

STAFF REPORT

DATE: June 26, 2017

RE: **1210 Von Phister Street (permit application # T17-8525)**

FROM: Karen DeMaria, City of Key West Urban Forestry Manager

An application was received requesting the removal of **(1) Mahogany and (1) Shaving Brush tree**. A site inspection was done on June 15 and 22, 2017 and documented the following:

Tree Species: Mahogany (Swietenia mahagoni)

06/15/2017

06/21/2017

Diameter: 21.9"

Location: 40% (foundation issues-roots disrupting water lines, canopy impacting utility lines and electrical feeder lines for two homes)

Species: 100% (on protected tree list)

Condition: 50% (fair, bark is peeling on one trunk indicating a health issue in that trunk)

Total Average Value = 63%

Value x Diameter = 13.7 replacement caliper inches

Tree Species: Shaving Brush (*Pseudobombax* sp.)

06/15/2017

Diameter: 26.7"

Location: 80%

Species: 50% (not on protected or not protected tree list)

Condition: 60% (fair, canopy one sided due to impacts from the canopies of adjacent trees removed next door in 2014, girth of tree has grown 5.7" in three years but no new lower lateral branches have formed)

Total Average Value = 63%

Value x Diameter = 16.8 replacement caliper inches

NOTES: A permit was issued in April 2014 to remove these two trees. Keys Energy at that time verbally recommended removal of the mahogany tree due to interference with the two electrical feeder lines. The permit expired and the homeowner at the time sold the property.

Not enough information is known about the effects of heavy maintenance trimming of the shaving brush tree to balance the canopy. The fact that no new lower branches have grown in 3 years indicates the tree would probably not regenerate any lower branches and the tree will continue to have a heavy top loaded canopy creating a possible safety issue.

Recommendation: Recommend approval of the removal of one (1) Mahogany tree and (1) Shaving Brush tree located at 1210 Von Phister, to be replaced with 30.5 caliper inches of dicot or fruit trees from the approved list, FL#1 to be planted on site.

Additional Information

MEMORANDUM FOR THE FILE

DATE: January 27, 2014

RE: 1210 Von Phister Street (permit application #6720)

FROM: Karen DeMaria, Urban Forestry Manager,
City of Key West

An application was received for the removal of **(3) Mahogany trees and (1) Shaving Brush tree**. A site inspection was done on January 23, 2014 and documented the following:

1. Tree Species: Mahogany (Swietenia mahagoni)

Tree #1

Diameter: 4.4"

Location: 60% (under utility lines, street tree, impacted by coconut palm)

Species: 100% (on protected tree list)

Condition: 60% (fair health overall, poor canopy shape due to competition with other mahogany and coconut palm)

Total Average Value = 73%

Value x Diameter = **3 replacement caliper (dbh) inches**

2. Tree Species: Mahogany (Swietenia mahagoni)

Diameter: 7"

Location: 60% (under utility lines, street tree, impacted by coconut palm)

Species: 100% (on protected tree list)

Condition: 60% (fair health overall, poor canopy shape due to competition with other mahogany and coconut palm)

Total Average Value = 73%

Value x Diameter = **5 replacement caliper (dbh) inches**

3. Tree Species: Mahogany (*Swietenia mahagoni*)

Diameter: 19.7"

Location: 40% (foundation issues, canopy and roof issues, wrong tree, wrong place)

Species: 100% (on protected tree list)

Condition: 50% (fair, canopy structure favors one side, trunk and branch growth wild due to lack of proper maintenance during growth, large branch with health/stress issues)

Total Average Value = 63%

Value x Diameter = **12.4 replacement caliper (dbh) inches**

4. Tree Species: Shaving Brush (*Pseudobombax* sp.)

Diameter: 21"

Location: 80% (no utility line or foundation issues observed, only tall tree in immediate area now)

Species: 50% (not on protected or not protected tree list)

Condition: 60 % (fair, canopy one sided due to impacts from canopies of adjacent trees recently removed next door, some old injuries to trunk)

Total Average Value = 63%

Value x Diameter = **13 replacement caliper (dbh) inches**

Recommendation:

Tree #1 Replacements: 3" (remove-wrong tree, wrong place)

Tree #2 Replacements: 5" (remove-wrong tree, wrong place)

Tree #3 Replacements: 12.4" (remove due to root issues and some condition issues with canopy. Alternative could be to severe maintenance trim canopy to reduce root growth and to improve canopy structural issues.)

Tree #4 Replacements: 13" (remove-one sided. The alternative of trimming to see if tree will branch out does not seem practical and it is not known if it will work for this species.)

Total: 33.4 replacement caliper inches of FL#1 dicot or fruit trees.

Tree Permit Application

Date: April 28, 2017

Please Clearly Print All Information unless indicated otherwise.

Tree Address 1210 Von Phister
Cross/Corner Street White
List Tree Name(s) and Quantity (1) Mahogany (1) Silkfloss
Species Type(s) check all that apply ☐ Palm ☐ Flowering ☐ Fruit ☒ Shade ☐ Unsure

Reason(s) for Application:

- ☒ REMOVE ☒ Tree Health ☒ Safety ☐ Other/Explain below
☐ TRANSPLANT ☐ New Location ☐ Same Property ☐ Other/Explain below
☐ HEAVY MAINTENANCE ☐ Branch Removal ☐ Crown Cleaning/Thinning ☐ Crown Reduction

Additional Information and Explanation Mahogany tree is lifting the foundation and is too large for the location. Keys Energy wants it removed. Silkfloss is one-sided with no where to cut back to and in danger of windshear.
