

RESOLUTION NO. 14-348

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF KEY WEST, FLORIDA, ACCEPTING THE PROPOSAL OF BURKE CONSTRUCTION GROUP, INC. FOR CONSTRUCTION OF THE NEW KEY WEST CITY HALL AT GLYNN ARCHER, IN ACCORDANCE WITH THE TERMS SPECIFIED IN RFP 001-15, WITH A BASE BID AMOUNT NOT TO EXCEED \$14,997,500.00; AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT IN ACCORDANCE WITH THE SOLICITATION DOCUMENTS; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, on October 22, 2014 three proposals were opened in response to RFP #001-15, for construction of the new Key West City Hall at Glynn Archer, and the proposals were determined to be fully responsive; and

WHEREAS, ranking committee members submitted ranking scores of each quality packet to the City Clerk in sealed envelopes, which were opened and tabulated, along with pricing packets, at a properly noticed meeting conducted consistent with the "Sunshine Law," on October 30, 2014, to rank the respondents to the RFP; and

WHEREAS, at a regular meeting on November 18, 2014, the City Commission reviewed the criteria of the RFP and determined that the proposal from Burke Construction Group, Inc. was the highest ranked.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION
OF THE CITY OF KEY WEST, FLORIDA, AS FOLLOWS:

Section 1: That the City Commission reviewed the proposals in accordance with the solicitation criteria and determined the attached proposal of Burke Construction Group, Inc. to be the highest ranked respondent for construction of the new Key West City Hall at Glynn Archer in accordance with the terms specified in RFP #001-15 with a base bid amount not to exceed \$14,997,500.00.

Section 2: That the City Manager or his designee is authorized and directed to execute a contract in accordance with the solicitation documents.

Section 3: That this Resolution shall go into effect immediately upon its passage and adoption and authentication by the signature of the Presiding Officer and the Clerk of the Commission.

Passed and adopted by the City Commission at a meeting held this 18 day of November, 2014.

Authenticated by the Presiding Officer and Clerk of
the Commission on 13 day of January, 2014.

Subject: Approval to Declare Biltmore Construction the Successful Proposer for the Construction of the New City Hall at Glynn Archer School

Action Statement

Resolution approving Biltmore Construction the successful Proposer for the construction of New City Hall at Glynn Archer School. The City Manager is directed to negotiate a contract with the firm selected by the Commission for subsequent consideration.

Background

The 90% Construction Documents for New City Hall at Glynn Archer School were completed May 28, 2014. An updated project estimate based on those drawings was received on August 8, 2014. This estimate reported the project as exceeding the total budget by approximately \$1,800,000.

Prior to issuance of the Request for Proposal (RFP), staff and the design team spent a significant amount of time reviewing the documents and estimate for potential cost savings. The final estimate based on identified revisions showed the project approximately \$150,000 under the total project budget. Based on this estimate, RFP #001-15 was issued on September 1, 2014. As an RFP, the recommended contractor selection was to be based on a scoring system of qualifications (60%) and cost (40%).

Key to the Caribbean - Average yearly temperature 77° F.

MEMORANDUM

Three proposals, each consisting of a "quality packet" and "pricing packet", were received by the City Clerk on October 22, 2014. Quality packets were immediately issued to members of the ranking committee. The members of that committee were: Mike Vieux, Senior Construction Manager, Chair; Bert Bender, Project Architect; Don Craig, Director of Planning; and Jim Bouquet, Director of Engineering. The members reviewed the quality packets separately scored them without discussion among themselves. Individual scores were submitted to the City Clerk in sealed envelopes. Envelopes were opened by a Deputy City Clerk at a public meeting on October 30, 2014. Below is a table showing the results of the total combined score for each Proposer, averaged between the four evaluators.

Rank	Bidder			Scoring			Base Bid Price
				Quality	Price	Total	
1	Biltmore Construction			561	394	955	\$15,236,557.00
2	D.L. Porter Construcion			448	390	838	\$15,400,000.00
3	Burke Construction Group, Inc.			400	400	800	\$14,997,500.00

A complete tabulation of pricing and qualifications of all proposers is attached.

Purpose and Justification

The purpose of this project is to provide a long-term, state of the art facility to serve the Key West community as a new City Hall.

The improvement of infrastructure is critical to meeting the current and future needs of the City. This project is in accordance with the City of Key West's Strategic Goal #5, *All of the City's Destinations and Resources Are Accessible to Residents and Visitors*.

Options

1. Based on evaluation and scoring of the three received proposals, City Staff recommends the selection of Biltmore Construction as the Contractor of Record. Biltmore Construction was scored as the most qualified proposer, based on the quality and depth of their experience while providing a competitive cost. Biltmore Construction's proposed cost was approximately 1.6% higher (\$239,057) than the low bidder. Staff intends to discuss value engineering options and determine whether deductive change orders may be possible that do not diminish the quality of the project.
2. The City Commission may select one of the remaining proposers as the Contractor of Record and direct staff to determine whether deductive change orders may be possible that do not diminish the quality of the project.
3. The City Commission may chose not to select a Contractor of Record.

Financial Issues

Staff to discuss value engineering options and negotiate for selective cost savings with the selected Vendor. Once a negotiated price is established, Staff will return to the Commission at a later date for approval of the negotiated project construction cost and any necessary fund transfers into project funding source (Capital Projects Fund Account # 303-1900-519-6200).

Anticipated value engineering related items currently identified to be discussed/evaluated by the project team include, but are not limited to:

- Builder's Risk wind insurance
- Counter-top materials
- Elimination of exterior architectural stairways
- Window materials
- Cistern coating and irrigation system design
- Auditorium seating
- Reducing the number of video conferencing locations
- Furnishings
- Lighting
- Bathroom finishes

Recommendation

Accept Biltmore Construction as the Contractor of Record. Authorize the City Manager and staff to determine whether deductive change orders may be possible that do not diminish the quality of the project.

RE: RFP No. 001-015
KEY WEST CITY HALL AT GLYNN ARCHER
PHASE 2 – NEW CONSTRUCTION AND MAJOR RENOVATION

Dear City Clerk:

The purpose of this letter is to voice our concerns over the recent RFP No.001-015 referenced above. Our firm is one of three (3) firms whom tendered a bid proposal; in fact, our firm was the lowest bidder of the three bids proffered by the sum of \$239,000.00.

All three firms are more than qualified and capable of performing this project, so our concern does not stem from a question of qualifications, but the bias perspective of the selection committee in awarding points for each qualification item is what we find to be highly questionable.

Our firm was the only firm to attend the Selection Committee evaluation meeting held on October 30th, 2014 where the selection committee members read the scores each member assigned for each of the proposers. The highest score possible was 600 in total and 100 for any individual category. To our shock and disbelief our firm went from being the lowest bidder to being ranked third (3rd) by the selection committee after appropriating the points for each category. Attached is a summary of the scores assigned to each firm by each of the committee members. You will notice that there is a very wide discrepancy between the committee members in scoring my firm. Although the scores vary greatly the materials provided that is being reviewed by each member does not vary, it is the exact same materials, and it does not change. Hence, even more reason to raise our suspicions regarding the bias in scoring.

Our dismay stems from several points of interest:

- (i) Our bid saves the City close to a quarter of a million dollars;
- (ii) Our firm maintains an office in Key west;
- (iii) Our firm utilizes and listed all local subcontractors for executing the project, we are well known for supporting the local business community on our projects;
- (iv) Our firm completed a very difficult restoration to a six story office building in which we cladded the beams and columns with carbon-fiber to reinforce the structure, which is also a requirement on this project.

Another point of interest that we believe lead to a very bias scoring is the fact that the bidder whom the committee ranked the highest and is recommending award had the advantage of working with the design professionals and the City on this project for well over a year. They provided the original detailed cost budgets and had the advantage of studying the project information first-hand a year in advance of the official bid.

Additionally, due to the fact that all of the bidders' proposals exceed the desire targeted budget, the committee members did not consider any of the additive alternates. The committee members did take into consideration the Base Bids and Alternate No. 7 which is a deductive alternate.

Furthermore, we have numerous concerns as it relates to members of the selection committee. The only member who did not to attend the October 30th meeting was Don Craig. We learned at the meeting that Mr. Craig has resigned and is leaving his position with the City. Unfortunately Mr. Craig issued the lowest score to our firm. What is difficult to comprehend is why Mr. Craig is part of the selection committee and his low score is very suspect to us. In addition, the architect Mr. Bender was also part of the selection committee. This is highly unusual due to the fact that Mr. Bender is in direct relationship with Biltmore Construction and has worked closely with them for over a year on this project. Not only is this a conflict of interest for Mr. Bender, it has also gave Biltmore a major advantage over the competition.

In addition, at the selection committee hearing, Mr. Bender stated that we were at a disadvantage because he did not know us personally and that he had worked closely with Biltmore and the other bidder DL Porter. He further stated that because of that we were scored lower.

The final major concern that we have with this process, is that not a single committee member called any of our references. As Mr. Bender clearly stated at the meeting, he had worked with the other firms and had a personal relationship with them that he did not have with us. Had he or any other committee member been diligent and not biased, with just a few phone calls they could have been enlightened to the fact that over the last 15 years my partner and I have completed double the amount of municipal projects than the other two firms combined.

