ZEBRA

ZQ500 SERIES MOBILE PRINTERS
Extreme environments and bangs and bumps are no match for these lightweight, compact printers. Zebra's ZQ510™ and ZQ520™ printers are the most rugged printers available. They perform in the widest operating temperature range in the industry and can withstand repeated drops to concrete from up to 6.6 feet. Water spray is no match with their IP54 rating. Featuring Zebra's Link-OS® environment, these premium printers are easy to integrate, manage and maintain. With large buttons and a user-friendly interface, they are easy to operate, even when wearing gloves.

RUGGED DESIGN

The ZQ500 printers are lightweight, yet engineered to handle the bumps, drops and collisions that are part of the job. The printers feature a patented military design that meets third-party-verified MIL-STD 810g military standards for shock, vibration and temperature exposure. The printers can withstand repeated drops to concrete from 6.6' on multiple sides.
ENVIRONMENTAL ENDURANCE

Zebra not only protects your hardware, but also your operational uptime. The ZQ500 printers meet IP54-rating for resistance to dust and liquids that are common in mobile environments—from dirt in the field to crumbs in a service vehicle. And with cold temperature compensation, the ZQ500 Series automatically optimizes and balances print speed and print quality in cold temperatures.

OPTIMIZED PRINTING POWER

The ZQ500 printers are Zebra's first products to support a secondary Bluetooth communication channel, an innovative feature that allows one channel

to send print jobs to the printer while a second channel performs additional functions such as device management. The ZQ500 printers also feature "draft mode" which optimizes the printing speed (up to 5 inches per minute) for text-only printing.
