

**Historic Architectural Review Commission
Staff Report for Item 5**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins
HARC Assistant Planner

Meeting Date: June 26, 2018

Applicant: Meridian Engineering

Application Number: H18-03-0022

Address: #1108 Watson Street

Description of Work:

Partial demolition of side wall.

Site Facts:

The one-story, wood frame structure is not listed as a contributing resource in the survey. It first appears on the 1948 Sanborn map. Over the years, the building has had numerous rear and side additions, and the house has been very altered.

Guidelines Cited in Review:

Sec. 102-218 (a): Criteria for demolition of a historic or contributing building.

Sec. 102-218 (b): Criteria for demolitions.

Staff Analysis

This Certificate of Appropriateness proposes partial demolition of a wall of a historic house. The Commission approved the first reading of this item at the last HARC meeting. The historic house has undergone multiple additions and alterations. Therefore, staff does not feel that it meets any of the criteria listed in Sec. 102-218, and therefore can be considered for demolition:

- (1) The wall does not embody distinctive characteristics and are not significant and distinguished entity. Staff feels that their components lack individual distinction.
- (2) The wall is not specifically associated with events that have made a significant contribution to local, state, or national history;
- (3) The wall has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and are not associated with the life of a person significant in the past;
- (4) The wall to be demolished is not the site of a historic event with a significant effect upon society;
- (5) The wall does not exemplify the cultural, political, economic, social, or historic heritage of the city;
- (6) The wall does not portray the environment in an era of history characterized by a distinctive architectural style;
- (7) The wall is not related to a square, park, or other distinctive area.
- (8) The wall does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and
- (9) The wall has not yielded, and is not likely to yield, information important in history.

This will be the final reading for this item.
