

STAFF REPORT

DATE: December 16, 2014

RE: 3743 Donald Avenue (permit application #7192)

FROM: Karen DeMaria, Urban Forestry Manager,
City of Key West

An application was received for the removal of **(1) Royal Poinciana tree**. A site inspection was done on December 16, 2014 and documented the following:

Tree Species: Royal Poinciana (*Delonix regia*)

Tree growing out of crotch of tree

Diameter: 17.8"

Location: 70% (visible road tree, has space, recent construction on property)

Species: 100% (on protected tree list)

Condition: 30% (tree has been in decline for a while, started losing its canopy leaves before season, lots of decay throughout canopy branches)

Total Average Value = 66 %

Value x Diameter = **11.7 replacement caliper inches**

NOTE: The former property owner was known to have regularly topped this tree. This property currently has an open tree permit and a settlement agreement. During planning for the required replacements, the decline of the tree was noted. The representative for the applicant would like to remove the tree now in order to do all the required replacement inches at one time.

Recommendations: Recommend approval of the removal of (1) Royal Poinciana tree located at 3743 Donald Avenue, to be replaced with 11.7 caliper inches of FL#1 native dicot or fruit trees, on site.

Application

7192

Tree Permit Application

Date: 12/09/14

Please Clearly Print All Information unless indicated otherwise.

Tree Address 3743 Donald Avenue
Cross/Corner Street 20th Street
List Tree Name(s) and Quantity Poinciana (1)
Species Type(s) check all that apply () Palm (x) Flowering () Fruit () Shade () Unsure
Reason(s) for Application:
