

Staff Report for Item 8

To: Chairman Bryan Green and Historic Architectural Review

Commission Members

From: Kelly Perkins

HARC Assistant Planner

Meeting Date: May 24, 2016

Applicant: William Shepler

Application Number: H16-03-0029

Address: #715 Frances Street

Description of Work:

New one-story wood frame accessory structure.

Site Facts:

#715 Frances Street is listed as a contributing resource in the survey and first appears on the 1899 Sanborn map. The eyebrow house is one and half stories with a one story addition on the rear. After 1962, a side rear addition was added. This property came in front of the HARC Commission last year to construct a new rear patio roof, side addition, and deck extension. The project was approved.

After this item was postponed at the previous meeting, the Planning Department has re-reviewed the application again and has deemed it to have no planning issues.

Guidelines Cited in Review:

Additions and Alterations/New Construction (pages 36-38a), specifically guidelines for new construction

Staff Analysis

This Certificate of Appropriateness proposes the construction of a new one-story accessory structure in the rear yard. The structure will be 15 feet, 10 inches tall – a similar height to the one story rear addition. The structure will also have a similar massing as the one-story addition. The new structure will have a v-crimp roof, wood siding, and aluminum impact windows and doors.

Consistency with the Guidelines

| This project alters no historic fabric. Staff feels the structure will have no adverse impact on the neighborhood and the historic district and has an appropriate height, scale, and massing. Therefore, the project is consistent with the guidelines regarding new construction. |

To: 'WILLIAM SHEPLER' < will@wshepler.com>

Subject: RE: 715 Frances Street - Accessory Structure

It meets the ordinance definition and requirements for accessory structure and accessory use.

Hope you are well!

Enid

Thanks. I am not sure what that means. My question was whether this project met <u>his</u> interpretation of those requirements. It meets <u>my</u> interpretation, but apparently that's not good enough for Bert. What is your opinion?

Thanks, Will

Enid

I believe we discussed this project. You should inform the Architect and or your Board that the plans needs to at a minimum conform to the requirements of Section 86-9 Definition of Terms .. See "Accessory structure" and "Accessory Use" and ... Division 4 Accessory Uses and Structures Section 122-181 Permitted and restricted uses.

I trust this provides the guidance needed.

Thaddeus

Subject: 715 Frances Street - Accessory Structure

Thaddeus,

It's been awhile- I hope you are doing well. I just wanted to get your determination on the proposed accessory structure for 715 Frances St. This was postponed at the HARC meeting last week to further determine whether the use was compliant.

The proposed use would be a Pool house which would also be used as a guest bedroom for out of town guests from time to time. The owners would also like to have a bathroom in the pool house.

Would this be considered an allowable use for an accessory structure?

Thanks for your help.

Best Regards,

Will
