

Application

Application for Development Plan & Conditional Use

City of Key West, Florida • Planning Department
1300 White Street • Key West, Florida 33040 • 305-809-3764 • www.cityofkeywest-fl.gov

Development Plan & Conditional Use Application Fee schedule

(Fees listed include the \$210.00 advertising/noticing fee and the \$105.00 fire review fee)

Development Plan

Minor:

Within Historic District	\$ 3,150.00
Outside Historic District	\$ 2,520.00
Conditional Use	\$ 1,470.00
Extension	\$ 840.00

Major:

Conditional Use	\$ 4,200.00
Extension	\$ 1,470.00
Minor Deviation	\$ 840.00
Major Deviation	\$ 840.00

Conditional Use (not part of a development plan)	\$ 1,470.00
Extension (not part of a development plan)	\$ 2,940.00
	\$ 840.00

Verified complete 7/18/22

Applications will not be accepted unless complete

Development Plan	Conditional Use	Historic District
Major _____	_____	Yes _____
Minor <input checked="" type="checkbox"/> _____	_____	No <input checked="" type="checkbox"/> _____

Please print or type:

- 1) Site Address: 1801 White Street, Key West, FL 33040
- 2) Name of Applicant: Key West Wildlife Center, Inc
- 3) Applicant is:
Property Owner: Consignee
Authorized Representative: Jennifer Lopes
(attached Authorization and Verification Forms must be completed)
- 4) Address of Applicant: PO Box 2297, Key West, FL 33045
- 5) Applicant's Phone #: 305-304-2409 Email: keywestwildlifecenter@hotmail.com
- 6) Email Address: same as above
- 7) Name of Owner, if different than above: _____
- 8) Address of Owner: _____
- 9) Owner Phone #: _____ Email: _____

- 10) Zoning District of Parcel: PS RE#
- 11) Is Subject Property located within the Historic District? Yes No X If Yes: Date of approval
HARC approval # OR: Date of meeting
- 12) Description of Proposed Development and Use. Please be specific, list existing and proposed buildings and uses, number of dwelling units, parking, restaurant seats, vehicles proposed, etc. If there is more than one use, describe in detail the nature of each use (Give concise description here and use a separate sheet if necessary).
Replace existing clinic building with new modular unit with porches. Please see New Office & Deck Plan also known as Perez Engineering Plans.
- 13) Has subject Property received any variance(s)? Yes No X If Yes: Date of approval Resolution #
Attach resolution(s).
- 14) Are there any easements, deed restrictions or other encumbrances on the subject property? Yes No X
If Yes, describe and attach relevant documents.

- A. For both *Conditional Uses* and *Development Plans*, provide the information requested from the attached **Conditional Use and Development Plan** sheet.
- B. For *Conditional Uses* only, also include the **Conditional Use Criteria** required under Chapter 122, Article III, Sections 122-61 and 122-62 of the Land Development Regulations (see attached copy of criteria).
- C. For *Major Development Plans* only, also provide the **Development Plan Submission Materials** required under Chapter 108, Article II, Division 7, Sections 108-226 through 108-248 of the Land Development Regulations (see attached copy of criteria) and any additional information as determined by the Planning Staff.
- D. For both *Conditional Uses* and *Development Plans*, one set of plans MUST be signed & sealed by an Engineer or Architect. INCLUDED IN PEREZ ENG. PLANS

Please note, development plan and conditional use approvals are quasi-judicial hearings and it is improper to speak to a Planning Board member or City Commissioner about the project outside of the hearing.

Required Plans and Related Materials for both a Conditional Use and Minor/Major Development Plan

I. **Existing Conditions.**

- A) Recent Survey of the site by a licensed Surveyor (Survey must be within 10 years from submittal date of this application) showing all dimensions including distances from property lines, and including:
- 1) Size of site; INCLUDED IN PEREZ ENG. PLANS
 - 2) Buildings, structures, and parking; INCLUDED IN SURVEY
 - 3) FEMA Flood Zone; INCLUDED IN PEREZ ENG. PLANS

CONDITIONAL USE CRITERIA

Sec. 122-61. Purpose and intent.

The purpose of this article is to ensure that a conditional use shall only be permitted on specific sites where the proposed use may be adequately accommodated without generating adverse impacts on properties and land uses within the immediate vicinity. This article sets forth provisions and criteria for consideration of conditional uses on specific sites. Conditional uses shall be permitted only upon a finding that the proposed use satisfies this article.

Sec. 122-62. Specific criteria for approval.

- (a) Findings. A conditional use shall be permitted upon a finding by the planning board that the proposed use, application and, if applicable, development plan comply with the criteria specified in this section, including specific conditions established by the planning board and or the city commission during review of the respective application in order to ensure compliance with the comprehensive plan and land development regulations. If the proposed conditional use is a major development pursuant to sections 108-165 and 108-166, the city commission shall render the final determination pursuant to section 122-63. A conditional use shall be denied if the city determines that the proposed use does not meet the criteria provided in this section and, further, that the proposed conditional use is adverse to the public's interest. An application for a conditional use shall describe how the specific land use characteristics proposed meet the criteria described in subsection (c) of this section and shall include a description of any measures proposed to mitigate against possible adverse impacts of the proposed conditional use on properties in the immediate vicinity.
- (b) Characteristics of use described. The following characteristics of a proposed conditional use shall be clearly described as part of the conditional use application:
 - (1) Scale and intensity of the proposed conditional use as measured by the following:
 - a. Floor area ratio;
 - b. Traffic generation;
 - c. Square feet of enclosed building for each specific use;
 - d. Proposed employment;
 - e. Proposed number and type of service vehicles; and
 - f. Off-street parking needs.
 - (2) On- or off-site improvement needs generated by the proposed conditional use and not identified on the list in subsection (b)(1) of this section including the following:
 - a. Utilities;
 - b. Public facilities, especially any improvements required to ensure compliance with concurrency management as provided in chapter 94;
 - c. Roadway or signalization improvements, or other similar improvements;
 - d. Accessory structures or facilities; and
 - e. Other unique facilities/structures proposed as part of site improvements.
 - (3) On-site amenities proposed to enhance site and planned improvements. Amenities including mitigative techniques such as:
 - a. Open space;
 - b. Setbacks from adjacent properties;
 - c. Screening and buffers;
 - d. Landscaped berms proposed to mitigate against adverse impacts to adjacent sites; and
 - e. Mitigative techniques for abating smoke, odor, noise, and other noxious impacts.

- (10) Parking spaces permitted and proposed.
- (11) Delineation of location of existing and proposed structures.
- (12) Existing and proposed development type denoted by land use including density/intensity.
- (13) Setbacks.

Sec. 108-230. Other project information.

A general outline of the proposed development shall include the following criteria where applicable:

- (1) Proposed stages or phases of development or operation and facility utilization.
- (2) Target dates for each phase.
- (3) Expected date of completion.
- (4) Proposed development plan for the site.
- (5) A written description of characteristics of the proposed development (i.e., number and type of residential units; floor area by land use; number of tourist accommodations units; seating or parking capacities; number of hospital beds; any proposed outside facilities or areas to be used for storage, display, outside sales, waste disposal or similar use; and any other proposed uses).
- (6) For planned unit developments, indicate design techniques (i.e., clustering, zero lot line, or other techniques) used to reduce public facility costs, reduce disturbance of natural resources, and preserve scenic quality of the site.
- (7) Buildings and siting specifications which shall be utilized to reduce damage potential and to comply with federal flood insurance regulations.
- (8) Protection against encroachment together with proposed mitigation measures to be employed within environmentally sensitive areas.

Sec. 108-231. Residential developments.

- (a) If the development includes residential units, the following characteristics shall be discussed in the written description:
 - (1) A breakdown of the proposed residential units by number of bedrooms;
 - (2) Tenure (i.e., owner-occupied or rental); and
 - (3) Structure type, such as single-family, duplex, multiple-family, mobile home.
- (b) Refer to division 10 of article V of chapter 122 for information and legal instruments needed to satisfy the city's affordable housing requirements.

Sec. 108-232. Intergovernmental coordination.

The development plan shall contain the following pertaining to intergovernmental coordination:

- (1) Provide proof of coordination with applicable local, regional, state and federal agencies, including but not limited to the following agencies that will be involved in the project:
 - a. South Florida Regional Planning Council (SFRPC).
 - b. City electric system (CES).
 - c. State department of environmental protection (DEP).
 - d. Army Corps of Engineers (ACOE).
 - e. South Florida Water Management District (SFWMD).
 - f. State department of transportation (DOT).
 - g. State department of community affairs (DCA).
 - h. Florida Keys Aqueduct Authority (FKAA).
 - i. State fish and wildlife conservation commission (F&GC).
 - j. The county.
- (2) Provide evidence that any necessary permit, lease or other permission from applicable local, regional, state and federal agencies has been obtained for any activity that will impact wetland communities or submerged land.
- (3) When intergovernmental coordination efforts are incomplete, the applicant shall provide evidence of good faith efforts towards resolving intergovernmental coordination issues.

- 4) Topography; INCLUDED IN SURVEY
- 5) Easements; and UNKNOWN (NONE SHOWN ON PROPERTY APPRAISER MAP)
- 6) Location of Utility Lines (sewer, water, electric, cable) adjacent and extending into the site.

INCLUDED IN PEREZ ENG. PLANS

B) Existing size, type and location of trees, hedges, and other features. BY LANDSCAPE ARCH.

C) Existing stormwater retention areas and drainage flows. INCLUDED IN SURVEY

D) A sketch showing adjacent land uses, buildings, and driveways. INCLUDED IN PEREZ ENG. PLANS

II. **Proposed Development:** Plans at 11" X 17" (10,000 Sq. ft. or less); 24" X 36" if site is over 10,000 sq. ft.

A) Site Plan to scale of with north arrow and dimensions by a licensed architect or engineer.

1) Buildings INCLUDED IN PEREZ ENG. PLANS

2) Setbacks INCLUDED IN PEREZ ENG. PLANS

3) Parking: N/A PARKING IS OUTSIDE OF LEASE LIMITS (EXISTING TO REMAIN)

a. Number, location and size of automobile and bicycle spaces

b. Handicapped spaces

c. Curbs or wheel stops around landscaping

d. Type of pavement

4) Driveway dimensions and material INCLUDED IN PEREZ ENG. PLANS

5) Location of Utility Lines (sewer, water, electric, cable) adjacent and extending into the site.

