

Staff Report for Item 2

То:	Chairman Bryan Green and Historic Architectural Review Commission Members
From:	Kelly Perkins, MHP HARC Assistant Planner
Meeting Date:	June 23, 2015
Applicant:	Gary the Carpenter/Artibus Designs
Application Number:	H15-01-0411
Address:	#1205 Von Phister Street

Description of Work:

New elevated side addition to non-contributing building. New covered patio.

Site Facts:

1205 Von Phister is a two-story, concrete block structure that first appears on the 1948 Sanborn Map. It is listed as non-contributing to the district, but it is historic. It is located on the edge of the historic district. The house is modern in style. Unfortunately, staff was unable to find any historic photographs of this structure. This project came before HARC in April for an elevated addition which was postponed by the Commission.

Guidelines Cited in Review:

Additions and Alterations (pages 36-7), specifically guidelines 1 through 8.

Decks, Patios, Hot Tubs, and Pools (pages 39-40), specifically guidelines 1, 2, and 3.

Staff Analysis

The Certificate of Appropriateness proposes a side one-story addition that will serve as a playroom that will be on the south elevation of the house. The location of this addition will be highly visible, as that part of the site is the most visible from the public right-of-way. The applicant is proposing to utilize the same materials that were used for the other addition: fiber cement siding and

aluminum impact windows. The height of the new addition will be approximately 18 feet tall. This addition will be set back five feet from the main house.

The application also proposes a covered patio on the other side of the house. This platform will be larger in footprint than the other one-story addition, but it will be shorter, around 16 feet tall.

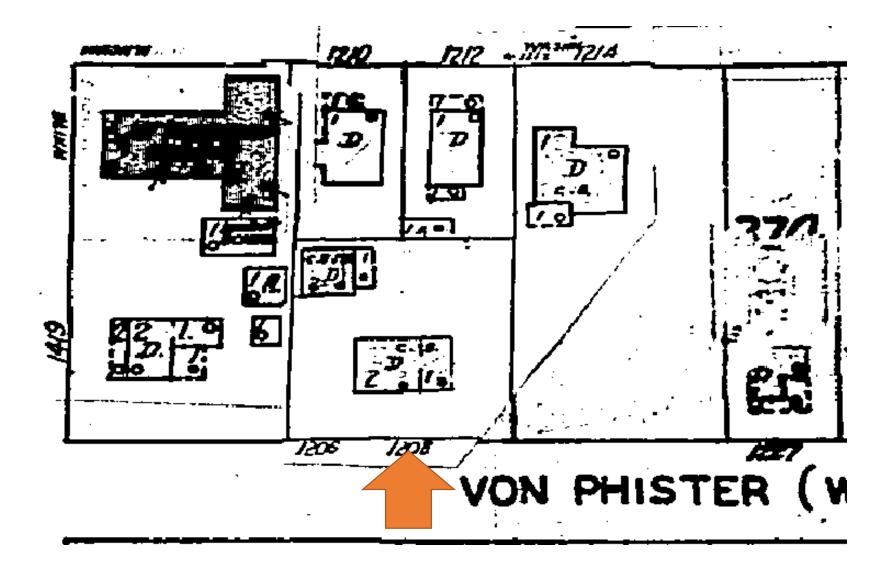

There are two protected trees where the addition is going, and the Urban Forestry Manager will need to be consulted before any construction begins.

Consistency with Guidelines

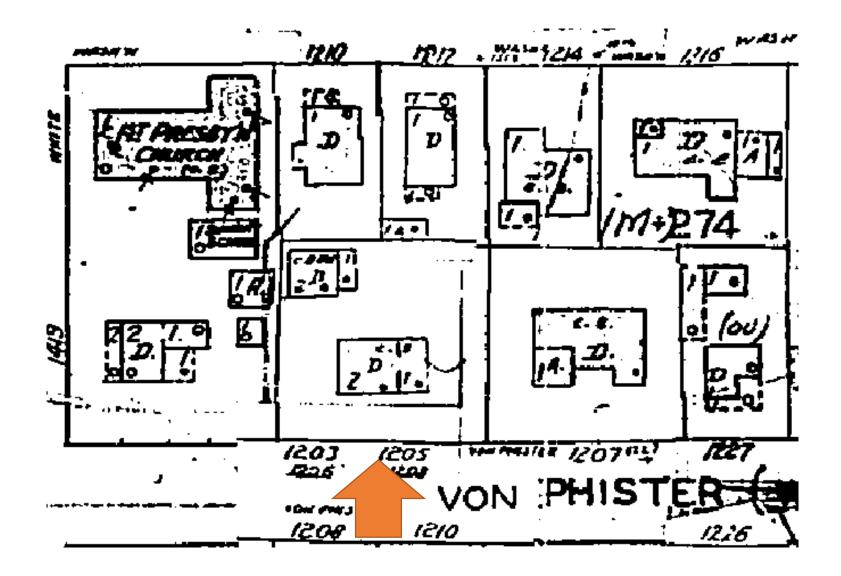

- 1. Additions should be attached to less publicly visible secondary elevations of a historic structure. The two proposed additions are on each side of the house and will be visible. The playroom addition that is on the more publicly visible side will be set back approximately five feet from the main house.
- 2. The new addition will use different materials, so it will be clearly differentiated from the historic house.
- 3. As the structure is non-contributing, alterations may be reviewed more liberally.
- 4. Best efforts should be made to ensure that decks and patios are not visible from the elevation right-of-way.

The revised plans take into account the comments made at the April HARC meeting. While the proposed additions will still be visible, they will not be elevated. The two additions will create more of a balanced look, but both additions would be more appropriate to be set behind the house rather than to its side. The revised drawings are more consistent with the guidelines in regards to additions and alterations.
