GETAC V110

[FEATURES](#) [ACCESSORIES](#) [TECH SPECS](#) [GET A QUOTE](#)

EVEN FASTER. MORE SECURE. AS THIN AND VERSATILE AS EVER!

The Getac V110 fully rugged convertible notebook is the best convertible we've ever made: It features best-in-class performance, industry-leading security, a large 11.6" widescreen display and a design that is as thin and light as ever – at 4.36 lbs. light and 1.26" thin.

[GET A QUOTE.](#)

Uncompromised Performance.

The V110 is built to perform, featuring a powerful 6th generation Intel® Core™ processor, flash storage and responsive graphics. It's the fastest rugged convertible we've ever built.

6th Gen Intel® Core™ i7.

The V110 can be configured with either the latest Intel® Skylake Core™ i5 or i7 processor, delivering an amazing level of CPU performance.

Intel HD Graphics 520.

Getac's V110 features the new Intel® HD Graphics 520 providing an unparalleled level of responsiveness and frame rate for both 3D graphics and video.

Brilliant 11.6" Large Display.

The V110 features a large 11.6" display that utilizes LumiBond® 2.0 technology for incredible clarity both indoors and outside in direct sunlight. The 11.6" widescreen display is ideally suited providing plenty of real estate to run Windows and your apps on.

LumiBond® 2.0: Better, Brighter, Stronger.

The V110 takes advantage of our revolutionary LumiBond 2.0 touchscreen technology, which bonds the display glass with the touch panel and LCD, creating a single pane that is more durable and readable, and offers better contrast and more crisp colors than any other rugged laptop display. It features four advanced touch modes (Touch/Rain, Glove or Pen mode, plus an optional Digitizer mode), and the included hard-tip stylus enables you to capture signatures and take more precise notes on drawings, maps, or forms.

Touch

Glove

Pen

Digitizer

Dual Battery for Limitless Power.

The V110's unique, hot-swappable dual-battery design allows for potentially infinite, uninterrupted battery life. This enables you to remove one of the two rechargeable batteries and replace it with a fresh battery without ever shutting down apps or your Windows OS.

Security Redefined.

Experience an industry-leading suite of security features, including multi-factor authentication, to protect against malicious threats and intrusions.

Absolute DDS.

This optional protective measure disables your V110 if it detects an unauthorized or compromised entry.

Trusted Platform Module 2.0

The V110 features TPM 2.0 – a powerful anti-tampering device that checks for any signs of intrusion during system boot-up.

NFC/RFID Reader.

Authenticate your credentials via Near Field or Radio Frequency transmission.

Smart Card Reader.

The V110 supports Smart Cards for secure identity verification.

**Fingerprint Scanner**

Verify your ID with ease and accuracy by simply swiping your finger.

**Windows 10 Multi-Factor Authentication.**

The V110's hardware fully supports Microsoft's latest authentication tools, including Windows Hello, Microsoft Passport and Credential Guard.

Incomparable Connectivity.**Advanced 4G LTE.**

The V110 can be configured with 4G LTE WWAN and features an 8-band 3D antenna for blazing fast download and upload speeds with fewer dropouts.

**Dedicated GPS.**

The V110's dedicated GPS offers 2x search capacity, faster location positioning and improved accuracy over competitors' embedded GPS designs.

**802.11ac WiFi**

The V110 features 802.11ac WiFi, the latest and fastest in wireless connectivity technology – up to 3x faster compared to the competition's 802.11n WiFi.

Full-Size Keyboard.

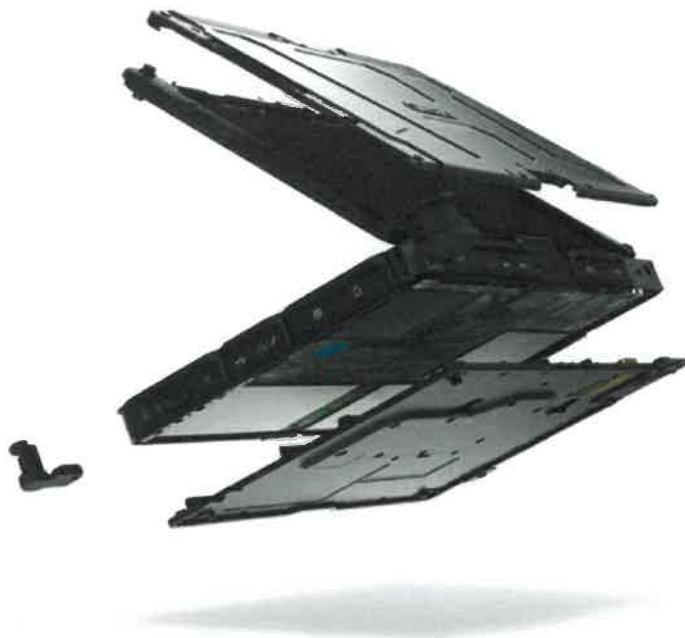

The V110 comes with a full-size, waterproof membrane keyboard. Its 88 standard-sized, island-style independent keys provide an unmatched premium feel and increased durability. The V110's keyboard is a full 56% larger than the Toughbook CF-19's keyboard, so you can type the way you're used to typing. And, the red backlight allows you to type in the dimmest conditions without silhouetting yourself. It also reduces eyestrain, which helps reduce fatigue.

Built To Survive™.

The V110 fully rugged convertible has been built using the highest quality materials to make it unflinchingly resilient. The V110's main chassis structure is precision cast using Magnesium Alloy, an incredibly strong structural metal that also happens to be one of the lightest in the world for its strength. We combined that with an advanced rugged polymer in areas of less impact and

rubberized absorption polymer at the main points of contact.

Less Downtime When It's Crunch Time.

It doesn't happen often, but if a V110 ever needs to be serviced, Getac offers unmatched coverage that will ensure you get your computer fixed and back on the job fast.

Bumper-To-Bumper Warranty.

Accidents happen. Only Getac offers bumper-to-bumper coverage standard on every V110 rugged convertible.¹

Serviced By Fedex TechConnect.

The V110 is serviced by FedEx TechConnect – faster, more convenient and more reliable service so you can get back to doing what you do best. It's Service DeliveredSM.

3-Year Bumper-to-Bumper Warranty.

Nothing says quality like a manufacturer standing behind their product. We've designed the V110 from the inside out to survive drops, shocks, spills, vibration and more. We're confident in our quality and that's why the rugged V110 comes standard with a 3-Year bumper-to-bumper warranty. It's the peace-of-mind protection of knowing [you're covered](#).¹

Covers Everything.

Getac's warranty includes all major system components.

Accidental Damage.

Getac's warranty includes coverage for accidental acts and exposure to environmental conditions.

Genuine Parts.

Getac's warranty repairs are carried out by expert technicians using Getac original production parts.

1) V110 comes standard with a 3 year Bumper-to-Bumper warranty. For full details of the warranty protection, see the terms and conditions.
