

Historic Architectural Review Commission Staff Report for Item 5

То:	Chairman Bryan Green and Historic Architectural Review Commission Members
From:	Enid Torregrosa, MSHP Historic Preservation Planner
Meeting Date:	March 27, 2018
Applicant:	William Shepler, Architect
Application Number:	H18-03-0014
Address:	#903 Eaton Street

Description of Work:

Demolition of one-story cbs house, carport, stairs, decks, and porches.

Site Facts:

The site in question has a one-story cmu building that is significantly set back from the front property line. The main building in the site is a non-contributing structure. The 1962 Sanborn map depicts a similar footprint of what exists today in the lot. According to the Property Appraiser's records, the house has a construction date of 1954.

In August 2014, the Commission approved a single-family home in the lot, which is expired. The design was approved under previous guidelines for new construction.

Ordinance Cited on Review:

• Section 102-217 (3), demolition for contributing and historic structures of the Land Development Regulations.

Staff Analysis

The Certificate of Appropriateness proposes the demolition of the existing main house and accessory structures to it. The main house has a distinctive front yard that is atypical to the urban streetscape. The existing main building is in good condition.

It is staff's opinion that the base of the review of the demolition request be on the criteria under Chapter 102 Section 218 of the LDR's. The criteria state the following:

(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the criteria of section 102-125(1) through (9).

The structures in question do not present any evidence that they are irrevocable compromised by extreme deterioration.

The following is the criteria of section 102-125:

1 Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction;

Staff opines that the structures in question have no distinctive characteristics of a type or method of construction and are not significant to the overall historic character of the urban block.

2 Is not specifically associated with events that have made a significant contribution to local, state, or national history;

It is staff understanding that no significant events have ever happened in the structure that has contributed to local, state, or national history.

3 Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;

The structures in question have no significant value as part of a development, heritage, or cultural record of the city. The large front yard creates a void in the well-defined urban block façade.

4 Is not the site of a historic event with a significant effect upon society;

The site is not associated to any significant event.

5 Does not exemplify the cultural, political, economic, social, or historic heritage of the city;

The structures in question are not an example of any social, cultural, or historic heritage of the city.

6 Does not portray the environment in an era of history characterized by a distinctive architectural style;

The structures in question are not an example of a distinctive architectural style.

7 If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif;

The structures in question are not part of a park, square or distinctive area in the city.

8 Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and

Although the spacious front yard is a significant visual feature in the site, as it is different to the streetscape found in the urban block, staff opines that this unique feature does not contribute to the significance and traditional urban patterns found in the district.

9 Has not yielded, and is not likely to yield, information important in history.

The structures in question do not yield important information in history.

Although the proposed removal of structures meets the cited criteria for demolition, staff cannot recommend to the Commission the approval of such request, as we find the design for the proposed site inconsistent with guidelines for new construction.

If the Commission finds the design submitted as part of this requested demolition appropriate to the site, and finds the demolition in compliance with the LDR's regulations, this will be the first of two required readings.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

	(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.
	NO IT IS NOT.
	(c) Has no significant character, interest, or value as part fo the development, heritage, or cultural characteristics of the or state or nation, and is not associated with the life of a person significant in the past.
-	NO DOES NOT.
	(d) Is not the site of a historic event with significant effect upon society.
	NO IT 19 HOT.
	(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.
_	NO.
	f) Does not portray the environment in an era of history characterized by a distinctive architectural style.
	NO.
(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved ccording to a plan based on the area's historic, cultural, natural, or architectural motif.
	No.
(1	Does not have a unique location or singular physical characteristic which represents an established and familiar visual eature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

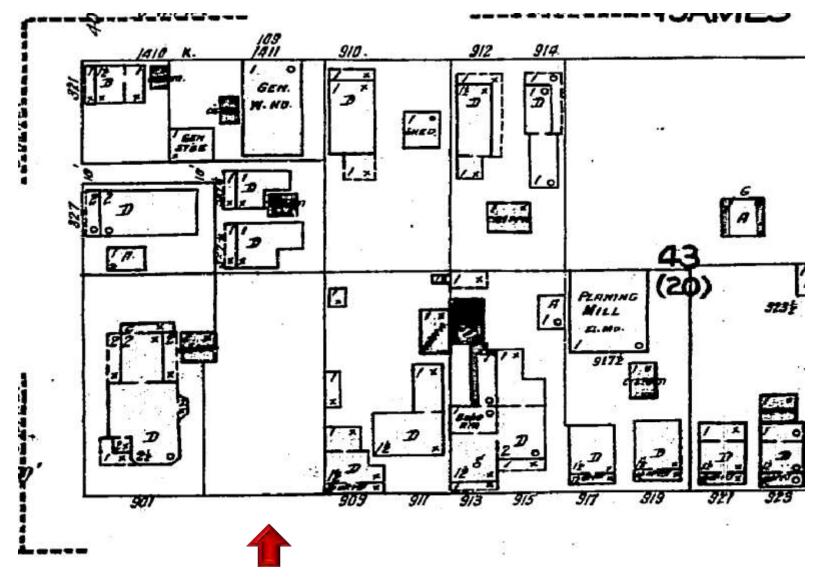

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

NO IT POES NOT.	
(i) Has not yielded, and is not likely to yield, information important in history.	
NO.	

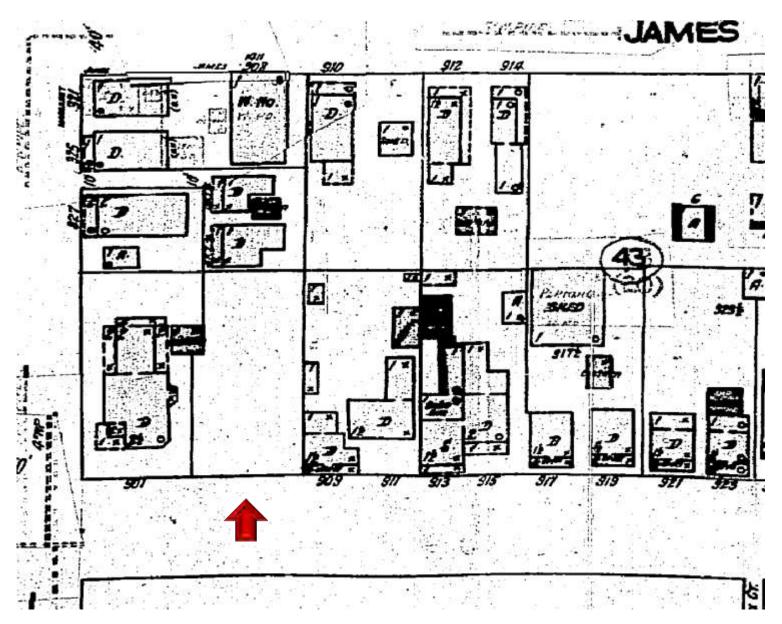

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES: The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies); (1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished. NA (2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space. (3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood. (4) Removing buildings or structures that would otherwise qualify as contributing.
