

Staff Report for Item 6

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins, MHP
HARC Assistant Planner

Meeting Date: February 23, 2016

Applicant: A2O Architecture

Application Number: H16-01-0007

Address: #1105 Washington Street

Description of Work:

Demolition of historic, non-contributing cbs structure.

Site Facts:

The house at 1105 Washington is not a contributing resource, but it is historic as it first appears on the 1962 Sanborn map. The one-story house is a typical low style, 1950s house. The house has been altered over time, with a change in windows and doors and a change in columns for the overhang on the front of the house.

Ordinance Cited in Review:

Sec. 102-218 (a): Criteria for demolition of a historic or contributing building.

Staff Analysis

This Certificate of Appropriateness in review is for the second reading for demolition of a historic, but non-contributing house. The structure was first approved for demolition at the January 26, 2016 meeting. Built sometime between 1948 and 1962, the one-story cbs structure with a flat overhang has been altered over the years, with its original windows, doors, and columns removed. The house was not built with a strong architectural style with character defining features.

Staff feels that the structure does not meet the following criteria stated in Sec.102-218(a):

- (1) The building does not embody distinctive characteristics and are not significant and distinguished entity. Staff feels that their components lack individual distinction.
- (2) The house is not specifically associated with events that have made a significant contribution to local, state, or national history;
- (3) The structure has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;
- (4) The house to be demolished is not the site of a historic event with a significant effect upon society;
- (5) The structure does not exemplify the cultural, political, economic, social, or historic heritage of the city;
- (6) The building does not portray the environment in an era of history characterized by a distinctive architectural style. After the features such as windows, doors, and columns were changed, the house does not portray any specific architectural style any longer.
- (7) The house is not related to a square, park, or other distinctive area.
- (8) The structure does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and
- (9) The building has not yielded, and are not likely to yield, information important in history.

This reading will be the final review for this request.
