Subject: neighbors interaction summary

Owen,

Would you please send this to the City? It is a summary of our interactions with our neighbors.

We walked our neighborhood for a second time on Sunday 10/01/23 and knocked on everyone's door to talk about the project. A handful of people were home. We explained what was going on and what changes had happened since the last time we spoke. Many of the properties are multi-family, with renters and almost all are working people. Every person we spoke with was very supportive and all talked about the tremendous need for more housing. We gave each person/property a set of drawings and our contact information. The following is a list of people/properties we were able to speak with. Everyone else we left a packet of plans at their doors. The owners of the two properties that submitted objections were sent emails because, of course, they don't live here.

1909 Staples Ave - Spoke with the owner of the property. She was supportive

1911 Staples Ave – Spoke with the manager of the roommate-style house. She, and the owners, are supportive

1923 Staples Ave – Spoke with the owner of the property. She is supportive

1918 Staples Ave – Spoke with the owner and her tenants, all were supportive

1914 Staples Ave – Spoke with the tenants, they are supportive

1910 Staples Ave. – Spoke with the tenants, they are supportive

Thank you!

Have a great day!

Oksana Pouliot / Vice President
