RE: Administrative Hearing, 1218 Duval Street, Removal of Regulated Trees Without Benefit of a Tree Removal Permit (Sec 110-321.a)

On Saturday, August 14, 2016, I received information that a tree was being cut down. On August 15, 2016, I verified that no permits had been issued to remove any trees on the property. Additional investigation revealed that a White Frangipani tree, greater than 4" diameter and a coconut palm had been removed from the property.

Coconut Palm (removed)

Schefflera tree (remains)

White Frangipani tree (removed)

August 13, 2016

Schefflera tree

Lignum vitae tree

August 17, 2016

Removed tree located in this area

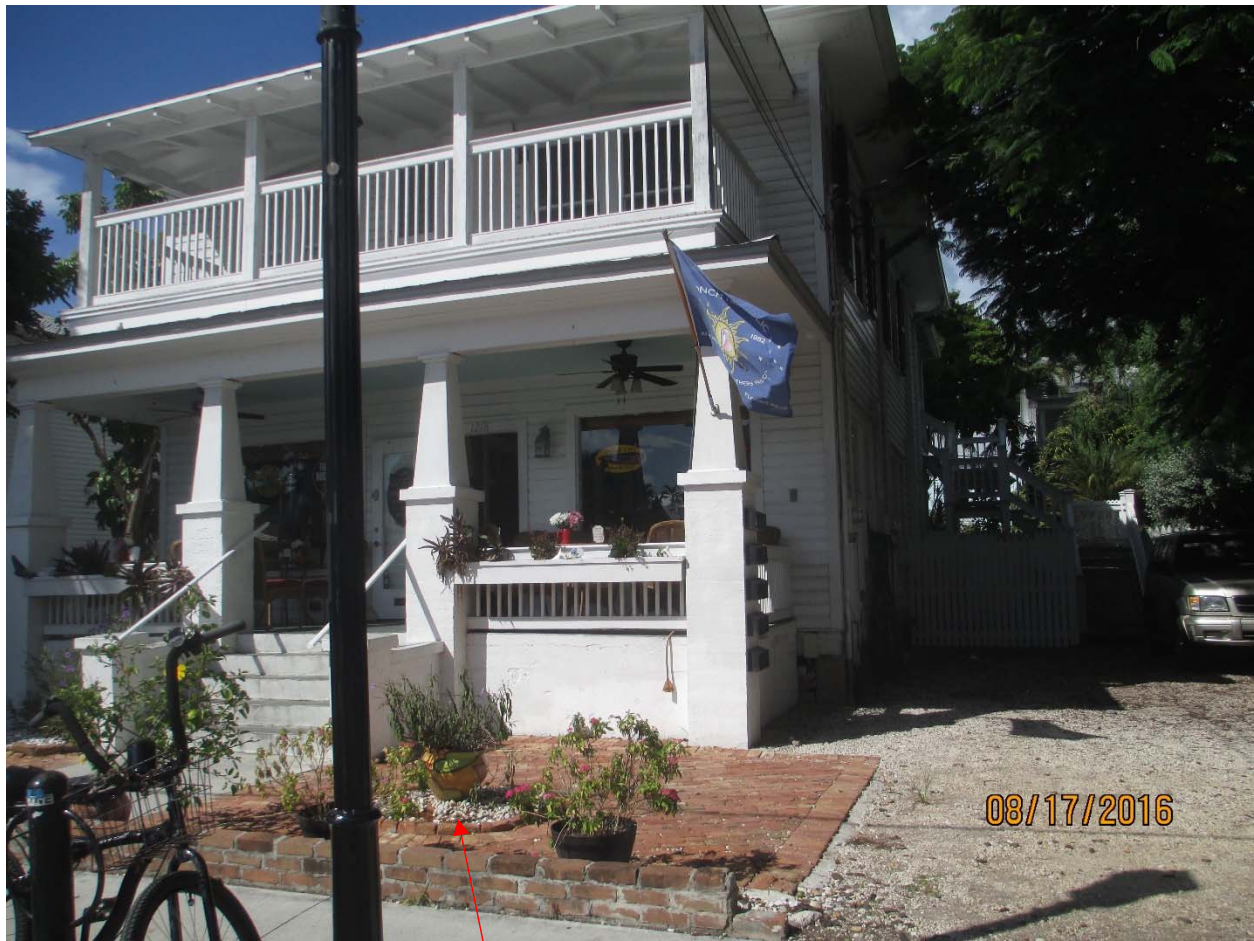

Lignum vitae was damaged during the removal of the white frangipani tree

Width of tree trunk measured at 21" and 20" (not a diameter measurement)

Previous location of Coconut Palm.
