

**Historic Architectural Review Commission
Staff Report for Item 8**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins, MHP
HARC Assistant Planner

Meeting Date: January 29, 2019

Applicant: Richard McChesney

Application Number: H2019-0001

Address: #1327 Duval Street

Description of Work:

New accessory structure and new brick pavers

Site Facts:

The main structure at 1327 Duval Street was built c.1894 by Eduardo H. Gato, Sr., a member of one of Key West's most prominent families. The two and half-story, frame structure with Queen Anne details has a wraparound two-story front and side porch with double pillars. The property also contains two accessory structures on the property, including a non-historic pergola that is under review.

Guidelines Cited in Review:

Secretary of the Interior's Standards for Rehabilitation (pages 16-17), specifically Standards 9, and 10.

HARC Guidelines for New Construction (pages 37a-37k), specifically guidelines 1, 2, 6, 8, 11, 12, 13, 14, 18, 22, and 25.

HARC Guidelines for Outbuildings (pages 40-41), specifically guidelines 1, 3, 4, 9, 10, and 11.

Staff Analysis

This Certificate of Appropriateness proposes a new structure that will have ADA compliant bathrooms and a breakfast bar. It will be 12 feet, 8 inches tall, and will be 16 feet by 17 feet. The structure will have a hip roof with v-crimp roofing material. The structure will be located in a similar footprint where a pergola currently stands.

Consistency with Guidelines

It is staff's opinion that the design is consistent with the guidelines for new construction and outbuildings. While the new structure will be publicly visible, staff does not feel that the proposed accessory structure is intrusive, as it will be located in the same place as an existing pergola. It will be more solid than the current pergola. While it will obscure part of the historic house, that portion of the building has already been covered by a concrete staircase, air conditioning units, and the previously mentioned pergola. The new proposed structure will be pushed further back from the main house, so that more of the side of the house will be visible. The design of the new structure is in keeping with the architecture of the property.
