Subject: code case #15 1641 1400 Alberta Street B

Good afternoon,

I issued a stop work order at 1400 alberta street unit B for repairing/resurfacing the pool without a building permit. I observed the tiles were being removed along with grinding on the pool walls and bottom. I phoned the property manager for access. I was allowed into the pool area by the workers. Permit #15-5041 is in plan check. Advised Chris Wardlow of Wardlow Building Group by phone of the activities and the stop work order.