INCLUDED IN PEREZ ENG. PLANS

6) Location of garbage and recycling INCLUDED IN PEREZ ENG. PLANS

7) Signs INCLUDED IN PEREZ ENG. PLANS

8) Lighting INCLUDED IN PEREZ ENG. PLANS

8) Project Statistics:

a. Zoning INCLUDED IN PEREZ ENG. PLANS

b. Size of site INCLUDED IN PEREZ ENG. PLANS

c. Number of units (or units and Licenses) INCLUDED IN PEREZ ENG. PLANS

d. If non-residential, floor area & proposed floor area ratio INCLUDED IN PEREZ ENG. PLANS

e. Consumption area of restaurants & bars N/A

f. Open space area and open space ratio INCLUDED IN PEREZ ENG. PLANS

g. Impermeable surface area and impermeable surface ratio INCLUDED IN PEREZ ENG. PLANS

h. Number of automobile and bicycle spaces required and proposed

N/A PARKING IS OUTSIDE OF LEASE LIMITS (EXISTING TO REMAIN)

B) Building Elevations

1) Drawings of all building from every direction. If the project is in the Historic District, please submit HARC approved site plans. INCLUDED IN PEREZ ENG. PLANS

2) Height of building. INCLUDED IN PEREZ ENG. PLANS

3) Finished floor elevations and bottom of first horizontal structure INCLUDED IN PEREZ ENG. PLANS

4) Height of existing and proposed grades INCLUDED IN PEREZ ENG. PLANS

C) Drainage Plan: Existing & Proposed retention areas and calculations approved by the City Engineer. See one of the attached commercial and residential use Stormwater Retention Forms. INCLUDED IN PEREZ ENG. PLANS

D) Landscape Plan: Size, type, location and number of plants to be removed, kept, and installed. The plan must be approved by the City Landscape Coordinator through a letter of approval. If the project is a Major Development Plan a landscape design prepared by a licensed Landscape Architect is required per Section 108-511(b) of the Land Development Regulations. BY LANDSCAPE ARCH.

III. **Solutions Statement.** Aspects of the design that address community issues including but not limited to water pollution from stormwater runoff, potable water conservation, waste disposal, recycling, energy conservation, affordable housing, and impacts on neighbors such as lighting, noise, traffic and parking.

Development Plan Submission Materials

Sec. 108-226. Scope.

A development plan, for the purposes of this division, shall include but not necessarily be limited to the requirements in this division. With the exception of sections 108-227 through 108-229, the city planner may waive or modify requirements, information and specific performance criteria for development plan review after rendering a finding in writing that such requirements:

- (1) Are not necessary prior to development plan approval in order to protect the public interest or adjacent properties;
- (2) Bear no relationship to the proposed project or its impacts; and
- (3) Are found to be impractical based on the characteristics of the use, including the proposed scale, density/intensity, and anticipated impacts on the environment, public facilities and adjacent land uses.

Sec. 108-227. Title block.

The development plan shall contain the following pertaining to the title block:

- (1) Name of development.
- (2) Name of owner/developer.
- (3) Scale.
- (4) North arrow.
- (5) Preparation and revision date.
- (6) Location/street address of development.

Sec. 108-228. Identification of key persons.

The development plan shall contain the following pertaining to identification of key persons:

- (1) Owner.
- (2) Owner's authorized agent.
- (3) Engineer and architect.
- (4) Surveyor.
- (5) Landscape architect and/or environmental consultant.
- (6) Others involved in the application.
- (7) A verified statement showing each and every individual person having a legal and/or equitable ownership interest in the subject property, except publicly held corporations whose stock is traded on a nationally recognized stock exchange, in which case the names and addresses of the corporation and principal executive officers together with any majority stockholders will be sufficient.

Sec. 108-229. Project description.

Project description should be included on the site plan sheet. The development plan shall contain the following pertaining to the project description:

- (1) Zoning (include any special districts).
- (2) Project site size (acreage and/or square footage).
- (3) Legal description.
- (4) Building size.
- (5) Floor area ratio permitted and proposed.
- (6) Lot coverage permitted and proposed.
- (7) Impervious surface.
- (8) Pervious surface.
- (9) Landscape areas.

- (10) Parking spaces permitted and proposed.
- (11) Delineation of location of existing and proposed structures.
- (12) Existing and proposed development type denoted by land use including density/intensity.
- (13) Setbacks.

Sec. 108-230. Other project information.

A general outline of the proposed development shall include the following criteria where applicable:

- (1) Proposed stages or phases of development or operation and facility utilization.
- (2) Target dates for each phase.
- (3) Expected date of completion.
- (4) Proposed development plan for the site.
- (5) A written description of characteristics of the proposed development (i.e., number and type of residential units; floor area by land use; number of tourist accommodations units; seating or parking capacities; number of hospital beds; any proposed outside facilities or areas to be used for storage, display, outside sales, waste disposal or similar use; and any other proposed uses).
- (6) For planned unit developments, indicate design techniques (i.e., clustering, zero lot line, or other techniques) used to reduce public facility costs, reduce disturbance of natural resources, and preserve scenic quality of the site.
- (7) Buildings and siting specifications which shall be utilized to reduce damage potential and to comply with federal flood insurance regulations.
- (8) Protection against encroachment together with proposed mitigation measures to be employed within environmentally sensitive areas.

Sec. 108-231. Residential developments.

- (a) If the development includes residential units, the following characteristics shall be discussed in the written description:
 - (1) A breakdown of the proposed residential units by number of bedrooms;
 - (2) Tenure (i.e., owner-occupied or rental); and
 - (3) Structure type, such as single-family, duplex, multiple-family, mobile home.
- (b) Refer to division 10 of article V of chapter 122 for information and legal instruments needed to satisfy the city's affordable housing requirements.

Sec. 108-232. Intergovernmental coordination.

The development plan shall contain the following pertaining to intergovernmental coordination:

- (1) Provide proof of coordination with applicable local, regional, state and federal agencies, including but not limited to the following agencies that will be involved in the project:
 - a. South Florida Regional Planning Council (SFRPC).
 - b. City electric system (CES).
 - c. State department of environmental protection (DEP).
 - d. Army Corps of Engineers (ACOE).
 - e. South Florida Water Management District (SFWMD).
 - f. State department of transportation (DOT).
 - g. State department of community affairs (DCA).
 - h. Florida Keys Aqueduct Authority (FKAA).
 - i. State fish and wildlife conservation commission (F&GC).
 - j. The county.
- (2) Provide evidence that any necessary permit, lease or other permission from applicable local, regional, state and federal agencies has been obtained for any activity that will impact wetland communities or submerged land.
- (3) When intergovernmental coordination efforts are incomplete, the applicant shall provide evidence of good faith efforts towards resolving intergovernmental coordination issues.

CONDITIONAL USE CRITERIA

Sec. 122-61. Purpose and intent.

The purpose of this article is to ensure that a conditional use shall only be permitted on specific sites where the proposed use may be adequately accommodated without generating adverse impacts on properties and land uses within the immediate vicinity. This article sets forth provisions and criteria for consideration of conditional uses on specific sites. Conditional uses shall be permitted only upon a finding that the proposed use satisfies this article.

Sec. 122-62. Specific criteria for approval.

- (a) Findings. A conditional use shall be permitted upon a finding by the planning board that the proposed use, application and, if applicable, development plan comply with the criteria specified in this section, including specific conditions established by the planning board and or the city commission during review of the respective application in order to ensure compliance with the comprehensive plan and land development regulations. If the proposed conditional use is a major development pursuant to sections 108-165 and 108-166, the city commission shall render the final determination pursuant to section 122-63. A conditional use shall be denied if the city determines that the proposed use does not meet the criteria provided in this section and, further, that the proposed conditional use is adverse to the public's interest. An application for a conditional use shall describe how the specific land use characteristics proposed meet the criteria described in subsection (c) of this section and shall include a description of any measures proposed to mitigate against possible adverse impacts of the proposed conditional use on properties in the immediate vicinity.
- (b) Characteristics of use described. The following characteristics of a proposed conditional use shall be clearly described as part of the conditional use application:
 - (1) Scale and intensity of the proposed conditional use as measured by the following:
 - a. Floor area ratio;
 - b. Traffic generation;
 - c. Square feet of enclosed building for each specific use;
 - d. Proposed employment;
 - e. Proposed number and type of service vehicles; and
 - f. Off-street parking needs.
 - (2) On- or off-site improvement needs generated by the proposed conditional use and not identified on the list in subsection (b)(1) of this section including the following:
 - a. Utilities;
 - b. Public facilities, especially any improvements required to ensure compliance with concurrency management as provided in chapter 94;
 - c. Roadway or signalization improvements, or other similar improvements,
 - d. Accessory structures or facilities; and
 - e. Other unique facilities/structures proposed as part of site improvements.
 - (3) On-site amenities proposed to enhance site and planned improvements. Amenities including mitigative techniques such as:
 - a. Open space;
 - b. Setbacks from adjacent properties;
 - c. Screening and buffers;
 - d. Landscaped berms proposed to mitigate against adverse impacts to adjacent sites; and
 - e. Mitigative techniques for abating smoke, odor, noise, and other noxious impacts.

(c) Criteria for conditional use review and approval. Applications for a conditional use shall clearly demonstrate the following:

