

**Historic Architectural Review Commission
Staff Report for Item 10**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins, MHP
HARC Assistant Planner

Meeting Date: August 28, 2018

Applicant: Thomas E. Pope

Application Number: H18-03-0037

Address: #1231 Washington Street

Description of Work:

Demolition of non-historic accessory structure.

Site Facts:

The main house located at 1231 Washington Street is listed as a non-contributing resource and was constructed c.1948 according to the survey. The structure first appears on the 1948 Sanborn map. The property did not have an accessory structure in the rear. This project received a variance from Planning Board in July.

Ordinance Cited in Review:

Sec. 102-217 (2): Demolition of non-historic or non-contributing buildings.

Sec. 102-218 (b): Criteria for demolitions.

Staff Analysis

This Certificate of Appropriateness proposes the demolition of a one-story non-historic shed.

Staff opines that the proposed demolition will not result in the following:

- (1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;*

It is staff's opinion that the removal of the existing non-historic shed will not jeopardize the historic character of the neighborhood or the historic integrity of the house.

- (2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;*

The proposed structure to be demolished is not historic.

- (3) *Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.*

The non-historic shed is not significant or important in defining the historic character of the site.

- (4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

It is staff's opinion that the existing shed will not qualify to be a contributing resource in a near future.

In conclusion, it is staff's opinion that the Commission can consider the request for demolition proposed in the plans as it complies with the criteria for demolition stated under the Land Development Regulations.

If the Commission approves the request for demolition of the non-historic structure, this will be the only required reading.
