**Subject:** Save our Trees! Our trees are what make Key West so beautiful. These are heritage trees and cannot be replaced. For once, put the good of all of Key West above the personal wishes of the wealthy.

**“I was disappointed to see that as part of the new renovation show featuring Dale Earnhardt, he has requested removing several trees including a giant strangler fig and beautiful Spanish lime trees. I guess his version of being a good neighbor means ruin**

**“I was disappointed to see** that as part of the new renovation show featuring Dale Earnhardt, he has requested removing several trees including a giant strangler fig and a beautiful Spanish lime tree. I guess his version of being a good neighbor means ruining his neighbor’s privacy and views. We will now see if the Tree Commission demonstrates to the world that we are serious about protecting trees or if we are so starstruck we will allow him to cut these down. The world is watching.”

**Subject:** Save our trees!

Our trees, flowers and foliage are what make Key West beautiful. Please do not allow Dale Earnhardt to cut down heirloom trees on his property. It only benefits him and hurts Key West.