- (1) Land use compatibility. The applicant shall demonstrate that the conditional use, including its proposed scale and intensity, traffic-generating characteristics, and off-site impacts are compatible and harmonious with adjacent land use and will not adversely impact land use activities in the immediate vicinity.
- (2) Sufficient site size, adequate site specifications, and infrastructure to accommodate the proposed use. The size and shape of the site, the proposed access and internal circulation, and the urban design enhancements must be adequate to accommodate the proposed scale and intensity of the conditional use requested. The site shall be of sufficient size to accommodate urban design amenities such as screening, buffers, landscaping, open space, off-street parking, efficient internal traffic circulation, infrastructure (i.e., refer to chapter 94 to ensure concurrency management requirements are met) and similar site plan improvements needed to mitigate against potential adverse impacts of the proposed use.
- (3) Proper use of mitigative techniques. The applicant shall demonstrate that the conditional use and site plan have been designed to incorporate mitigative techniques needed to prevent adverse impacts to adjacent land uses. In addition, the design scheme shall appropriately address off-site impacts to ensure that land use activities in the immediate vicinity, including community infrastructure, are not burdened with adverse impacts detrimental to the general public health, safety and welfare.
- (4) Hazardous waste. The proposed use shall not generate hazardous waste or require use of hazardous materials in its operation without use of city-approved mitigative techniques designed to prevent any adverse impact to the general health, safety and welfare. The plan shall provide for appropriate identification of hazardous waste and hazardous material and shall regulate its use, storage and transfer consistent with best management principles and practices. No use which generates hazardous waste or uses hazardous materials shall be located in the city unless the specific location is consistent with the comprehensive plan and land development regulations and does not adversely impact wellfields, aquifer recharge areas, or other conservation resources.
- (5) Compliance with applicable laws and ordinances. A conditional use application shall demonstrate compliance with all applicable federal, state, county, and city laws and ordinances. Where permits are required from governmental agencies other than the city, these permits shall be obtained as a condition of approval. The city may affix other conditions to any approval of a conditional use in order to protect the public health, safety, and welfare.
- (6) Additional criteria applicable to specific land uses. Applicants for conditional use approval shall demonstrate that the proposed conditional use satisfies the following specific criteria designed to ensure against potential adverse impacts which may be associated with the proposed land use:
 - a. Land uses within a conservation area. Land uses in conservation areas shall be reviewed with emphasis on compliance with section 108-1 and articles III, IV, V, VII and VIII of chapter 110 pertaining to environmental protection, especially compliance with criteria, including land use compatibility and mitigative measures related to wetland preservation, coastal resource impact analysis and shoreline protection, protection of marine life and fisheries, protection of flora and fauna, and floodplain protection. The size, scale and design of structures located within a conservation area shall be restricted in order to prevent and/or minimize adverse impacts on natural resources. Similarly, public uses should only be approved within a wetland or coastal high hazard area V zone when alternative upland locations are not feasible on an upland site outside the V zone.
 - b. Residential development. Residential development proposed as a conditional use shall be reviewed for land use compatibility based on compliance with divisions 2 through 14 of article IV and divisions 2 and 3 of article V of this chapter pertaining to zoning district regulations, including size and dimension regulations impacting setbacks, lot coverage, height, mass of building, building coverage, and open space criteria. Land use compatibility also shall be measured by appearance, design, and land use compatibility criteria established in chapter 102; articles III, IV and V of chapter 108; section 108-956; and article II of chapter 110; especially protection of historic resources; subdivision of land; access, internal circulation, and off-street parking; as well as possible required mitigative measures such as landscaping and site design amenities.
 - c. Commercial or mixed-use development. Commercial or mixed use development proposed as a conditional use shall be reviewed for land use compatibility based on compliance with divisions 2 through 14 of article IV and divisions 2 and 3 of article V of this chapter pertaining to zoning district regulations, including size and dimension regulations impacting floor area ratio, setbacks, lot coverage, height, mass of buildings, building coverage, and open space criteria. Land use compatibility also shall be measured by appearance,

design, and land use compatibility criteria established in chapter 102; articles I, II, IV and V of chapter 108; section 108-956; and article II of chapter 110; especially protection of historic resources; subdivision of land; access, pedestrian access and circulation; internal vehicular circulation together with access and egress to the site, and off-street parking; as well as possible required mitigative measures such as landscaping, buffering, and other site design amenities. Where commercial or mixed use development is proposed as a conditional use adjacent to U.S. 1, the development shall be required to provide mitigative measures to avoid potential adverse impacts to traffic flow along the U.S. 1 corridor, including but not limited to restrictions on access from and egress to U.S. 1, providing for signalization, acceleration and deceleration lanes, and/or other appropriate mitigative measures.

- d. Development within or adjacent to historic district. All development proposed as a conditional use within or adjacent to the historic district shall be reviewed based on applicable criteria stated in this section for residential, commercial, or mixed use development and shall also comply with appearance and design guidelines for historic structures and contributing structures and/or shall be required to provide special mitigative site and structural appearance and design attributes or amenities that reinforce the appearance, historic attributes, and amenities of structures within the historic district.
- e. Public facilities or institutional development. Public facilities or other institutional development proposed as a conditional use shall be reviewed based on land use compatibility and design criteria established for commercial and mixed-use development. In addition, the city shall analyze the proposed site location and design attributes relative to other available sites and the comparative merits of the proposed site, considering professionally accepted principles and standards for the design and location of similar community facilities and public infrastructure. The city shall also consider compliance with relevant comprehensive plan assessments of community facility and infrastructure needs and location impacts relative to service area deficiencies or improvement needs.
- f. Commercial structures uses and related activities within tidal waters. The criteria for commercial structures, uses and related activities within tidal waters are as provided in section 122-1186.
- g. Adult entertainment establishments. The criteria for adult entertainment establishments are as provided in division 12 of article V of this chapter.

- III. **Solutions Statement.** Aspects of the design that address community issues including but not limited to water pollution from stormwater runoff, potable water conservation, waste disposal, recycling, energy conservation, affordable housing, and impacts on neighbors such as lighting, noise, traffic and parking.

Development Plan Submission Materials

Sec. 108-226. Scope.

A development plan, for the purposes of this division, shall include but not necessarily be limited to the requirements in this division. With the exception of sections 108-227 through 108-229, the city planner may waive or modify requirements, information and specific performance criteria for development plan review after rendering a finding in writing that such requirements:

- (1) Are not necessary prior to development plan approval in order to protect the public interest or adjacent properties;
- (2) Bear no relationship to the proposed project or its impacts; and
- (3) Are found to be impractical based on the characteristics of the use, including the proposed scale, density/intensity, and anticipated impacts on the environment, public facilities and adjacent land uses.

Sec. 108-227. Title block.

The development plan shall contain the following pertaining to the title block:

- (1) Name of development.
- (2) Name of owner/developer.
- (3) Scale.
- (4) North arrow.
- (5) Preparation and revision date.
- (6) Location/street address of development.

Sec. 108-228. Identification of key persons.

The development plan shall contain the following pertaining to identification of key persons:

- (1) Owner.
- (2) Owner's authorized agent.
- (3) Engineer and architect.
- (4) Surveyor.
- (5) Landscape architect and/or environmental consultant.
- (6) Others involved in the application.
- (7) A verified statement showing each and every individual person having a legal and/or equitable ownership interest in the subject property, except publicly held corporations whose stock is traded on a nationally recognized stock exchange, in which case the names and addresses of the corporation and principal executive officers together with any majority stockholders will be sufficient.

Sec. 108-229. Project description.

Project description should be included on the site plan sheet. The development plan shall contain the following pertaining to the project description:

- (1) Zoning (include any special districts).
- (2) Project site size (acreage and/or square footage).
- (3) Legal description.
- (4) Building size.
- (5) Floor area ratio permitted and proposed.
- (6) Lot coverage permitted and proposed.
- (7) Impervious surface.
- (8) Pervious surface.
- (9) Landscape areas.

- 4) Topography;
 - 5) Easements; and
 - 6) Location of Utility Lines (sewer, water, electric, cable) adjacent and extending into the site.
- B) Existing size, type and location of trees, hedges, and other features.
- C) Existing stormwater retention areas and drainage flows.
- D) A sketch showing adjacent land uses, buildings, and driveways.
- II. **Proposed Development:** Plans at 11" X 17" (10,000 Sq. ft. or less); 24" X 36" if site is over 10,000 sq. ft.
- A) Site Plan to scale of with north arrow and dimensions by a licensed architect or engineer.
- 1) Buildings
 - 2) Setbacks
 - 3) Parking:
 - a. Number, location and size of automobile and bicycle spaces
 - b. Handicapped spaces
 - c. Curbs or wheel stops around landscaping
 - d. Type of pavement
 - 4) Driveway dimensions and material
 - 5) Location of Utility Lines (sewer, water, electric, cable) adjacent and extending into the site.
 - 6) Location of garbage and recycling
 - 7) Signs
 - 8) Lighting
 - 8) Project Statistics:
 - a. Zoning
 - b. Size of site
 - c. Number of units (or units and Licenses)
 - d. If non-residential, floor area & proposed floor area ratio
 - e. Consumption area of restaurants & bars
 - f. Open space area and open space ratio
 - g. Impermeable surface area and impermeable surface ratio
 - h. Number of automobile and bicycle spaces required and proposed
- B) Building Elevations
- 1) Drawings of all building from every direction. If the project is in the Historic District, please submit HARC approved site plans.
 - 2) Height of building.
 - 3) Finished floor elevations and bottom of first horizontal structure
 - 4) Height of existing and proposed grades
- C) Drainage Plan: Existing & Proposed retention areas and calculations approved by the City Engineer. See one of the attached commercial and residential use Stormwater Retention Forms.
- D) Landscape Plan: Size, type, location and number of plants to be removed, kept, and installed. The plan must be approved by the City Landscape Coordinator through a letter of approval. If the project is a Major Development Plan a landscape design prepared by a licensed Landscape Architect is required per Section 108-511(b) of the Land Development Regulations.

QUITCLAIM DEED

The UNITED STATES OF AMERICA, acting by and through the Secretary of the Interior, acting by and through the Southeast Regional Director, Bureau of Outdoor Recreation, under and pursuant to the power and authority contained in the provisions of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377) as amended, and particularly as amended by Public Law 48, 91st Congress, and regulations and orders promulgated thereunder (hereinafter designated "Grantor"), for and in consideration of the perpetual use of the hereinafter described premises as and for public park and public recreation area purposes, by the City of Key West, Florida (hereinafter designated "Grantee"), does hereby release and quitclaim to Grantee, and to its successors and assigns, subject to the reservations, exceptions, restrictions, conditions and covenants hereinafter expressed and set forth, all Grantor's right, title and interest in and to the property described in Exhibit A, attached hereto consisting of approximately 6.91 acres and 0.04 acre drainage easement located in Monroe County, Florida.

There are excepted from this conveyance and reserved to the Grantor, and its assigns, all oil, gas, and other minerals in, under and upon the lands herein conveyed, together with the rights to enter upon the land for the purpose of mining and removing the same.

This conveyance is made subject to any and all existing rights-of-way, easements and covenants and agreements affecting the above-described premises, whether or not the same now appear of record.

To Have and to Hold the hereinbefore described property, subject to the reservations, exceptions, restrictions, conditions and covenants herein expressed and set forth unto the Grantee, its successors and assigns, forever.

Pursuant to authority contained in the Federal Property and Administrative Services Act of 1949, as amended, and applicable rules, regulations and orders promulgated thereunder, the General Services Administration determined the property to be surplus to the needs of the United States of America and assigned the property to the Department of the Interior for further conveyance to the City of Key West, Florida.

It is agreed and Understood by and between the Grantor and Grantee, and the Grantee by its acceptance of this deed, does acknowledge its understanding of the agreement, and does covenant and agree for itself, and its successors and assigns, forever, as follows:

1. This property shall be used and maintained for the public purposes for which it was conveyed in perpetuity as set forth in the program of utilization and plan contained in the application, submitted by the Grantee on July 5, 1972, which program and plan may be amended from time to time at the request of either the Grantor or Grantee, with the written concurrence of the other party, and such amendments shall be added to and become a part of the original application.

