Dear Key West Bight Commercial Marina Tenant,

You have been identified as a commercial marina tenant that is currently in violation of your lease by allowing overnight stays of guests on your vessel. The City has classified this type of operation as a "Term Charter".

The City Commission and the Key West Bight Management Board have approved a new lease and set of Requirements and Regulations that now allow for Term Charters to operate within the Key West Bight. If you feel that the original intent of your business model when you entered into a lease with the marina was to operate as a Term Charter, you must now follow the Application Process as described in the attached Term Charter Requirements and Regulations in order to continue to operate. If approved by the Bight Board you will be required to enter into a new lease and meet all the Requirements and Regulations.

The Key West Bight Board has made it clear that it is **NOT** the intention of this new lease to allow any form of AirBnB or "Boatels" to operate or the conversion of a non-term charter type businesses such as fishing charters, sunset cruises, etc to become a Term Charter business.

Application must be submitted to my office no later than January 28, 2019. Complete applications will be presented to the Bight Board on February 13, 2019. Your presence will be required.

Any applicant that is not approved to operate as a Term Charter will be considered in violation of their lease on February 14, 2019 and subject to lease termination as determined by the Port and Marine Services Director.

If you have further questions or need additional information, please do not hesitate to contact me at 305-809-3792 or at dbradshaw@cityofkeywest-fl.gov.

Sincerely,

Doug Bradshaw
