## Staff Report Item 4

---

<b>Meeting Date:</b>	July 15, 2014
<b>Applicant:</b>	Elizabeth Newland, Landscape Architect
<b>Application Number:</b>	H14-01-1078
<b>Address:</b>	#200 William Street
<b>Description of Work:</b>	Landscape improvements including and related hardscape.
<b>Site Facts:</b>	The design is part of a landscape project for the hotel under construction, specifically on the property facing Lazy Way. The project is intended to improve the north portion of the lot that faces the waterfront.
<b>Guidelines Cited in Review:</b>	Parking areas, Landscaping and Open space environment (page 43), specifically guidelines 1 and 6.

### Staff Analysis

The Certificate of Appropriateness proposes landscape improvements of a portion of the site that faces Lazy Way. The design includes the installation of approximately 1,700 square feet of concrete bricks in order to create a sculpture park. The proposed new space will not have access restrictions. On the south portion of the site dense landscape is proposed. The project received approvals from the Key West Management District Board and the Tree Commission.

### Consistency with Guidelines

1. The existing site is under a new development and there are no historic elements found in the site or surrounding context, with the exception of the old cbs structure that houses the Schooner Warf.

2. The proposed design incorporates regional flora to be planted in the site. The proposed sculpture park will complement the existing waterfront esplanade.

The design, as proposed, meets the guidelines regarding open spaces. The proposed open park will create a new focal point in the waterfront and will give more cohesion to the streetscape.
