**A RESOLUTION OF THE CITY COMMISSION OF

THE EFFORTS OF THE FLORIDA KEYS AQUEDUCT  
AUTHORITY TO SITUATE A REVERSE OSMOSIS  
PLANT IN OR NEAR MARATHON, FLORIDA IN THE  
MIDDLE KEYS; PROVIDING FOR AN EFFECTIVE  
DATE**

WHEREAS, the City Commission finds that cooperation among local governments and the Aqueduct Authority is critical for providing essential water services in the Florida Keys; and

WHEREAS, the City Commission finds that the Florida Keys is served by a 130-mile-long transmission line that brings water from Florida City to Key West that is maintained by the Aqueduct Authority; and

WHEREAS, a new reverse osmosis plant is set to come online in Stock Island in close proximity to Key West that will benefit the City's residents; and

WHEREAS, the Aqueduct Authority is beginning the process of replacing a near fifty year old transmission line, but it is an expensive and years-long endeavor; and

WHEREAS, during the lengthy replacement process the transmission line is sure to suffer leaks; and

WHEREAS, situating a second reverse osmosis plant in or near Marathon, Florida would allow the Aqueduct Authority to generate more water locally, which is especially useful during leaks in the transmission line; and

WHEREAS, the City Commission is aware of the Aqueduct Authority's attempts to secure state and federal funding for their necessary water projects to supplement a local share; and

WHEREAS the siting of additional reverse osmosis plants in the Florida Keys will enhance the health, welfare and safety of residents of the City of Key West and the entire Monroe County;
