

Staff Report for Item 6

To: Chairman Michael Miller and Historic Architectural

Review Commission Members

From: Enid Torregrosa

Historic Preservation Planner

Meeting Date: March 24, 2015

Applicant: Barry Barroso

Application Number: H15-01-0141

Address: #1021 Washington Street

Description of Work:

Relocation of contributing house and one story frame structure.

Site Facts:

The main house located at #1021 Washington Street is listed as a contributing resource to the historic district. The house was originally built circa 1926 and the Sanborn maps are clear evidence of how the house floorplan had changed historically. The house was built by Mrs. Shirley Wood's father, 14 term Florida Representative Bernie C. Papy. The house sits on a corner lot, between Washington and Whalton Streets, and is a unique example of a bungalow house located on a spacious lot. The house and the garage were one of the first structures built in the urban lot. The lot has the main house, a historic ancillary structure and a three car garage. None of the three structures located within the lot are individually listed in the National Register of Historic Places. The city has allocated one unit for lot 2 on the parcel. The lot is under contract for sale with the contingency of the relocation of the main house and the ancillary structure, as expressed by the applicant.

Ordinance Cited in Review:

Sections 102-251 and 102-252 of the Land Development Regulations.

Staff Analysis

The Certificate of Appropriateness proposes the relocation of two structures, the main house and an ancillary structure, in the same lot. The main house will be moved approximately 25'-7" southwesterly and approximately 10" southeast from its actual location. The applicant has stated that the new footers will have the same height and design as existing ones and the orientation of the historic house will be retained.

The request also includes the relocation of an ancillary structure that is located behind the main house on its north east side. Although this particular structure is not depicted in any of the Sanborn maps the circa 1965 photo from the Monroe County Library are clear evidence that said building was there almost 50 years ago. Staff opines that that structure may have been relocated from another lot to this one and later underwent an addition. The structure is not listed in the surveys as a contributing resource. This specific structure will be re-oriented and relocated behind the main house.

Consistency with Ordinances for Relocation

The current Ordinance for relocation of historic buildings or structures in the historic districts is directed more towards the removal of a historic structure from its original lot rather than relocating the building on the same parcel. That said there are several requirements in the Ordinance that can be applied to the request including orientation, setbacks and compatibility of new foundations.

- 1. For the main house the applicant has demonstrated that the orientation will be kept and that the front yard, which is an important urban feature for this particular structure, will be reduced just 10 inches. Although there are no foundation plans submitted the applicant has stated that the height and proposed materials will be compatible with the existing.
- 2. For the ancillary structure relocation the actual orientation of the structure will be change, but new foundations will be compatible with existing ones. An argument that the specific structure is not principal to the site nor it is a significant character defining structure to the historic streetscape can be considered while rendering a determination of the appropriateness of this specific relocation.

It is staff's opinion that the proposed relocation of the main house meets the Ordinance for relocation. For the proposed ancillary building relocation staff opines that, although the orientation will be changed, it will not have an adverse effect in the historic urban context.

Re: HARC application guidelines and criteria 102-252.

- 1. The relocation of this home will be similar in terms of height, materials, setback and details.
- 2. The historic relationship between home and streetscape will be maintained.
- 3. All documentation of the home is provided.
- 4. The relocated home will be placed so that the principal façade and front of the home is compatible to a "as Is' condition.
- 5. The new foundation design will be compatible with the original historical foundation. The foundation will be at approximately the same height and with white stucco to resemble lime stone.
- 6. The home relocation is within the historic district.
- 7. The relocating of this home will be compatible to the old materials, height, setback and design. After relocation the front porch and walkway will be restored to a "as is" condition.
- 8. There will be no destruction of significant features.
- 9. Home will be relocated as per HARC guidelines. Same foot print.
- 10. Home will be placed on new foundation. The foundation blocks will be compatible with original foundation.

Best regards,

Bf. Barrow

Barry Barroso

To: Kelly Perkins

Subject: 1021 Washington Street--Request Delay of Public Hearing

Categories: HARC

To Kelly Perkins, Key West HARC Planner

I hereby request a delay until June or July in the Public Hearing called to consider the matter of relocating the above referenced contributing house and a historic frame structure onto one lot and new piers for buildings.

As it now stands, this Public Meeting is scheduled at 5:30 p.m., March 24, 2015, at Old City Hall, 510 Greene Street. For various reasons, the neighborhood residents--caught by surprise with all this news--need more time to fully discuss and digest this rather complicated and serious matter. Also, some neighborhood residents will be out of town for a couple months, and others are on vacation or in town only intermittently.

Please present this request to the HARC Commission members for approval. Your consideration of this request is greatly appreciated.

Sincerely,

Charles B. Hoffman 1420 Whalton Street Key West, FI 33040

(305) 295-3468

Subject: 1021 Washington Street--Amendment to Request for Hearing Delay

To Kelly Perkins--Key West HARC Planner

Regarding the Public Hearing scheduled for March 24th on the above referenced property, I submit this additional reason to the HARC Commission members for my request for a Hearing delay until June or July:

The neighborhood residents do not have sufficient time to examine the detailed site plan--which so far none of them have even seen--and therefore know exactly what the developer wants to do with the property. Are such plans yet in your possession?

Please submit this amendment to the HARC Commission members, along with my original request for a Hearing Delay.

Again, your consideration of this request for a Hearing delay is greatly appreciated.

Sincerely,

Charles B. Hoffman 1420 Whalton Street Key West, FI 33040

To:Kelly PerkinsCc:Carlene SmithSubject:1021Washington St.

To Kelly Perkins HARC

and Carlene Smith Planner

I have reviewed the HARC application for Certificate of Appropriateness for the relocation of residence at 1021 Washington St. There is a site plan showing the existing location and then proposed relocation indicated in "red dotted lines"

While the application discusses the details of the "relocation" of the "Existing Frame Residence" it fails to address the "Existing Frame Structure" which is at the rear of the property, relocation. It also is indicated in "red dotted lines"

Why is there a request for relocating an historical and unique residence?

The application and the SITE PLAN SUBMITTED, fail to accurately depict the ENROACHMENT of "Existing Frame Garage" on to lot 17 and 18. And any proposed relief and water containment.

Why is there no overview or site plan of proposed development of Entire parcel.

It is my hope that this commission will forego a "piecemeal" approach to the development of this historical property. I am the owner of lot 17 and 18 and have lived at 1016 South Street for the major part of my life. I became the owner when my father Ygnacio Carbonell passed some 19 years ago. This is a one of a kind property in the Casa Marina neighborhood and I have a vested interest in preserving the neighborhood and the uniqueness of my home in Key West.

Sincerely, Paula J. Carbonell

The Historic Architectural Review Commission will hold a public hearing <u>at 5:30 p.m., March 24, 2015 at Old City</u> <u>Hall, 510 Greene Street</u>, Key West, Florida. The purpose of the hearing will be to consider a request for:

RELOCATION OF CONTRIBUTING HOUSE AND A HISTORIC FRAME STRUCTURE ONTO ONE LOT AND NEW PIERS FOR BUILDINGS.

FOR- #1021 WASHINGTON STREET

Applicant – Barry Barroso

Application # H15-01-0141
