

**Historic Architectural Review Commission
Staff Report for Item 2**

To: Chairman Michael Miller and Historic Architectural Review Commission Members

From: Enid Torregrosa- Silva, MSHP
Historic Preservation Planner

Meeting Date: April 28, 2015

Applicant: Julie Cruchet

Application Number: H15-01-0184

Address: #300 Front Street Unit 3

Description of Work:

Application for a floor sign.

Site Facts:

The building located at #300 Front Street is not listed in the surveys. The structure was renovated two years ago. The business itself is not located on a corner therefore the business can have just two signs. The building exhibits more than 2 signs, without including the sign in question.

Guidelines and Ordinance Cited in Review:

- First two paragraphs of Signage guidelines (page 49) as well as guideline 6.
- Ordinance 114-104 Restriction of number of signs of the Land Development Regulations.

Staff Analysis

In March 24 the Commission reviewed the after the fact Certificate of Appropriateness for the floor sign. A motion to postpone the item was made in order to the applicant discuss with staff on alternatives. The applicant submitted a revised design without meeting with

staff. After staff review we expressed to the applicant that the new design is a sign since the colors and the palms are still a representation of her brand. The previous tenants installed their brand name as part of the tile work, without any Certificate of Appropriateness approval. The proposed sign extends beyond the actual non-approved Mattheessen's floor sign. Actual tiles and Mattheessen's floor are not historic.

The sign is a circle 42" in diameter with a colorful graphic depicting two set of palms. The business at this point has more than 5 signs; the only approved signs are the hanging sign and the awning sign.

Consistency with Ordinances for Relocation

The current guidelines for signage do not cover any specifics on floor signage; still a sign is a sign. Nevertheless the sign is large and sticks out due to its design. Since the floor sign is an after the fact installation it has been covered with a rug.

It is staff's opinion that the proposed floor sign and the number of existing signs fails both the guidelines and the Ordinance that regulates number of permitted signs. Staff also opines that the size and design of the sign is not complimentary to the urban context and it is excessive to the entry area of which it will be located. Staff opines that the existing non-historic tiles can be removed and replaced since they were installed in the past 6 years. If that is not feasible the installation of a vinyl with a similar color of the tile over the existing non-approved Mattheessen's sign, will be another appropriate way to comply with the guidelines. Again, at this point this business has window signs that were never approved; by approving this design the Commission will be allowing a third sign to a business that can only have two signs by the current Ordinance.

Dear Enid,

I would like to submit the new decal that I sent you to the commission, next tuesday April 28th, in respect of what the commission required at the last meeting.

Unfortunately I can not be there myself because I will be out of town. I authorize Mr Scott McCollum, from Key West sign Company, to represent me.

Please, could you confirm to me that you received this email.

Best regards
Julie Cruchet

Dear Julie:

Good morning! After reviewing what you submitted and conferred with the HARC Legal advisor we both understand that you are still proposing a sign; the colors and design proposed are part of your "brand" which is also depicted on your two approved signs.

I still believe that you are exceeding the number of allowed signs, which is only 2, and also opine that what you are proposing is too big. The existing Mattheessen never approved floor sign can be covered over with the same material that you are using, with the same tile color without been counting as a sign. Also the existing tiles can be found since the building was remodeled in

the past 5 years. Gary the Carpenter was de contractor of the project. I will be including the item in the April 28 HARC Agenda since I consider the new design a sign.

Please let me know if you like to change the design or move forward with the recent submitted design.

Hope you are doing well.

Subject: Floor decal proof

Dear madam,

Please find enclosed the new design of the floor decal to hide the mattheessen's sign.

Let me know the process I have to follow, I am a little confuse after the commission.

Best regards

Julie Cruchet
