

Mrs. Ring Notes:

1. Data Collection
2. Community Outreach
3. Youth Sports Funding Matrix - determination of equitable funding allocations
4. Field Use / Space - interlocal agreements

A goal for school field use:

“Assess MCSD inter-local agreement to determine feasibility in relationship to the City of Key West...”

And with that, objective data could be:

Analyze field usage on parcels listed within the ILA

Analyze overall accessibility to school sites (in regards to storage, concession, etc)

Analyze cost-effectiveness (both monetary and personnel) to ensure ILA is equitable to all parties.
