

Staff Report for Item 5a

To: Chairman Michael Miller and Historic Architectural Review Commission Members

From: Kelly Perkins, MHP
HARC Assistant Planner

Meeting Date: March 24, 2015

Applicant: Michael Skoglund, Architect

Application Number: H15-01-0099

Address: #1322 Olivia Street

Description of Work

Renovations to non-contributing building.

Site Facts

This site shares two properties (1320 and 1322 Olivia), but neither are contributing to the district or are historic. The 1962 Sanborn map shows a one-story frame structure with a porch, but the 1965 property appraiser's photograph shows a one-story frame structure without a porch. It appears that the one-story building was severely altered and significantly added onto between 1965 and 1968, as the 1968 aerial photograph shows the building in its current state: two-stories with a jog in one corner. The building still retains three of the window openings that were there in 1965. Currently, the building needs much repair and renovation. In 2014, the site was converted into a three unit condominium.

Guidelines Cited in Review

Additions/Alterations and New Construction (pages 36-38a), specifically guidelines 2, 3, 4, 5, and 7.

Entrances, Porches, and Doors (pages 32-33), specifically guideline 13.

Staff Analysis

The Certificate of Appropriateness in review proposes renovating a deteriorating structure at 1322 Olivia. The applicant plans to add an addition on the façade that faces Olivia Street, filling in the current cut-out on the building. The front exterior staircase will be removed.

The proposed plan also includes removing the asbestos siding and replacing it with wood lap siding. The metal awning windows will be removed and replaced with 2/2 wood windows and wood casement windows. The front of the house will have two wood doors, and a door on the rear/southwestern side of the house will be installed to create an interior staircase to access the second floor unit.

As the site is built to its limit, the proposed project will remove part of the roof overhang all the way around the building to comply with setback requirements.

Consistency with Guidelines

1. Additions and alterations may be reviewed more liberally on non-contributing buildings, which lack architectural distinction.
2. Although the proposed addition will be publicly visible, it will create more of a balance and symmetry to the existing building.
3. The plan will remove the non-historic, exterior staircase that was not appropriate for the historic district.

It is staff's opinion that the design proposes renovations to a non-contributing, non-historic building that are consistent with the guidelines regarding alterations, additions, and new construction.

Parcel Sales History

NOTE: Sales do not generally show up in our computer system until about two to three months after the date of sale. If a recent sale does not show up in this list, please allow more time for the sale record to be processed.

Thank you for your patience and understanding.
