

**Historic Architectural Review Commission
Staff Report for Item 15**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins
HARC Assistant Planner

Meeting Date: October 23, 2018

Applicant: William Shepler

Application Number: H2018-0009

Address: #1319-A William Street

Description of Work:

Removal of existing skylights and new dormers at front and rear elevations and changes to fenestrations.

Site Facts:

1319 William Street is not listed in the surveys at all. The property contains two buildings – Building A and Building B – that have been connected. Building B does not show on any Sanborn maps, but there is a historic photograph of the structure from c.1965. Building A was constructed sometime after 1972, and that is the structure under review for this application.

Guidelines Cited in Review:

Secretary of the Interior's Standards for Rehabilitation (pages 16-17), specifically standards 9 and 10.

Dormers (page 27), specifically guidelines 2, 3, and 5.

Additions and Alterations (pages 37a-37k), specifically guidelines 9, 13, 22, and 25.

Staff Analysis

The Certificate of Appropriateness in review proposes new dormers at the front and rear of a non-historic building. The structure is currently a large one-story structure with attic space, and the addition of the dormers will convert the attic into a second floor. The front of the building will have four small dormers that end below the ridge of the roof. They are proportionate to the roof. The rear will have two large dormers that meet at the ridge of the roof.

The plans also include changes to fenestrations on the west, south, and north elevations of the buildings.

Consistency with Guidelines

The proposed dormers on the rear are very large – with the two dormers taking up more than half the roof. The dormers also meet at the ridge of the roof, which is contrary to the guidelines for dormers. The guidelines state that “dormer size must be in proportion to the building and its roof. Oversized or undersized dormers are inappropriate.” Guideline 5 of dormers says that “The juncture of a dormer roof with the main roof should be *below the ridgeline* of the main roof” (Emphasis in the guidelines). These dormers are inconsistent with the guidelines and should be lowered so that the juncture of the dormer roof and the main roof are below the ridge of the roof. Also, the dormers are oversized. While these dormers are located on the rear of the building, that building faces Royal Street.

The proposed fenestration changes to the west and north elevation are consistent with the guidelines, but the addition of a new window on the south elevation – the front elevation of the building adds a new smaller window that will break up the rhythm and balance of the existing windows. This is contrary to guideline 22 which states:

New additions must incorporate similar proportions, window and door sizes, and rhythms found in the main building. The installation of windows or doors that are visually incompatible with the existing building is discouraged.

The proposed window is visually incompatible with the existing building and therefore, inconsistent with the guidelines.

Therefore, staff finds that the dormers on the rear of the building do not meet the guidelines as they are oversized and meet at the ridge of the roof. Staff also finds that the introduction of a window on the south elevation is inconsistent with the guidelines in regards to additions and alterations.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

(c) Has no significant character, interest, or value as part fo the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

(d) Is not the site of a historic event with significant effect upon society.

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

N/A

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

N/A

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

N/A

(4) Removing buildings or structures that would otherwise qualify as contributing.
