**Historic Architectural Review Commission  
Staff Report for Item 8**

**To:** Chairman Bryan Green and Historic Architectural Review  
Commission Members

**From:** Kelly Perkins, MHP  
HARC Assistant Planner

**Meeting Date:** June 27, 2017

**Applicant:** One Call Construction

**Application Number:** 17-1342

**Address:** #913 White Street

---

**Description of Work:**

Demolition of existing front-side concrete fence by hand.

**Site Facts:**

foot tall and a combination of concrete block and aluminum, the fence is non-conforming to current guidelines. The top of the wall has an aluminum "x" design that is not traditional and appears to be a more recent design. The fence does not exist in any historic photos. A large Royal Poinciana tree has caused damage to a solid concrete wall on the front side of the property, leading to its need for replacement.

**Guidelines Cited in Review:**

Sec. 102-217 (2): Demolition of non-historic or non-contributing buildings.

Sec. 102-218 (b): Criteria for demolitions.

**Staff Analysis**

The portion of the wall to be removed has been cracked and damaged by a nearby Royal Poinciana tree. The wall is not historic, and the demolition meets the following criteria:

- (1) The demolition will not diminish the overall historic character of a district or neighborhood;

- (2) Nor will the demolition destroy the historic relationship between buildings or structures and open space.
- (3) This demolition will not affect the front building façade.
- (4) Staff does not believe elements that are proposed to be demolished will qualify as contributing as set forth in Sec. 1021-62(3).

Therefore, this request can be considered for demolition. As the wall is not considered historic, only one reading is required for demolition.
