

**Historic Architectural Review Commission
Staff Report for Item 2**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins, MHP
HARC Assistant Planner

Meeting Date: July 24, 2018

Applicant: Meridian Engineering

Application Number: H17-03-0059

Address: #1006 Truman Avenue

Description of Work:

New one-story wood frame open structure, new deck, and ADA ramp.

Site Facts:

The one-story structure at 1006 Truman Avenue is listed as a noncontributing structure in the survey. The property appraiser's office states that the structure was built in 1944, but there is no structure on the 1948 and the 1962 Sanborn maps. There are no historic photographs of this structure, nor are there any aerials that show it until recently. The applicant states that it was built in the 1980s. The property appraiser's office effective year built date for this structure is 1980.

Guidelines Cited in Review:

Guidelines for New Construction (pages 38a-38q), specifically guidelines 1, 2, 6, 7, 8, 9, 11, 12, 13, 14, 18, 22, and 23.

Guidelines for Ramps (page 34), specifically guideline 1, 2, and 4.

Guidelines for Decks, Patios, Hot Tubs, & Pools (pages 39-40), specifically guidelines 3.

Staff Analysis

This Certificate of Appropriateness proposes demolishing a one-story structure that from research is not a historic structure. The new structure will shorter than the existing building by two feet. The current structure is located in the rear of the lot, and the proposed building will be located much closer to the street, but will have a 25-foot setback. It will sit further back than the existing Don's Place bar. The frontage location will be comparable to the Old Town Fitness building located next door at 1010 Truman Avenue. The new structure will be similar to the current building in that it will be open on the front and sides and will have a height of approximately 17 feet. The structure will be made of wood with hardiboard fascia and a scalloped metal shingles installed in the front gable pediment. There will be a deck on the front of the building with an ADA ramp located on the side. The building will have a cutout for an existing Spanish Lime tree.

Consistency with Guidelines

1. The proposed structure will be located closer to Truman Avenue than the current structure, but will still have a 25-foot setback from the right-of-way. The new structure will be lower in height and will retain many of the same features as the current structure – a roof structure with no side or front walls. A new ADA ramp will be installed along the side of the building.

It is staff's opinion that the proposed design is consistent with the guidelines for new construction.

DETAILED PROJECT DESCRIPTION OF DEMOLITION

Remove a 1215 sf wood frame gable roof structure. The structure is open on all sides.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

N/A

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

Meets criteria. Structure does not have any historical significance

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

Meets criteria. Structure not associated with any significant events.

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

Meets criteria.

(d) Is not the site of a historic event with significant effect upon society.

Meets criteria

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

Meets criteria

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

Meets criteria

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

Meets criteria.

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

Meets criteria

(i) Has not yielded, and is not likely to yield, information important in history.

Meets criteria

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

Structure is not significant.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

No historical relationships between structures.

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

Structure does not define historic character of site.

(4) Removing buildings or structures that would otherwise qualify as contributing.

N/A. Structure is not contributing
