

Dear Mayor, Commissioners and Chief Lee

I will repeat my self.

I request that the city of Key West enforce all nudity laws, all the time on our public streets.

What goes on inside any business with the proper permits and/or listed on the entrance of the business of 'private", private party, "nudity" allowed" etc. for a special event is of no concern to anyone, regarding tonight's meeting.

I suggest the City to direct TDA, to direct Market share of (whoever markets this event) to follow our laws. If they are going to market Fantasy Fest as a event which takes place Sun through Sat, than they should be paying for all that goes on with in this time frame, street closures etc. Including any needed extra law enforcement. Which is much needed.

Market share is an advertising venue more or less for those that sponsor, but they own the Friday and Sat street party and parade and should be directed by TDA and the City of proper non confusing themes and who they choose to be a the major sponsor of the parade.. The city should not grant them in this time period to sell alcohol leave that to the bars.

No contract of this magnitude should be more than 2 years should be allowed to go out to bid for others to have a chance to bid on.

Thank you for your time