2. The Grantee shall, within 6 months of the date of the deed of conveyance, erect and maintain a permanent sign or marker near the point of principal access to the conveyed area indicating that the property is a park or recreation area and has been acquired from the Federal Government for use by the general public.

3. The property shall not be sold, leased, assigned, or otherwise disposed of except to another eligible governmental agency that the Secretary of the Interior agrees in writing can assure the continued use and maintenance of the property for public park or public

recreational purposes subject to the same terms and conditions in the original instrument of conveyance. However, nothing in this provision shall preclude the Grantee from providing related recreational facilities and services compatible with the approved application, through concession agreements entered into with third parties, provided prior concurrence to such agreements is obtained in writing from the Secretary of the Interior.

4. From the date of this conveyance, the Grantee, its successors and assigns, shall submit biennial reports to the Secretary of the Interior, setting forth the use made of the property during the preceding two-year period, and other pertinent data establishing its continuous use for the purposes set forth above, for ten consecutive reports and as further determined by the Secretary of the Interior.

5. If at any time the United States of America shall determine that the premises herein conveyed, or any part thereof, are needed for the national defense, all right, title and interest in and to said premises, or part thereof determined to be necessary to such national defense, shall revert to and become the property of the United States of America.

6. As part of the consideration for this Deed, the Grantee covenants and agrees for itself, its successors and assigns, that (1) the program for or in connection with which this Deed is made will be conducted in compliance with, and the Grantee, its successors and assigns, will comply with all requirements imposed by or pursuant to the regulations of the Department of the Interior as in effect on the date of this Deed (43 C.F.R. Part 17) issued under the provisions of Title VI of the Civil Rights Act of 1964; (2) this covenant shall be subject in all respects to the provisions of said regulations; (3) the Grantee, its successors and assigns, will promptly take and continue to take such action as may be necessary to effectuate this covenant; (4) the United States shall have the right to seek judicial

enforcement of this covenant, and (5) the Grantee, its successors and assigns, will (a) obtain from each other person (any legal entity) who, through contractual or other arrangements with the Grantee, its successors or assigns, is authorized to provide services or benefits under said program, a written agreement pursuant to which such other person shall, with respect to the services or benefits which he is authorized to provide, undertake for himself the same obligations as those imposed upon the Grantee, its successors and assigns, by this covenant, and (b) furnish a copy of such agreement to the Secretary of the Interior, or his successor; and that this covenant shall run with the land hereby conveyed, and shall in any event, without regard to technical classification or designation, legal or otherwise, be binding to the fullest extent permitted by law and equity for the benefit of, and in favor of the Grantor and enforceable by the Grantor against the Grantee, its successors and assigns.

7. In the event there is a breach of any of the conditions and covenants herein contained by the Grantee, its successors and assigns, whether caused by the legal or other inability of the Grantee, its successors and assigns, to perform said conditions and covenants, or otherwise, all right, title and interest in and to the said premises shall revert to and become the property of the Grantor at its option, which in addition to all other remedies for such breach shall have the right of entry upon said premises, and the Grantee, its successors and assigns, shall forfeit all right, title and interest in said premises and in any and all of the tenements, hereditaments and appurtenances thereunto belonging; provided, however, that the failure of the Secretary of the Department of the Interior to require in any one or more instances complete performance of any of the conditions or covenants shall not be construed as a waiver or relinquishment of such future performance, but the obligation of the Grantee, its successors and assigns, with respect to such future performance shall continue in full force and effect.

IN WITNESS WHEREOF, the Grantor has caused these presents
to be executed in its name and on its behalf this the 21st day of
April, 1973.

UNITED STATES OF AMERICA
Acting by and through the
Secretary of the Interior

Through:

Robert M. Baker
Southeast Regional Director
Bureau of Outdoor Recreation

By Robert M. Baker

WITNESSES:

James M. Lee Sordd
Charles M. Harris

STATE OF Florida)
COUNTY OF _____)

ss

On this the 21 day of April, 1973, before me, the
subscriber, personally appeared Robert M. Baker,
Bureau of Outdoor Recreation, of the United States Department of the Interior,
a governmental agency of the United States of America, and known to me to be
the same person described in and who executed the foregoing instrument afore-
said, as the act and deed of the United States of America, for and on behalf of
the Secretary of the Interior, duly designated, empowered and authorized so to
do by said Secretary, and he acknowledged that he executed the foregoing
instrument for and on behalf of the United States of America, for the purposes
and uses therein described.

- UTILITY NOTES**
1. THE LOCATIONS, SIZES, AND ELEVATIONS OF EXISTING UTILITIES AS SHOWN ARE APPROXIMATE. THE CONTRACTOR SHALL COORDINATE WITH THE ENGINEER TO OBTAIN ANY AVAILABLE RECORD DRAWINGS AND SHALL DETERMINE THE EXACT LOCATION AND ELEVATION IN THE FIELD. THE CONTRACTOR SHALL ANTICIPATE THAT SCANNING AND EXCAVATION USING LIGHT EQUIPMENT AND HAND METHODS WILL BE NECESSARY IN AREAS NEAR EXISTING UTILITIES AND STRUCTURES TO AVOID DAMAGING THESE FACILITIES. THE CONTRACTOR SHALL CONTACT BELLSOUTH, THE LOCAL TELEPHONE COMPANY AND COMCAST, THE LOCAL CABLE TV PROVIDER TO VERIFY THE LOCATION OF BURIED TELEPHONE AND CABLE TV UTILITIES. NONE HAVE BEEN INDICATED ON THE DRAWINGS. CALL 1-800-432-4770 BEFORE DIGGING OR TRENCHING OPERATIONS BEGIN. CONTRACTOR SHALL ALSO CONTACT KEYS ENERGY TO LOCATE SECONDARY ELECTRIC LINES.
 2. THE CONTRACTOR SHALL DETERMINE THE EXACT LOCATION AND ELEVATION IN THE FIELD PRIOR TO INSTALLING ANY NEW WORK THAT CROSSES OR CONNECTS TO EXISTING UTILITY SYSTEMS. LOCATIONS OF NEW UTILITIES SHALL BE ADJUSTED IN A MANNER APPROVED BY THE ENGINEER TO AVOID CONFLICTS. DAMAGES TO UTILITIES RESULTING FROM THE CONTRACTOR'S OPERATIONS SHALL BE REPAIRED BY THE CONTRACTOR AT NO COST TO THE CLIENT.

GENERAL NOTES

1. THESE PLANS ARE FOR THE WORK AT THE LOCATION SO DESIGNATED HEREIN.
2. THE CONTRACTOR SHALL PROVIDE ALL MATERIAL, LABOR, EQUIPMENT AND SUPERVISION NECESSARY TO COMPLETE THE WORK AND MAKE STRUCTURE READY FOR USE.
3. THERE SHALL BE NO DEVIATION FROM THESE PLANS WITHOUT PRIOR APPROVAL FROM THE ENGINEER OF RECORD.
4. THE CONTRACTOR SHALL VISIT THE SITE AND BECOME FAMILIAR WITH EXISTING CONDITIONS BEFORE BID. CHECK AND VERIFY ALL DIMENSIONS AND CONDITIONS OF THE WORK SITE AND REPORT ANY DISCREPANCIES, DIFFERENCES OR CONDITIONS THAT ARE UNSATISFACTORY OR UNSAFE.
5. NOTIFY THE ENGINEER OF RECORD IMMEDIATELY OF ANY DISCREPANCIES, DIFFERENCES, UNSATISFACTORY OR UNSAFE CONDITIONS. ANY MODIFICATIONS OR CHANGES MADE WITHOUT PRIOR WRITTEN APPROVAL FROM THE OWNER AND ENGINEER OF RECORD SHALL NOT BE ALLOWED. ANY REWORK, RESTORATION OR OTHER IMPACT AS A RESULT OF NOT OBTAINING SUCH PRIOR APPROVAL WILL BE MADE BY THE CONTRACTOR WITHOUT ADDITIONAL COST OR COMPENSATION FROM THE OWNER.
6. THE CONTRACTOR SHALL PROVIDE FOR THE SAFETY, PREVENTION OF INJURY OR OTHER LOSS AT THE JOB TO ALL PERSONS EMPLOYED IN THE WORK, PERSONS VISITING THE WORK AND THE GENERAL PUBLIC. THE CONTRACTOR SHALL ALSO BE RESPONSIBLE FOR THE PREVENTION OF DAMAGE DUE TO THE WORK TO MATERIALS OR EQUIPMENT AND OTHER PROPERTY AT THE SITE OR ADJACENT THERE TO.
7. NO REBAR SHALL BE PLACED IN THE PRESENCE OF UNDERGROUND UTILITIES HAS BEEN INCLUDED ON OR PERFORMED FOR THIS PROJECT. CONTRACTOR SHALL BE RESPONSIBLE FOR CALLING SUNSHINE UTILITY LOCATE SERVICE PRIOR TO ANY CONSTRUCTION WITHIN ANY PUBLIC RIGHT-OF-WAY OR OTHER AREAS WHERE UNDERGROUND UTILITIES MAY BE PRESENT (I.E. IN AND AROUND UTILITY EASEMENTS, ETC.).
8. THE GENERAL CONTRACTOR SHALL PROVIDE AN ON-SITE DUMPSTER IN A LOCATION COORDINATED WITH THE OWNER FOR THE DISPOSAL OF REMOVED MATERIAL AND CONSTRUCTION DEBRIS. THE DUMPSTER SHALL BE EMPTIED AT APPROPRIATE INTERVALS TO PREVENT OVERFLOW AND UNCLELY CONDITIONS.
9. THE CONTRACTOR SHALL PERFORM ALL WORK IN STRICT CONFORMANCE WITH THE PLANS, THE FLORIDA BUILDING CODE, 7TH EDITION (2002), LOCAL CODES AND ORDINANCES, MANUFACTURER RECOMMENDATIONS AND ACCEPTABLE TRADE PRACTICES. ANY CONFLICT BETWEEN THESE REQUIREMENTS AND THE MOST STRINGENT REQUIREMENTS SHALL GOVERN THE WORK.
10. SHOP DRAWINGS OF ALL PREFABRICATED STRUCTURAL FLOOR AND ROOF SYSTEMS AND MECHANICAL SYSTEMS SHALL BEAN THE IDEA OF A FLORIDA PROFESSIONAL ENGINEER AS REQUIRED BY THE FLORIDA BUILDING CODE, 7TH EDITION (2002) AND SHALL BE SUBMITTED TO THE ENGINEER OF RECORD BY THE CONTRACTOR FOR APPROVAL PRIOR TO FABRICATION AND INSTALLATION.
11. THE CONTRACTOR SHALL NOT SCALE DRAWINGS. ANY INFORMATION THAT THE CONTRACTOR CANNOT OBTAIN FROM DIMENSIONS, DETAIL OR SCHEDULE SHALL BE OBTAINED FROM THE ENGINEER OF RECORD.
12. THE CONTRACTOR SHALL COORDINATE THE WORK OF ALL TRADES TO PREVENT ANY CONFLICTS.
13. THE CONTRACTOR SHALL FURNISH ALL SUBCONTRACTORS WITH A COMPLETE SET OF PLANS. ALL CHANGES SHALL BE NOTED ON THE DRAWINGS AND (2) COMPLETE AS-BUILT SETS SHALL BE DELIVERED TO THE OWNER AFTER COMPLETION OF WORK.

