This application is reviewed pursuant to Section 90-391 through 90-397 of the City of Key West Land Development Regulations (LDRs). The City's LDRs can be found in the Code of Ordinances online at [http://www.municode.com/Library/FL/Key\\_West](http://www.municode.com/Library/FL/Key_West) under Subpart B.

**\*Please note, variances are reviewed as quasi-judicial hearings, and it is improper for the owner or applicant to speak to a Planning Board member or City Commissioner about the hearing.**

## Standards for Considering Variances

**Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met: Please print your responses.**

1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures, or buildings in the same zoning district.

Special conditions exist which are peculiar to this property. This is a nonconforming lot, which predates the current code and comprehensive plan; it contains enough density for a single-family home, but the size of the setbacks in the CL make building on the lot an unreasonable use of the land without the benefit of variances.

2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.

Conditions were not created by applicant. The property has been in its current configuration since at least 1982, which predates the current code and comprehensive plan. The applicant purchased the property in 2021.

3. Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings, or structures in the same zoning district.

Special privileges will not be conferred upon the granting of the variance(s). The property has density for one single-family home and the applicant is seeking one single-family home. The variances will allow the property owner reasonable use of the land in a similar manner as other residential lots in the immediate area.

4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

Hardship conditions exist. The literal interpretation of the land development regulations will prevent reasonable use of the land.

5. Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure.

Only the minimum variance(s) are requested that would permit the applicant the opportunity to reasonably use the land. In this by building a single-family home intended to house employees of the owners' business in a safe and respectful manner including life-safety access to and around the structure.

Revised by applicant agent: 03/17/2023

6. Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

Granting of the variance(s) is not injurious to the public welfare and will be in harmony with the general intent and purpose of the LDRs, and will not be detrimental to the public interest or welfare. The character of the immediate neighborhood is single-family, two-family, multi-family housing, occupied primarily by local working people.

7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

This application does not rely on other nonconforming lots and structures as justification.

**The Planning Board and/or Board of Adjustment shall make factual findings regarding the following:**

- That the standards established in Section 90-395 have been met by the applicant for a variance.
- That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."

Revised by applicant agent: 03/17/2023

## MONROE COUNTY

### RESIDENTIAL STORMWATER RETENTION CALCULATION SHEET

#### 1. Determine Total Impervious Coverage on site:

##### a. Determine Impervious Coverage EXISTING prior to new improvement:

Roof/slabs	A	0.00	ft <sup>2</sup>	Sidewalks	D	0.00	ft <sup>2</sup>
Decks / Patios	B	0.00	ft <sup>2</sup>	Pool/Deck	E	0.00	ft <sup>2</sup>
Driveways	C	0.00	ft <sup>2</sup>	Other	F	0.00	ft <sup>2</sup>
Impervious Coverage EXISTING prior to improvement (A + B + C + D + E + F)							0.00
							1a

##### b. Determine NEW Impervious Coverage PROPOSED with improvement:

Roof/slabs	A	1,239.73	ft <sup>2</sup>	Sidewalks	D	0.00	ft <sup>2</sup>
Decks / Patios	B		ft <sup>2</sup>	Pool/Deck	E	0.00	ft <sup>2</sup>
Driveways	C	46.64	ft <sup>2</sup>	Other	F	0.00	ft <sup>2</sup>
Impervious Coverage PROPOSED with improvement (A + B + C + D + E + F)							1,286.37
							1b

Total Impervious Coverage: EXISTING + PROPOSED (1a+1b) 1,286.37 1

#### 2. Determine Percentage of Impervious Coverage on site:

1,286.37 1 ft<sup>2</sup> / 2,550.00 2 ft<sup>2</sup> = 50.45% 2 % of Impervious Coverage

#### 3. Determine "Disturbed Area" f(114-3/f(2) 4)

2,550.00 3 ft<sup>2</sup> - 0.00 3 ft<sup>2</sup> = 2,550.00 3 Disturbed Area

Total Lot Area Native Vegetation - If no BMP enter "0"

For the purposes of this section, the term "disturbed area" includes the entire lot except that the areas covered by the following best management practices (BMP) shall be subtracted from the calculation of disturbed area: (i) Forested upland areas/vegetative buffer strips (both natural and manmade) which will be retained intact and over or through which vehicular access or travel is not possible and will not occur; and (ii) Open water surfaces and wetlands (salt marsh, buttonwood, mangroves, or freshwater marsh habitat types). It will be the responsibility of the applicant to affirmatively demonstrate that the best management practices used for the project are designed, constructed, and maintained properly.

#### 4. Determine Required Swale Volume - Complete a, b, or c:

##### a. For a NEW home with less than 40% Impervious Coverage, use:

2,550.00 3 ft<sup>2</sup> X 0.083 = 211.65 4a ft<sup>3</sup> Swale Volume

##### b. For a NEW home with 40% or greater Impervious Coverage, use:

2,550.00 3 ft<sup>2</sup> X 0.208 X 50.45% 2 = 267.56 4b ft<sup>3</sup> Swale Volume

##### c. When only new impervious area requires storm water retention (Existing Single Family & Duplexes Only):

1. When the total lot impervious coverage remains below 40% after the additional development:

1,286.37 1b ft<sup>2</sup> X 0.083 = 106.77 4c1 ft<sup>3</sup> Added Swale Volume

2. When the new development increases the total lot impervious area to 40% or above:

1,286.37 1b ft<sup>2</sup> X 0.208 = 267.56 4c2 ft<sup>3</sup> Added Swale Volume

#### 5. Determine Swale Length (Swale side slopes must be no steeper than 4:1)

(5.00 1 ft X 1.00 2 ft) / 2 = 2.50 2 Cross Sectional Area\*\*

Width Depth

267.56 3 ft / 2.50 2 ft = 107.03 3 ft Swale Length

Swale Volume Cross Sectional Area

Either 4 - a, b, c1 or c2 ("e.g. a V-shaped swale with 4:1 slopes, 8 feet wide and 1 foot deep has 4 SF of Cross Sectional Area.")

Source: These Formulas are derived from the criteria for Water Quality treatment in paragraphs f(2)b. & a. of Monroe County Code 114-3. Updated 9/5/2012
