Diameter: 58.2"

Location: 80% (back yard tree)

Species: 100% (on protected tree list)

Condition: 40% (poor, recent maintenance trimming permit removed trunk section with termites, dead branch areas throughout canopy, poor lower structure)

Total Average Value = 73%

Value x Diameter = 42.4 replacement caliper inches

Active evidence of subterranean termites was not observed at time of inspection.

A permit was issued on May 25, 2017 (T17-8496) for heavy maintenance trimming of the tree to remove a large trunk that had termites. Below are photos taken for that heavy maintenance trimming application prior to issuance of the permit.
