

**Historic Architectural Review Commission
Staff Report for Item 19**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins
HARC Assistant Planner

Meeting Date: June 27, 2017

Applicant: Michael Ingram

Application Number: H17-03-0024

Address: #726 ½ Olivia Street

Description of Work:

New accessory structure. New footings.

Site Facts:

Located at the front of the interior lot at 726 ½ Olivia Street, the one-story structure was recommended in the 2011 Survey (that was not adopted) to be listed as contributing, stating that the building was constructed in 1938. The 1948 and 1962 Sanborn maps do not show any structures in that location on the property. In 1926, there was a small structure with a front porch, but that structure is no longer standing. The current footprint of the building does not match the house that was in the 1926 Sanborn map. The structure that is there does appear in a c.1965 photograph, which makes it historic. The structure appears to have been altered over time with little historic fabric left.

In 2013, a new main structure was built on the property behind the structure that is under review.

Guidelines Cited in Review:

Secretary of the Interior's Standards for Rehabilitation (pages 16-17), specifically Standards 1, 2, 5, 6, 9, and 10.

Guidelines for New Construction (pages 38a-38q), specifically guidelines 1, 2, 11, 12, 13, 14, 18, 22, 23, 24, and 25.

Guidelines for Outbuildings (pages 40-41), specifically guidelines 1, 2, 3, 4, 9, 10, and 11.

Staff Analysis

This Certificate of Appropriateness proposes a new accessory located in the front of an interior lot. The rest of lot contains a building constructed in 2013. There currently is a small, one-story structure where the proposed building is located. That structure has been altered over the years. The new structure will be 17 feet, 6 inches, slightly taller than the existing structure, which is 16 feet tall. It will have a similar footprint to the existing structure, but will comply with land development regulations in regards to setbacks. The structure will have aluminum, 4/4 windows with wood shutters, v-crimp roofing, and hardiboard siding.

Consistency with Guidelines

1. While technically proposed in the front yard (which is inconsistent with the guidelines), this property already had a structure in the front yard.
2. The proposed massing and scale of the new structure is not out of character with the surrounding structures. It will not have an adverse impact on the surrounding historic context and neighborhood.

It is staff's opinion that the proposed design is consistent with the guidelines for new construction and accessory structures.

APPENDIX FOR DEMOLITIONS
APPLICATION NUMBER H-____-____-____-_____

This document applies only to those properties located within the City of Key West Historic Zoning Districts, properties outside the historic zoning districts which are listed as contributing in the Historic Architectural Survey and or properties listed in the National Register of Historic Places.

Applications must meet or exceed the requirements outlined by the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitation and the Key West's Historic Architectural Guidelines. Once submitted, the application shall be reviewed by staff for completeness and scheduled for presentation to the Historic Architectural Review Commission for the next available meeting, unless the demolition request is for a bona fide Code Compliance case, in which case staff may review and approve the demolition request. **The applicant must be present at this meeting. Any person that makes changes to an approved Certificate of Appropriateness must submit a new application with such modifications.**

The filing of this application does not ensure approval as submitted. Applications that do not possess the required submittals or documentation will be considered incomplete and will not be reviewed for approval.

CRITERIA FOR DEMOLITIONS

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);