A detailed landscape design plan showing two rows of plants labeled "PINK FLORIDA" and "RED TIGER". The plan includes dimensions such as "12 FT. MAXIMUM SPACING", "10 FT. MINIMUM SPACING", and "10 FT. MINIMUM SPACING". It also shows a "LINE OF B&G" and a "PLANTING AREA".

[illegible][illegible]

TREGATOR® ORIGINAL
SLEAZE-BLAST™ WATERING BAG
FOR SHADE TREES

BENEFITS

- Ideal for newly planted shade or street trees
- Eliminates tree-ring and finger-thick bark
- Prevents root rot and crown rot
- Kills insects and diseases in the roots exposed
- Kills weeds and ivy on the tree trunk exposed
- Deep water to roots with every fill
- 100% safe for 12 months period, as recorded in tests
- Non-toxic, non-flammable, non-corrosive, non-polluting
- Non-irritating dog-eat-dog leaves no staining, leachate
- Cures the most tree ailments: chemical deficiencies, etc.
- Cures most tree damage: lightning, mechanical damage, etc.
- Cuts most tree damage together to recommended level for trees
- A leader in the U.S., with 30 years of professional experience

REV 343 4704

THIS DRAWING, DESIGN AND INVENTION IS THE INSTRUMENT OF SERVICE AND PROPERTY OF LANDWISE DESIGN, INC. IS PROHIBITED ANY USE OR REPRODUCTION WITHOUT EXPRESSED WRITTEN PERMISSION FROM LANDWISE DESIGN, INC.

SODDING DETAIL

ALL AREAS TO BE SODDED TO RECEIVE 2" TOP LAYER OF SILICA SAND/PLANTING SOIL AS INDICATED

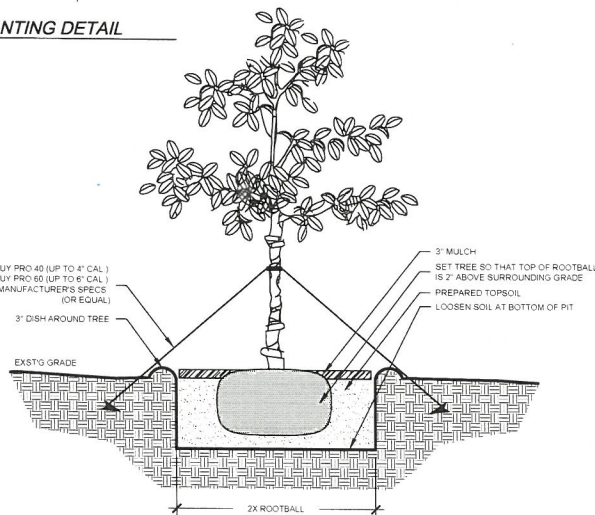

SHRUB PLANTING DETAIL

ALL SHRUBS ARE TO BE POSITIONED VERTICALLY REGARDLESS OF THE SLOPE OF THE GROUND IN WHICH THEY ARE PLANTED. WATER RINGS ARE TO BE CONSTRUCTED AT RIGHT ANGLES TO THE TREE OR SHRUB OR IN A MANNER IN WHICH THEY WILL MOST EFFECTIVELY SERVE THE PURPOSE OF RETAINING WATER AT THE BASE OF THE PLANT.

PALM PLANTING DETAIL

TREE PLANTING DETAIL

ALL TREES ARE TO BE POSITIONED VERTICALLY REGARDLESS OF THE SLOPE OF THE GROUND IN WHICH THEY ARE PLANTED. WATER RINGS ARE TO BE CONSTRUCTED AT RIGHT ANGLES TO THE TREE OR SHRUB OR IN A MANNER IN WHICH THEY WILL MOST EFFECTIVELY SERVE THE PURPOSE OF RETAINING WATER AT THE BASE OF THE PLANT.

THE ROOTBALL OF THE TREE SHOULD BE POSITIONED IN THE HOLE SO THAT THE FINISHED GRADE OF THE BACKFILL SOIL AND LANDSCAPE SOIL IS 2" LOWER THAN THE TOP OF THE ROOTBALL. MULCH SHOULD COVER THE EDGE OF THE ROOTBALL. DO NOT MULCH ON TOP OF ROOTBALL.

SECTION 0290 TREES, PLANTS AND GROUND COVERS

PART 1 GENERAL

1.01 SECTION INCLUDES

- Extent of landscape development work is shown on drawings and in schedules.
- Sodding of areas disturbed during construction exclusive of paved areas.
- Transplanting of existing trees, palms and plant material. (none are currently proposed for this project)
- Prior to construction activities, all trees, palms and plant material to be relocated will be tagged by Architect. (none are currently proposed for this project)
- Watering of planted materials.

1.02 RELATED SECTIONS

- Section 02100 - Site Grading
- Section 441 - Graveling (USA Vactor & Wastewater Standards)

1.03 SUBMITTALS

- Copies with provisions of General Conditions.
- Certificates of inspection as required by governmental authorities and manufacturers' or vendors' certified analysis for soil amendments, fertilizer, and chemical conditioner application rates for soil preparation, planting backfill mix, and post maintenance fertilization program. Submit a copy of soil test to Architect.
- Vendors' certified statement for each grass seed measure required, stating botanical and common name, percentage by weight, and percentages of purity, germination, and weed seed for each grass seed species.
- Dist. test reports.
- Maintenance instructions. Typewritten instructions recommending procedures to be established by Owner for maintenance of landscape work for one full year. Submit prior to expiration of required maintenance periods.
- Provide reproducible detail drawing after final acceptance by owner.

1.04 QUALITY ASSURANCE

- Landscape work shall be performed by a single firm specializing in landscape work.
- Obtain agronomic soil tests for all planting areas. Tests shall be performed by an approved agronomic soil testing laboratory and shall include fertility and suitability analysis with written recommendations for soil amendments, fertilizer, and chemical conditioner application rates for soil preparation, planting backfill mix, and post maintenance fertilization program. Submit a copy of soil test to Architect.
- Obtain soil test from existing topsoil topsoil. If any, to determine type and amount of amendments needed for areas that are to receive stockpiled topsoil.
- Ship landscape materials with certificates of inspection as required by governmental authorities. Comply with governing regulations applicable to landscape materials.
- Substitutions: Do not make substitutions. If specified landscape material is not obtainable, submit proof of non-availability and proposal for an equivalent material to Architect. When authorized, adjustment of contract amount will be made.
- Analysis and Standards: Package standard products with manufacturer's certified analysis. For other materials, provide analysis by recognized laboratory made in accordance with methods established by the Association of Official Agricultural Chemists, wherever applicable or as further specified.

- Topsoil: Fine sand or loamy fine sand indigenous to the area suitable for plant growth that is free of weeds, rocks, stumps larger than 1/4 inch diameter, organic mulch, hard pan, toxic substances detrimental to plant growth, and construction debris such as lime, concrete, and asphalt pieces. Deliver in normally moist condition, neither muddy nor wet.
- Trees and Shrubs: Plant names indicated are to comply with "Standard Plant Names" as accepted by latest edition of American Joint Committee of Horticultural Nomenclature. Names of varieties not listed conform generally with names accepted by the nursery trade. Provide stock that is botanical name and legally tagged. Provide healthy, vigorous stock grown under climatic conditions similar to conditions in vicinity of project. Free of disease, insects, eggs, larvae and defects such as knots, sun-scorch, injuries, abrasions or disfigurement. ALL PLANTS TO BE FLORIDA #1 OR BETTER.

- Stems: Comply with sizing and grading standards of latest edition of American Standard for Nursery Stock. A plant shall be dimensional as it stands in its natural position. Stock furnished shall be at least minimum size indicated. Larger stock is acceptable at no additional cost unless a written change order is issued.
- Inspection: Landscape Architect reserves the right to inspect trees and shrubs either at place of growth or at site before planting for compliance with requirements for name, variety, size and quality. If such approval shall not impair the right of inspection and rejection upon delivery at the site during the progress of work.

- Delivery, Storage and Handling: A. Packaged Materials: Deliver packaged materials in containers showing weight, analysis and name of manufacturer. Protect materials from deterioration during delivery and while stored at site.
- Trees and Shrubs: Provide container grown or balled and burlapped trees and shrubs. Do not use trees or shrubs which have been in cold storage or heeled-in. Do not prune prior to delivery. Do not bend or break trees or shrubs in such manner as to damage bark, break branches or destroy natural shape. Provide protective covering during delivery.

- Delivery trees and shrubs after preparation for planting have been completed and plant immediately. Cover plants transported on open vehicles with a protective covering to prevent wind burn. If planting is delayed more than six hours after delivery, set trees and shrubs in shade, protect from weather and mechanical damage, and keep roots moist.
- Do not remove container grown stock from containers until planting time.

1.05 DELIVERY, STORAGE AND HANDLING

- Packaged Materials: Deliver packaged materials in containers showing weight, analysis and name of manufacturer. Protect materials from deterioration during delivery and while stored at site.
- Trees and Shrubs: Provide container grown or balled and burlapped trees and shrubs. Do not use trees or shrubs which have been in cold storage or heeled-in. Do not prune prior to delivery. Do not bend or break trees or shrubs in such manner as to damage bark, break branches or destroy natural shape. Provide protective covering during delivery.

- Delivery trees and shrubs after preparation for planting have been completed and plant immediately. Cover plants transported on open vehicles with a protective covering to prevent wind burn. If planting is delayed more than six hours after delivery, set trees and shrubs in shade, protect from weather and mechanical damage, and keep roots moist.
- Do not remove container grown stock from containers until planting time.

1.06 PROJECT REQUIREMENTS

- Proceed with and complete landscape work as rapidly as portions of site become available working within seasonal limitations for each level of landscape work required.
- Utilities: Determine location of underground and above ground utilities and perform work in manner which will avoid possible damage. Hand excavate as required to minimize possibility of damage to underground utilities. Maintain grade stakes set by others until removal is mutually agreed upon by all parties concerned.
- Excavation: When conditions detrimental to plant growth are encountered, such as rubble fill, adverse drainage conditions or obstructions, notify Architect before planting.