To that end, I would like to offer you the following information by category, each was worth 100 points and see if your conclusion is the same as ours:

a. Successful completion of projects of similar size and complexity: 100pts:

We have completed over \$2 billion worth of projects, 18 schools, ranging from \$11 to 50 Million, 5 courthouses including Freeman Justice Center in Key West, 3 City halls, Parrot Jungle Island, Nevatim Air Force Base in Israel just to name a few.

b. Successful completion of sizeable LEED-certified projects, including providing all documentation for certification: 100 pts.

We just finished 6 months ago the new Stock Island Fire Station which is the first green building in Monroe County which features the same cisterns as the new city hall, we also completed last year the Camp Blanding Live Fire shoot house for the US Military which was a LEED Silver Certified project.

CITY ATTORNEY
RFP NO. 001-015

PAGE 3 OF 4

c. Experience in and knowledge of the labor and materials markets of the Florida Keys. 100pts.

I was born and raised in Key West, a fourth generation conch and my family has been doing business in Key West since 1903. We have a local office on Flagler with one of the best managers Buddy Montgomery who was born and raised in Key West, we completed two successful projects this year in Key West, the Stock Island Fire Station and Nelson English/Willie Ward park. In addition we built the Freeman Justice Center in Key West and the Little Venice Water Treatment Plant in Marathon. None of the bidders have more local history and knowledge than myself.

d. Successful completion of similarly-sized historic restoration projects: 100 pts.

We built the new Parrot Jungle on Watson Island which was one of the most complicated historic projects built in Florida. Nearly \$40 million in size and included the moving, storage and restoration of the historic Japanese gardens to an island that we built on an eco-sensitive strip of coastline. In addition, we just completed the restoration of the historic Thalatta Mansion in the Village of Palmetto Bay which had repurposed wood similar to the City Hall project.

e. Successful experience with reinforcing of existing concrete structures, especially in the use of carbon fiber reinforcing: 100 pts.

We have completed millions of square feet of reinforced concrete structures and are a leading expert in tilt-wall construction. Top 5 in the state of Florida for most Tilt-wall projects completed, which all use reinforced concrete. In addition we just completed the carbon fiber reinforcement of a 6 story building in Hollywood Florida and submitted a recommendation letter from one of Florida's leading carbon fiber engineering firms

f. Successful experience with municipal government projects of similar size: 100pts.

I submitted with my package just a partial sample of municipal projects that we have completed in just the last 10 years. There were 20 projects that totaled over \$360M and averaged over \$18M per project. Eleven of the projects were larger than the City Hall project. I have attached that list for your convenience.

After reviewing just these shortened answers to the qualifications, you tell me whether or not a score of 225 and 390 out of 600 is a fair and balanced assessment of our qualifications.

I want to reiterate our concern as to the appearance of impropriety as it relates to this bid process and the selection process. The architect (Bender & Associates) working with the City staff, selected a firm (Biltmore Construction) in which they hired to review the project and prepare a budget. This process, to my knowledge has gone on for a few years. Working together, Biltmore & Bender, designed the project, developed the budget and created the bid criteria and process. This is a normal occurrence except that it created a major conflict of interest to then allow not only Biltmore to bid the project but further allowed Bender to be one of four members of the final selection committee.

Despite those facts and that conflict of interest, we were still able to submit the lowest bid for the project. At the end of the day, all 3 firms are qualified to do this project but we submitted the lowest bid. We have the

qualifications, the bonding capacity, the experience, the local office and most importantly the lowest bid. There is no logical reason that our firm should not have received the unanimous support of both the City and the selection committee.

Thank you for taking the time to review our concerns and I look forward to hearing from you regarding this matter.

Kind regards,

Subject: the right thing to do

I think the value of the vacant land not used for the new City Hall on Simmington St. vs the cost for the reconstructed City Hall on White St. needs to be considered when looking at the costs of the reconstruction on White St.

The vacant land on Simmington St. still owned by the City after the new City Hall is complete on White St. has tremendous value due to its location and size. It could be sold as an asset to offset costs on White St, although I would not recommend that.

This asset would not have existed if the City Hall was built on the Simmington St. site. The Simmington St. land value needs to be recognized as an asset when discussing the cost on White St. as it would not exist if the City Hall was built on Simmington St.

The preservation of the old high school as the new City Hall is the right thing to do even if it cost some more. It is a wonderful historic building in the right location, very central to the residents of the City. It has the right building and land size with good parking. It has a nice, large auditorium for meetings so we do not have to pay rental for Old City Hall meetings (unless the City has some obligation to do so). It will spur economic activity on that end of White St. as an anchor tenant does in a shopping center by bringing more people to the area. It creates more civic pride for our City as it is a structure we are all proud of due to its history and image.

And we still have the vacant property on White St. which is worth a lot more than the recent added cost of preservation.
