

STAFF REPORT

DATE: April 25, 2018

RE: **715 Whitmarsh Lane (permit application # T18-8936)**

FROM: Karen DeMaria, City of Key West Urban Forestry Manager

An application was received requesting the removal of **(1) Royal Poinciana tree**. A site inspection was done on March 29, 2018 and documented the following:

Tree Species: Royal Poinciana (Delonix regia)

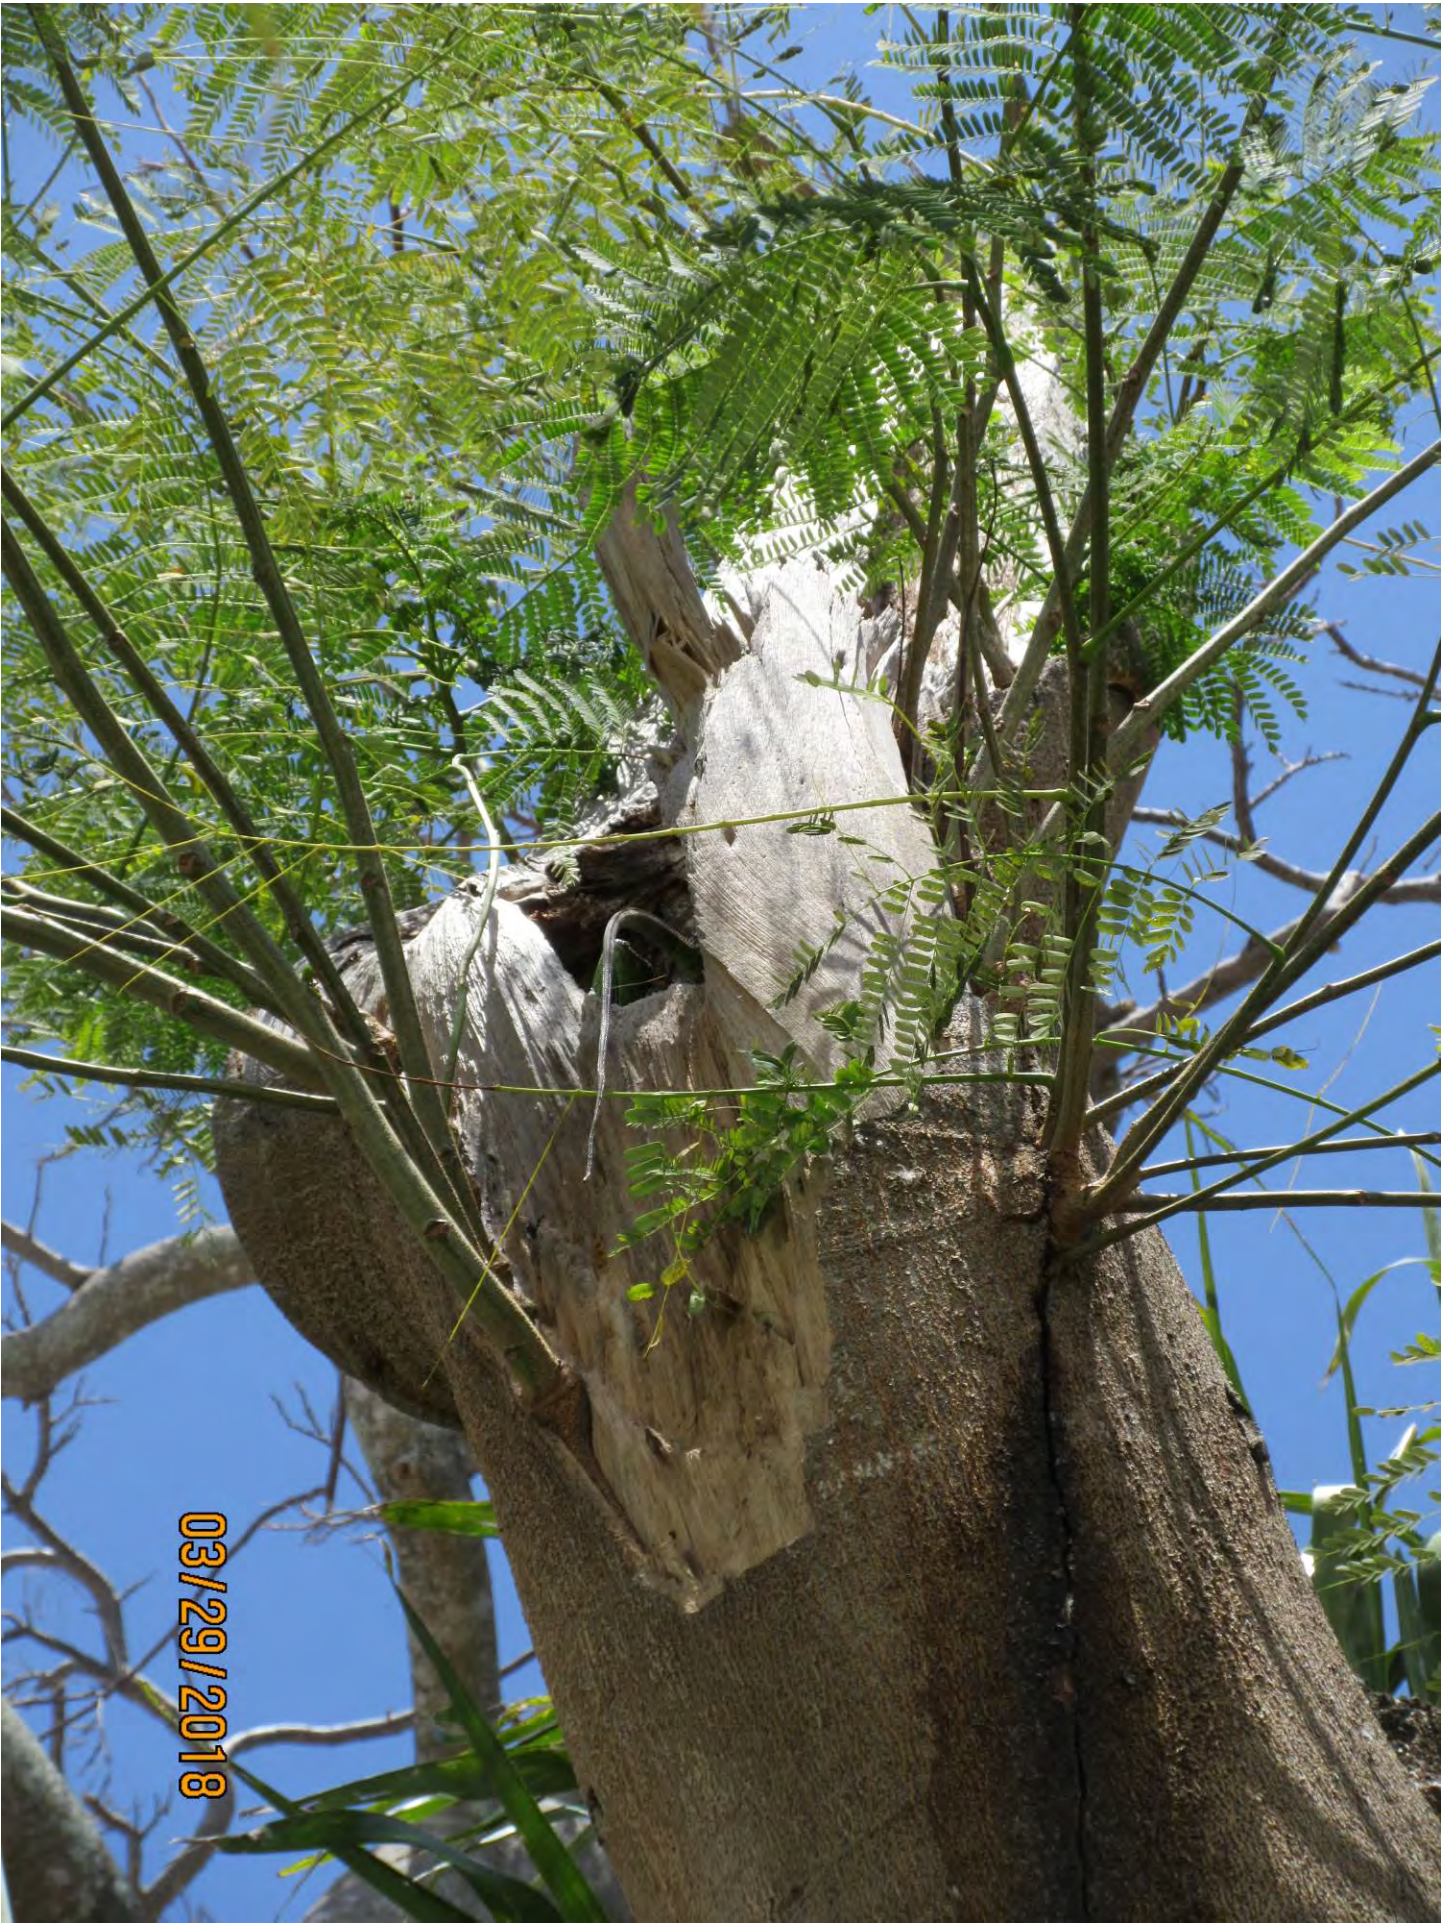

03/29/2018

03/29/2018

Diameter: 20.3"

Location: 80%

Species: 100% (on protected tree list)

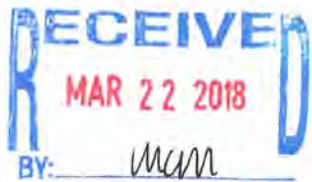

Condition: 50% (fair-hurricane damage to canopy, large canopy branch torn off. Appears main trunk is possibly hollow-at least the area near the branch tear look hollow, crack in remaining piece is close to main trunk area)

Total Average Value = 76%

Value x Diameter = 15.4 replacement caliper inches

One large canopy branch appears to have broken off in the hurricane. Significant damage does not appear to be in the main trunk. Verbally requested additional information from the representative/arborist regarding the potential of a heavy maintenance trim to clean the break and reduce some weight off the other main canopy branches instead of removal of tree.