1.07 WARRANTY

- Planting Schedule: Prepare a proposed planting schedule. Schedule dates for each type of landscape work during normal seasons for such work in area of job. Coordinate with specified maintenance periods to provide maintenance until final completion of work under contract.

1.08 COMBINATION WITH LAWN

- Planting of trees and shrubs after final grades are established and prior to planting of lawns, unless otherwise acceptable to Landscape Architect. If planting of trees and shrubs occurs after lawn work, protect lawn areas and promptly repair damage to lawn resulting from planting operations.

PART 2 PRODUCTS

2.08 TOPSOIL

- Topsoil for landscape work is not available at site and shall be furnished as specified.
- Provide new topsoil which is fertile, friable, natural loam, surface soil, reasonably free of subsoil, clay clumps, brush, weeds and other debris and free of roots, stumps, stones larger than 1/2 inches in any dimension, and other extraneous or toxic matter harmful to plant growth.
- Obtain topsoil from local sources or from areas having similar soil characteristics to that found at project site.
- Obtain topsoil only from mutually well-drained sites where topsoil occurs in a depth of not less than four inches; do not obtain from bogs or marshes.

2.09 SOIL AMENDMENTS

- Lime: Natural limestone containing not less than 85 percent of total carbonates, ground so that not less than 80 percent passes a 10 mesh sieve and not less than 50 percent passes a 100 mesh sieve.
- Peat Humus: FS QP-165 and with texture and pH range suitable for intended use or Florida mulch.
- Bone Meal: Commercial, raw, finely ground, 4 percent nitrogen and 20 percent phosphoric acid.
- Superphosphate: Soluble mixture of treated minerals, 20 percent available phosphoric acid.
- Commercial Fertilizer: Complete fertilizer of neutral character with soluble elements derived from organic sources and containing following percentages of available plant nutrients:
 - 1. Trees and shrubs: Minimum 10 percent available phosphoric acid, from 3 percent to 5 percent total nitrogen, and from 1 percent to 5 percent soluble potash.
 - 2. Lawns: Minimum 4 percent phosphoric acid, minimum 2 percent potassium, and percentage of nitrogen provided to provide not less than one pound of actual nitrogen per 1000 sq ft of lawn area. Provide nitrogen in a form that will be available to lawn during initial period of growth.
 - 3. Palm Fertilizer - Slow release "Palm Spec" granular fertilizer which includes trace elements of iron, magnesium and manganese.
- Sand: Clean, washed builders sand free of salt, weeds, sticks and other debris.
- Organic Soil Amendment: Pinebark chunks smaller in size but not greater than 3/4 inches in diameter.

2.10 PLANT MATERIALS - GENERAL

- Name and Variety: Provide plant materials due to name and variety established by American Joint Committee on Horticultural Nomenclature ("Standardized Plant Names").
- Quality: Provide trees, shrubs and other plants complying with recommendations and requirements of ANSI Z60.1 "Standard for Nursery Stock" and as further specified.
- Provide plants typical of their species or variety with normal, densely developed branches and vigorous, fibrous root systems. Provide only young, healthy, vigorous plants free from defects, disfiguring knots, unsound lignified, frost cracks, abrasions of the bark, plant diseases, insect eggs, larvae and all other forms of infestation. Plants shall have a fully developed form without voids and open spaces.
- Dig balled and burlapped plants with firm, natural balls of earth sufficient in diameter and depth to encompass the fibrous and feeding root system necessary for full recovery of plant. Provide soil sacks complying with latest edition of American Standard for Nursery Stock. Cracked or loose balls are not acceptable.
- Provide tree species true to normal species, character and habit. Single trunk trees will not be acceptable with "Y" shape trunk in the main leader. Cuts will not be acceptable.
- Plants planted in rows shall be matched in form.
- Plants larger than those specified in the plant list may be used and are acceptable in most instances, but should be verified by Owner.
- The height of trees, measured from the crown of the ball to the top of the top branch, shall not be less than the minimum ball diameter of the plant plus 10 percent for topping and pruning.
- Coniferous trees shall be balled and burlapped.

2.11 CONTAINER GROWN STOCK

- Stock shall be grown in container for sufficient length of time for root system to have developed to root in soil together, firm and waxy.
- No plants shall be loose in the container.
- Container stock shall not be pot bound.

2.12 SHRUBS AND SMALL PLANTS

- Requirements for spread and height are indicated in plant list.
- Measurements for height shall be taken from ground level to the average height of top of plant and not the longest branch.
- Single stemmed or thin plants will not be acceptable.
- Side branches shall be generous, well-twigged and the plant as a whole, well-balanced to ground.

- Plants shall be in moist, vigorous condition, free from dead wood, bruises or other root or branch injuries.
- Provide plants established and well-rooted in removable containers or integral peat beds and with less than minimum number and length of runners required by ANSI Z60.1 for pot size shown on list.

2.13 FERTILIZER

- Plant Fertilizer Type A: Commercial type, containing at least 12 percent nitrogen, 12 percent phosphoric acid, and 12 percent potash and whose composition is at least 50 percent organic so as to provide a continuous time released character.
- Preferred Type: Pelletized or briquette form, such as Agriplan labels for use in planting shrubs and trees on an individual basis.
- Granular Type A to be incorporated into topsoil of planting beds, annual beds and ground cover beds.

2.14 MULCH

- For Use in Backfill Mixtures: Well-spread pine bark or native hardwood not larger than 1/2 inch in width.

2.15 ACCESSORIES

- Topsoil: Friable, friable, natural of loamy character, without a mixture of subsoil material, shall be obtained from a well-drained, arable site, or from on-site stockpile being reasonably free from clay lumps, coarse sands, stones, roots, sticks and other foreign materials, with a acidity range of between pH 6.0 and 6.5.
- Peat Moss: Broken to black in color, weed and seed free, granulated, raw peat or baled peat, containing not more than 5 percent mineral on a dry basis.
- Water: Free of substances harmful to plant growth.
- Stakes for Tree Staking: Common and acceptable in region of project.
- Guying Wire: 10 or 12 gauge galvanized wire.
- Turbuckles: Galvanized steel or aluminum of size and gauge required to provide tensile strength equal to that of guying wire. Turbuckles opening shall be at least 3 inches to allow for periodic adjustments.
- Staking and Guying Hose: Twice reinforced garden hose not less than 1/2 inch inside diameter.
- Twine: Twenty-five pound material.
- Soil Separator: Heat resistant felt fabric, water permeable and unaffected by freezing and thawing.
- Drainage Fill: AASHTO M43M6, 3/8 inch to 3/4 inch clean, uniformly graded stone.
- Erosion Control Fabric: Dowe Weerd Barrier or equal.

2.16 ANTI-DESICANT

- Emulsion type, film-forming agent designed to permit transpiration but retard excessive loss of moisture from plants.
- Deliver in manufacturer's fully identified containers and mix in accordance with manufacturer's instructions.
- Acceptable Manufacturers:
 - 1. Dow Chemical Company, Dowex.
 - 2. Nursery Specialty Products, Inc., Wilt-Profit.

2.17 PLANTING SOIL MIXTURE

- Max. 1/3 parts organic soil amendment to 2 parts "Florida Mulch" or equivalent to 1/3 parts clean, washed builders sand.
- Add soil amendments as recommended by soil test in quantities necessary to bring soil mixture to pH of between 5.5 and 6.5. Mixtures used for pH correction shall be commercially produced for this purpose.
- For pit and trench type backfill, mix planting soil prior to backfilling and stockpile at site.
- For ground cover and other planting beds, mix planting soil mixture either prior to planting or apply on surface of topsoil and mix thoroughly before planting.
- Mix with dry soil prior to mixing of fertilizer.
- Prevent lime from contacting roots of acacia-type plants.
- Apply phosphoric acid fertilizer, other than that containing a portion of complete fertilizer, directly to subgrade before applying planting soil and tilling.
- For palms, plant in existing suitable soil or a mixture of 75% sand and 25% peat.

PART 3 EXECUTION

3.18 EXAMINATION

- Examine subgrade, verify elevations, observe conditions under which work is to be performed and correct unsatisfactory conditions before proceeding with the work or notify Landscape Architect if adverse conditions are discovered which will inhibit plant growth.

3.19 PREPARATION

- Lay out individual tree and shrub locations and areas for multiple plantings. Stake locations and surface areas and secure Landscape Architect's acceptance before start of planting work. Make minor adjustments as may be required.
- In planting beds, where plants are spaced 3 feet on center or less, work soil amendments as required by soil test. Remove stones over 1/2 inch in any dimension, stock, rubbish and other extraneous matter. Use a cultipacker or other similar equipment to work amendments into soil.

3.20 PLANTING

- Place minimum 4 inch layer of gravel in bottom of planters and fill with planting soil mixture. Place soil in lightly compacted layers to an elevation 1-1 1/2 inches below top of planter allowing for future settlement. For nursery plantings, soil mixture shall be a sterile medium used for interior plantings such as Metrolene or equal.

3.21 EXCAVATION - TREES AND SHRUBS

- Excavate pits, beds and trenches with vertical sides and with bottom of excavation slightly raised at center to provide proper drainage. Loosen hard subsoil in bottom of excavation.
- Bare Root Trees and Shrubs: Make excavations minimum 1/2" wider than root spread and deep enough to allow for setting of roots on a layer of compacted planting soil mixture and with collar set at same grade as in nursery but 2 inches below finished grade at site. Allow for 9 inch settling layer of planting soil mixture.

3.22 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.23 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.24 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.25 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.26 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.27 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.28 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.29 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.30 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.31 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.32 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.33 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.34 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.35 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

3.36 PLANTING TREES AND SHRUBS

- Set bare root stock on cushion of planting soil mixture. Spread roots, carefully work backfill around roots by hand and provide with water until roots are completely saturated. Plumb before backfilling and maintain plumb while working backfill around roots and planting layers above roots. Set collar level to top of planting soil. Spread backfill around roots and planting layers above roots. Cut roots that do not spread.

Table 1 Water Volume for New Trees and Palms			
Single Trunk	Multi-Trunk	Min. Water Volume per Application	
2" Cal.	8'-10'	6 Gal.	
3" Cal.	10'-12'	9 Gal.	
4" Cal.	12'-14'	12 Gal.	
5" Cal.	14'-16'	15 Gal.	
6" Cal.	-	18 Gal.	
Each Palm	-	12 Gal.	

