

30 Minute Parking Reform

Key West's current program is that if a guest house or hotel does not have enough parking and the business will commit to not having their guests parking in the neighborhoods they can have a 30 minute spot.

- All 30 minute spots converted to 15 minute spots with the strictly enforced verbiage.
- Signage would indicate spot was 15 minute parking between the hours of 8 a.m. and 8 p.m. From 8 p.m. to 8 a.m. residential parking permit only. No one is parking for 15 or 30 minutes at a time to check into a hotel at 3 a.m.
- Requirement upon guest houses yearly to provide city documentation proving they have arranged with some off-site location for parking and are not just parking cars on the street.
