ACTION STATEMENT

As an item for discussion the NEA grant timeline will indicate to the AIPP Board what activities are to take place under the grant and on what schedule.

BACKGROUND

An extension from the NEA was requested because funds were awarded prior to the completion of the collaborating project, TWFP.

PURPOSE & JUSTIFICATION

A timeline will allow the AIPP Advisory Board and the associated grant partners to better understand the expectations in a chronological fashion, and set a pace for which the deliverable can be achieved.

RECOMMENDATION

The Board should make any necessary recommendations to improve the efficacy of the NEA grant project.

FINANCIAL IMPACT

The timeline to complete the tasks associated with the NEA grant will support the effective use of the matching and awarded funds, a combined total of \$150,000.
