9) parcels.

The two residential dwelling units located at 523 and 525 Fleming Street as shown on the 1912 Sanborn Map were used as residences until c. 1959⁶. In 1962, the First Baptist Church used both structures for Sunday School purposes. By the early 1980s, the 100-year-old structures are removed from the site. Florida Keys Aqueduct (FKAA) records⁷ show two meters were established on the site in the 1940s and 1950s.

According to Monroe County Property Appraiser records, the Applicant, having multiple properties in this block, had all lots combined for assessment purposes in 1991. In 1992, the funeral home property located on recorded Lot 11 and a portion of recorded Lots 10, 11, 12 and 13 were split from recorded Lots 15 and 16 and deeded to Florida Keys Funeral Services, LLC⁸.

In 2004/2005, the subject property received an administrative waiver to split from RE# 00006430-000000 (417 Bahama Street), and approval to build a residential unit above the storage facility. Although the project was HARC approved (H04-05-27-962), the unit was never built due to neighbor objection. As part of this approval, street addresses were assigned to recorded Lots 15 and 6.⁹

Of the original twenty-six (26) recorded lots/parcels of the Marvin Diagram located within the originally platted Square 37, only seventeen (17) lots remain since property lines have been redefined. Adjusting the boundary lines of recorded Lots 15 and 16 will not increase the current number of lots recorded as part of the William Marvin Diagram of 1926.

The proposed subject Lots are at least 75 percent of the minimum lot size of the applicable district regulations, and neither are required to provide parking for the adjacent parcel. Additionally, single-family dwellings are a permitted use within the HNC-1 zoning district.

Thank you for your review and consideration. We hope that you will support this application which will enable the owner to provide much needed housing. Please contact my office should you have any questions.

Respectfully,

Erica H. Sterling

Please allow this letter to serve as documentation that the Florida Keys Aqueduct Authority has provided water service to the above referenced property since July 8, 1955. The water meter was removed on March 1, 1974, and additional fees will be required to reinstate service.

It is anticipated that this information will be found both helpful and satisfactory. Please do not hesitate to contact us at 305-296-2454, if you need further assistance.

RE: 525 FLEMING ST
002231

Please allow this letter to serve as documentation that the Florida Keys Aqueduct Authority has provided water service to the above referenced property since July 27, 1944. The water meter was removed on June 10, 2015 and additional fees will be required to reinstate service.

It is anticipated that this information will be found both helpful and satisfactory. Please do not hesitate to contact us at 305-296-2454, if you need further assistance.

Sincerely,

FLORIDA KEYS AQUEDUCT AUTHORITY