Table 2 Water Volume for New Shrubs & Groundcovers		
Plant Size	Min. Water Volume per Application	
1 Gallon	1 quart	
3 Gallon	2 quarts	
15 Gallon	1 Gallon	

NOTE: ALL PROPOSED LANDSCAPING SHALL BE WATERED BY HOSE BIBBS, WATER TRUCK AND / OR WATERING BAGS AT VOLUMES SPECIFIED ABOVE

MINIMUM 3 MONTH ESTABLISHMENT PERIOD SHALL REQUIRE WATERING EVERYDAY FOR THE FIRST MONTH, EVERY OTHER DAY FOR THE SECOND MONTH AND TWICE A WEEK FOR THE THIRD MONTH UNTIL ALL MATERIAL IS ESTABLISHED. SEE 3.26 WATERING.

TREEGATOR® ORIGINAL SLOW RELEASE WATERING BAG FOR SHADE TREES

BENEFITS

- Ideal for newly planted shade or street trees.
- Reduces transplant and drought shock.
- 100% water absorption with no run off.
- Install and fill in minutes with no tools required.
- Deep water saturation with every fill.
- Fill just 1 to 2 times per week, or as needed.
- Promotes deep root growth.
- Non-invasive design will not harm existing landscape.
- Can be used with nutrient / chemical additives.
- Zip multiple bags together to accommodate large trees.
- Made in the U.S.A. with a 5-year limited warranty.

