

Staff Report for Item 4

To: Chairman Michael Miller and Historic Architectural
Review Commission Members

From: Kelly Perkins, MHP
HARC Assistant Planner

Meeting Date: March 24, 2015

Applicant: William Rowan Architecture, Architect

Application Number: H15-01-0125

Address: #720 Elizabeth Street

Description of Work:

Second Reading: Demolition of rear addition on contributing house. Demolition of rear side of main structure's roof.

Site Facts:

The house at 720 Elizabeth Street is currently a one-story, traditional frame vernacular house. The survey lists the structure as a contributing resource built c. 1948, but the house first appears on the 1912 Sanborn map with no change to its footprint through subsequent Sanborn maps. As of 1912, the property has always contained four residences, all one-story dwellings.

The house has a hip roof, which is a very unusual roof configuration for one-story, historic houses in Key West. Normally those type of houses have a front or side gable roof. Currently there are a two, one-story additions in the rear. Neither appear on the 1962 Sanborn map. An addition appears on a 1968 aerial photograph, and the house in its current state definitively appears on a 1972 aerial photograph, leaving staff to question whether the additions are 50 years old and historic.

Guidelines Cited in Review:

Demolition of historic and contributing structures, Sec. 102-217 (3) and Sec.102-218: Criteria for Demolitions of the Land Development Regulations.

Demolition of non-historic or non-contributing structures, Sec. 102-217 (2) and Sec. 102-125: Historic architectural review commission findings precedent to issuance of the Land Development Regulations.

Demolitions and Relocations (page 39).

Roofing (page 26), specifically guideline 4.

Staff Analysis

This is the second reading for a Certificate of Appropriateness proposing demolition of part of the main house's roof in order to create a stairway to the second floor of the new addition. A new gable roof will star from the ridge of the hip roof and connect with the rear addition.

Consistency with Guidelines and Ordinance for Demolition

It is staff's opinion that the demolition of the roof configuration of the contributing resource's historic hip roof is a character-defining feature of the structure. The request to alter and demolish part of the roof is inconsistent with the guidelines regarding roofing and Sec. 102-217, 218 of the Land Development Regulations. If approved, this will be the final review for this project.
