### **Description of Work**

Demolition of front porch on non-historic accessory structure.

### **Site Facts**

This structure under review is one of the three on the site. It is a non-historic frame cottage that first appears in a 1968 aerial photograph. The building is set towards the rear of the property and is not highly visible. The property has a main house that is a contributing resource and came in front of HARC in October 2014 for renovations, addition of dormers, and raising the house.

### **Ordinance Cited in Review:**

Sec. 102-217 (2): Demolition of non-historic or non-contributing buildings, Sec. 102-218: Criteria for demolitions, and Sec. 102-125: Historic architectural review commission findings precedent to issuance in the Land Development Regulations.

### **Staff Analysis**

The Certificate of Appropriateness in review proposes the demolition of a non-historic front porch on an accessory building. This project will have no effect on the contributing resource. It is staff's opinion that the proposed demolition will not cover historic elements. As the structure is not historic, it does not meet any of the criteria listed in Sec. 102-125 (1) through (9), and therefore the demolition of the front porch can be considered. If the demolition is approved this will constitute the only review for this request.