SUGGESTED WATER BAG OR APPROVED EQUAL

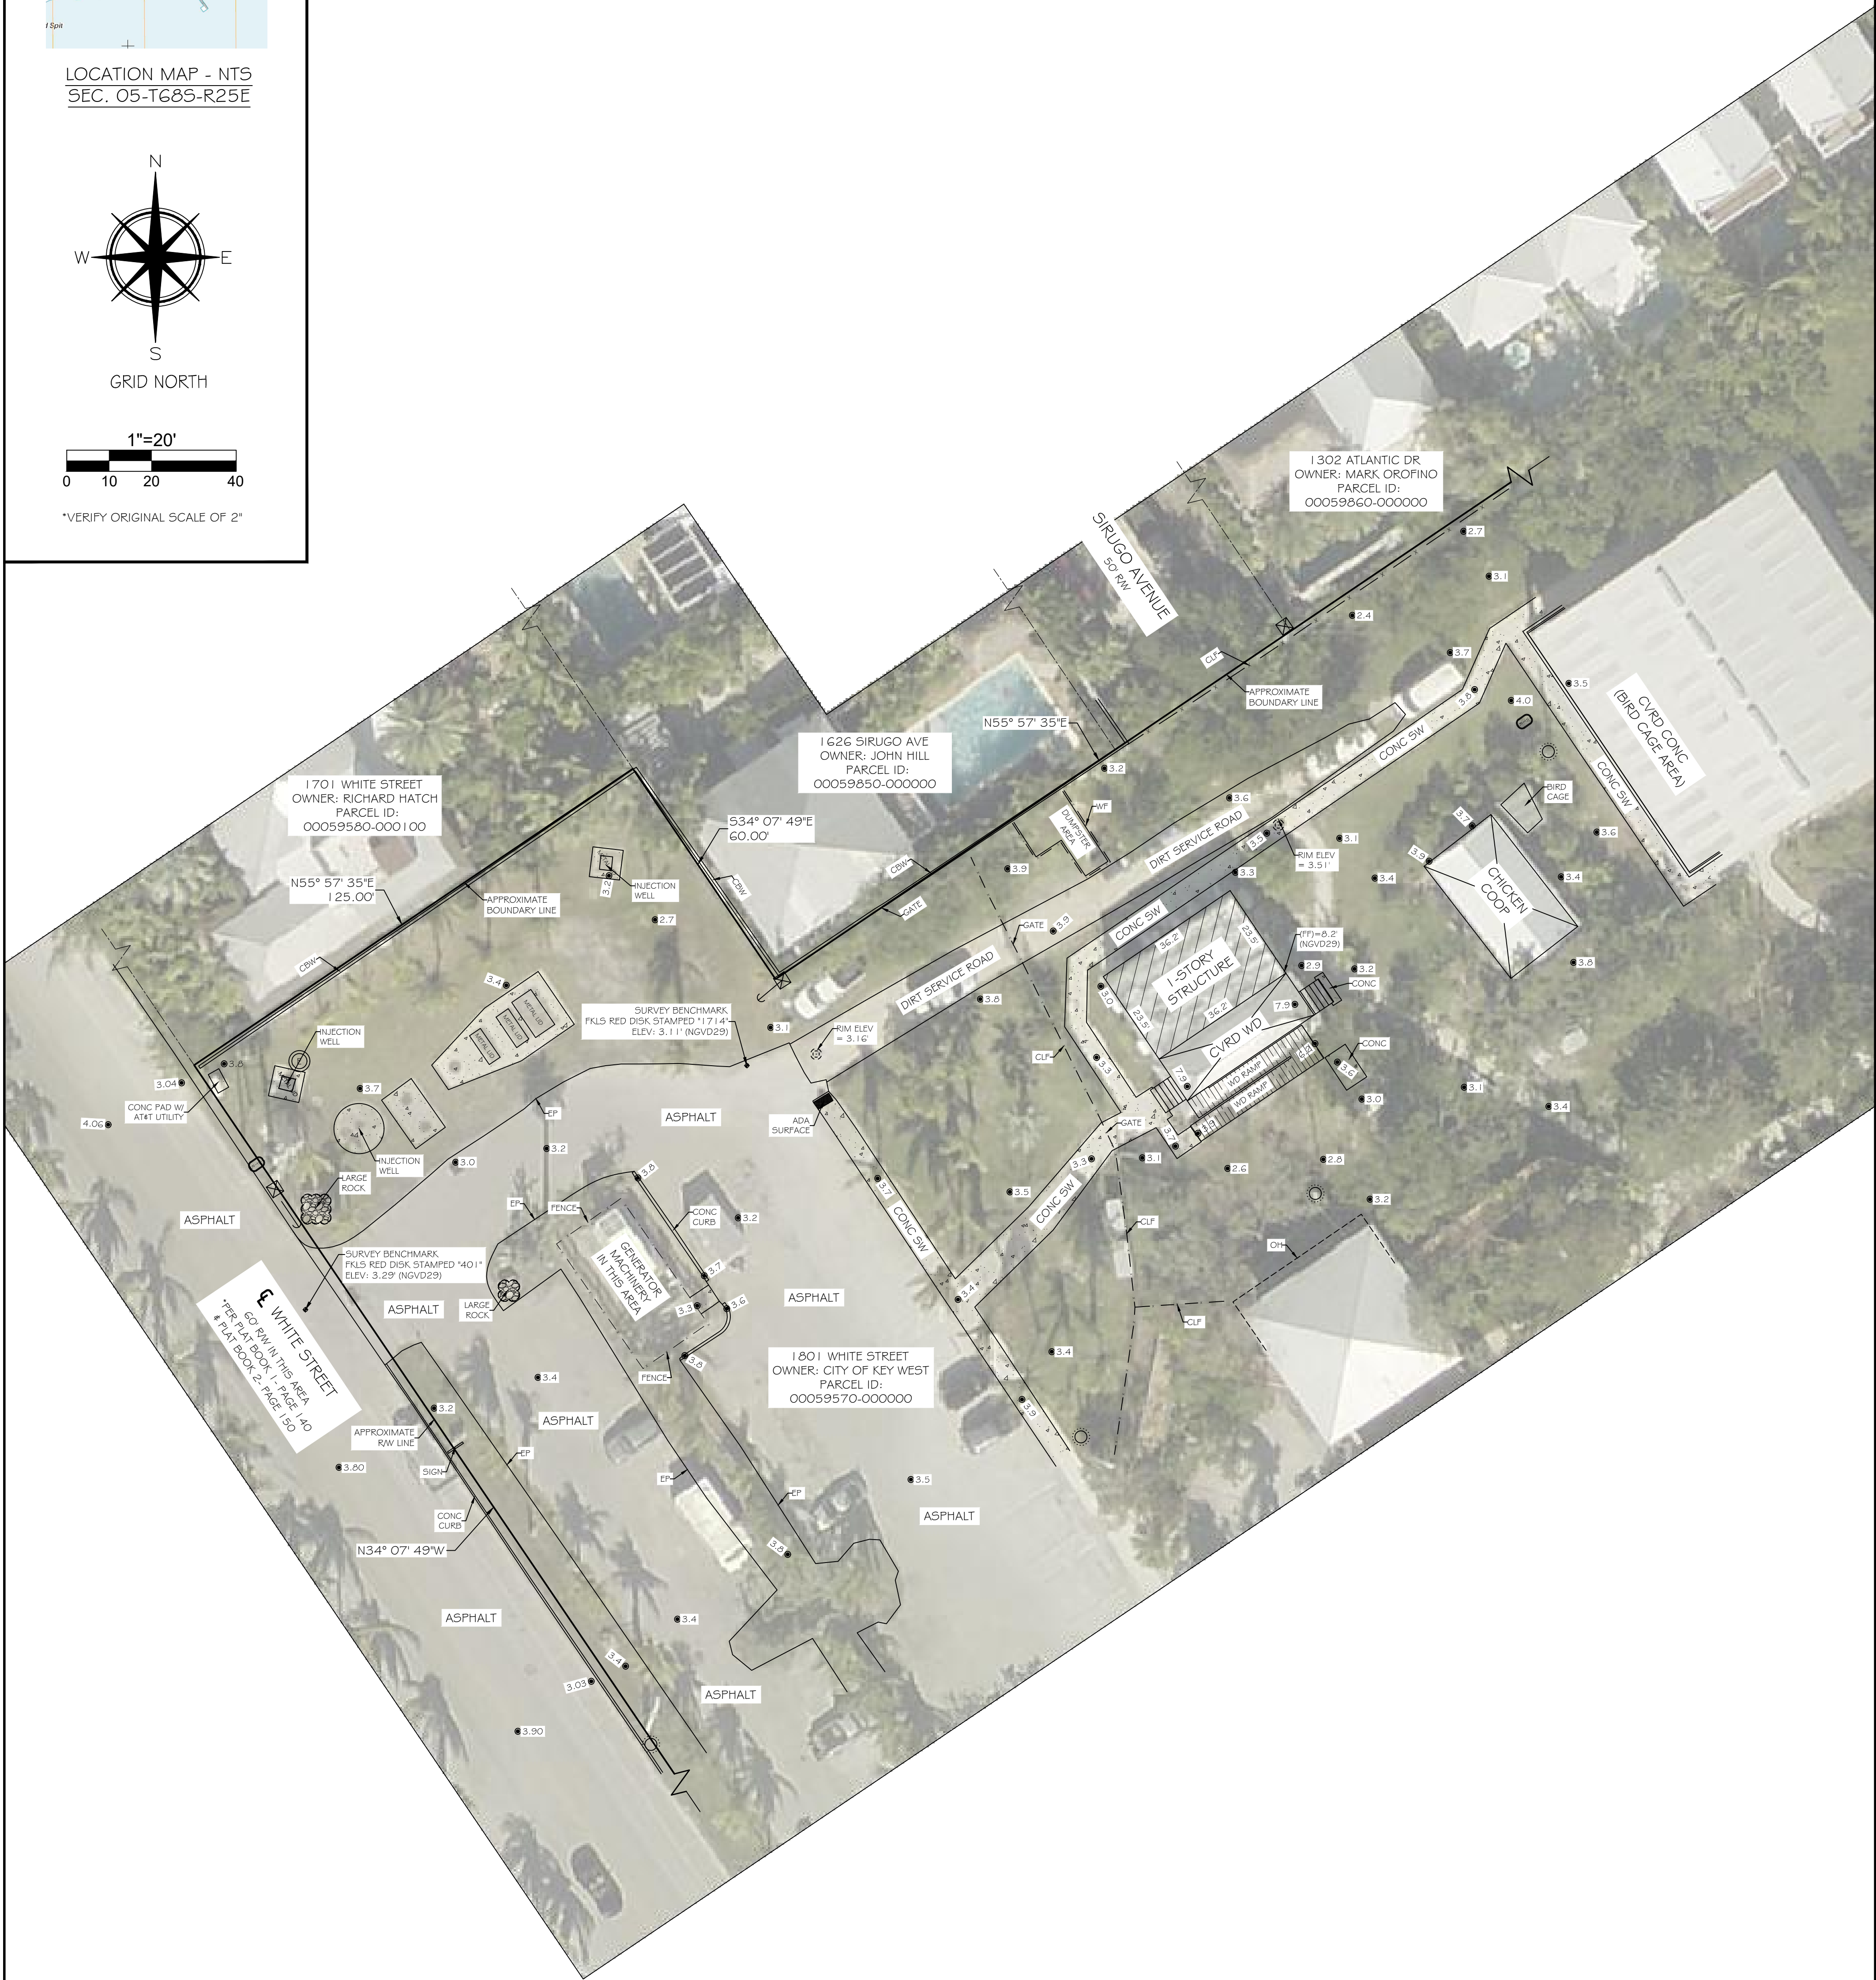

Boundary Survey

SURVEYORS NOTES

- THIS IS NOT A BOUNDARY SURVEY. ANY BOUNDARY OR RIGHT OF WAY LINES SHOWN HEREON ARE APPROXIMATE AND SHOWN FOR REFERENCE PURPOSES ONLY, AND ARE A GRAPHICAL REPRESENTATION OF THE BOUNDARY BASED ON THE RECOVERY OF SUFFICIENT BOUNDARY MONUMENTATION TO SPATIALLY DEFINE THE BOUNDARY LINES. NO ATTEMPT WAS MADE TO RESOLVE CONFLICTS BETWEEN THE RECOVERED BOUNDARY INFORMATION AND THE OCCUPATIONAL LINES.
- HORIZONTAL COORDINATES AND BEARINGS SHOWN ARE COORDINATED TO GRID NORTH, BASED ON THE 2011 ADJUSTMENT OF THE NORTH AMERICAN DATUM OF 1983 (NAD 83/2011), OF THE FLORIDA STATE PLANE COORDINATE SYSTEM (TRANSVERSE MERCATOR PROJECTION), EAST ZONE (0901).
- COORDINATES WERE ESTABLISHED BY A REAL-TIME KINEMATIC (RTK) GNSS CONTROL SURVEY WHICH IS CERTIFIED TO A 2 CENTIMETER LOCAL ACCURACY, RELATIVE TO THE NEAREST CONTROL POINT WITHIN THE NATIONAL GEODETIC SURVEY (NGS) GEODETIC CONTROL NETWORK.
- METHOD: WIDE AREA CONTINUOUSLY OPERATING GPS REFERENCE STATION NETWORK (TRIMBLE VR5).
- ELEVATIONS SHOWN HEREON ARE IN FEET AND BASED ON THE NATIONAL GEODETIC VERTICAL DATUM OF 1929 (NGVD 1929).
- BENCHMARK DESCRIPTION: NATIONAL GEODETIC SURVEY BENCHMARK; DESIGNATION D 121, F.I.D. AA0020, ELEVATION 3.91' (NGVD 1929).
- ADDITIONS OR DELETIONS TO SURVEY MAP OR REPORT BY OTHERS THAN THE SIGNING PARTY IS PROHIBITED WITHOUT THE WRITTEN CONSENT OF THE SIGNING PARTY.
- THE UNDERGROUND UTILITIES SHOWN HEREON HAVE BEEN LOCATED FROM FIELD EVIDENCE. THE SURVEYOR MAKES NO GUARANTEES THAT THE UNDERGROUND UTILITIES SHOWN HEREON ENCOMPASS ALL SUCH UTILITIES IN THE AREA, EITHER IN SERVICE OR ABANDONED. FURTHERMORE THE SURVEYOR DOES NOT WARRANT THAT THE UNDERGROUND UTILITIES SHOWN ARE IN THE EXACT LOCATION INDICATED ALTHOUGH HE DOES CERTIFY THAT THEY ARE LOCATED AS ACCURATELY AS POSSIBLE FROM THE EVIDENCE AVAILABLE. THE SURVEYOR HAS NOT PHYSICALLY LOCATED THE UNDERGROUND UTILITIES.
- STREET ADDRESS: (A PORTION OF) 1801 WHITE STREET, KEY WEST, FL 33040.
- ALL UNITS ARE SHOWN IN U.S. SURVEY FEET.
- BACKGROUND IMAGE IS A 2017 GEOFERENCE AERIAL IMAGE OBTAINED FROM THE MONROE COUNTY G.I.S. DEPARTMENT AND IS SHOWN FOR VISUAL REFERENCE ONLY.
- ALL FIELD DATA WAS ACQUIRED BETWEEN 06/20/2022 - 06/24/2022.

NOTE: LEGAL DESCRIPTIONS HAVE BEEN FURNISHED BY THE CLIENT OR HIS/HER REPRESENTATIVE. ADDITIONS OR DELETIONS TO SURVEY MAP OR REPORT BY OTHER THAN THE SIGNING PARTY IS PROHIBITED WITHOUT WRITTEN CONSENT OF THE SIGNING PARTY. THE BOLD LINE SHOWN HEREON REPRESENTS THE SURVEYORS OPINION OF THE DEED LINES. THE MEAN HIGH WATER LINE AS SHOWN ON THIS SURVEY MAP WAS IDENTIFIED IN THE FIELD BY PHYSICAL EVIDENCE ON SITE SUCH AS DISCOLORATION, VEGETATION INDICATORS OR WRACK LINES. THIS IS NOT A MEAN HIGH WATER LINE SURVEY AND DOES NOT COMPLY WITH CHAPTER 177, PART II, FLORIDA STATUTES. THE SAID MEAN HIGH WATER LINE IS SHOWN FOR REFERENCE ONLY.

I HEREBY CERTIFY THAT THIS SURVEY WAS MADE UNDER MY RESPONSIBLE CHARGE AND MEETS THE STANDARDS OF PRACTICE AS SET FORTH BY THE FLORIDA BOARD OF PROFESSIONAL SURVEYORS AND MAPPERS IN CHAPTER 53-17, FLORIDA ADMINISTRATIVE CODE, PURSUANT TO SECTION 472.027, FLORIDA STATUTES AND COMPLIES WITH CHAPTER 177, FLORIDA STATUTES.

SIGNED
ERIC A. ISAACS, PS# 6703, PROFESSIONAL SURVEYOR AND MAPPER, LBM 7647

NOTE: FOUNDATIONS BENEATH THE SURFACE ARE NOT SHOWN. MEASURED DIMENSIONS EQUAL PLATTED OR DESCRIBED DIMENSIONS UNLESS INDICATED OTHERWISE.

THE FOLLOWING IS A LIST OF ABBREVIATIONS THAT MAY BE FOUND ON THIS SHEET.

BFP = BACK-FLOW PREVENTER	HB = HOSE BID	PCC = POINT OF COMMENCEMENT
BO = BLOW OUT	ICV = IRRIGATION CONTROL VALVE	PRC = POINT OF REVERSE CURVE
C 4 G = 4" CONCRETE CURB 4 GUTTER	IP = IRON PIPE	PRM = PERMANENT REFERENCE MONUMENT
CB = CONCRETE BLOCK	IR = IRON ROD	PT = POINT OF TANGENT
CSW = CONCRETE BLOCK WALL	L = ARC LENGTH	R = RADIUS
CL = CENTERLINE	LS = LANDSCAPING	RW = RIGHT OF WAY LINE
CLF = CHAINLINK FENCE	MS = MANSION	SSCO = SANITARY SEWER CLEAN-OUT
CM = CONCRETE MONUMENT	MEAS = MEASURED	SW = SIDE WALK
CONC = CONCRETE	MF = METAL FENCE	TBM = TEMPORARY BENCHMARK
CONC = CONCRETE	MHWL = MEAN HIGH WATER LINE	TOS = TOP OF BANK
CP = CONCRETE POWER POLE	(SEE NOTE)	TOS = TOP OF SLOPE
DELTA = CENTRAL ANGLE	NGVD = NATIONAL GEODETIC VERTICAL DATUM (1929)	TYP = TYPICAL
DEAD = DEBRIS EASEMENT	NTS = NOT TO SCALE	UE = UTILITY EASEMENT
ENCL = ENCLOSURE	OH = ROOF OVERHANG	WD = WOOD DECK
EP = EDGE OF PAVEMENT	OWH = OVERHEAD WIRES	WL = WOOD LANDING
FF = FINISHED FLOOR ELEVATION	PC = POINT OF CURVE	WM = WATER METER
FI = FIRE HYDRANT	PM = PARKING METER	WPF = WOOD POWER POLE
FI = FENCE INSIDE	PCC = POINT OF COMPOUND CURVE	WRACK LINE = LINE OF DEBRIS ON SHORE
FND = FOUND	PCP = PERMANENT CONTROL POINT	WV = WATER VALVE
FO = FENCE OUTSIDE	PK = PARKER KALON NAIL	
FOL = FENCE ON LINE	PDB = POINT OF BEGINNING	
GUY = GUY WIRE	PI = POINT OF INTERSECTION
