

Historic Architectural Review Commission Staff Report for Item 5

То:	Chairman Bryan Green and Historic Architectural Review Commission Members
From:	Enid Torregrosa, MSHP Historic Preservation Planner
Meeting Date:	April 23, 2019
Applicant:	Kevin McChesney, Contractor
Application Number:	2019-0750
Address:	#218 Duval Street

Description of Work:

New wall and hanging signs with back LED letters.

Site Facts:

The main structure in the site is a contributing resource to the historic district. Built circa 1889, the historic two-story frame vernacular building was a multi-use structure. The building has undergone several alterations, including the addition of a two-story bay along the north side and the enclosure of the first floor front porch. Currently the first floor is empty and since March 6, 2019, listed in the MLS list as a commercial rental spacehttps://link.flexmls.com/182cg2fqjz8u,6. Front stairs, located at the south side of the building give access to the second floor business, which is the business for this application. According to the survey, the building's main façade is over city's right-of-way.

On October 16, 2017, the building department received a building/ HARC incomplete application for the installation of an aluminum sign with halo lit LED aluminum channel letters with copy "*Teasers Gentlemen's Club*" (Building Permit 17-3694). The application did not included the size of the sign, linear frontage of the business and staff had concerns pertaining the proposed location. On October 20, an email was send to the applicant, Carrie Johnston-Signs Unlimited, concerning the proposed location and a meeting request. Staff spoke on the phone with one of Signs Unlimited representatives but they never submitted revised information. On November 29 a second email was send, as staff never heard back from the applicant, the sign was already installed without any Certificate of

Appropriateness or Building Permit, and was installed over an arch; which was a different location than the one submitted as part of the application. On December 17, 2018, Code Compliance issued an amended notice of code violation and administrative hearing, as the not approved wall sign was relocated on its current location. Permit request no 17-3694 was never amended as an after-the fact application and still an incomplete application to be processed for a Certificate of Appropriateness. The building has many other not approved signs; a red arrow with incandescent lights and a bar sign, both installed on the south side of the building, and two large banners. The building is located on the Entertainment Corridor Zone (ECZ).

Ordinance and Guidelines Cited in Review:

• Chapter 114 of the LDR's- Signage, Division 3- Historic Districts, specifically Sec. 114-104. - Calculation of permitted signage.

"Permitted signage will be based on the amount of a business frontage, as defined under_section 114-101. Calculation of signage will be one and a quarter (1.25) square feet of signage per linear foot of the building frontage of a business. Where the expressed formula does not work due to any small linear frontage occupied by a business, a sign cannot be smaller than three (3) square feet. The maximum allowed square footage for a business frontage is eighty (80) square feet for each frontage but square footage cannot be combined. For purpose of this regulation, stories above the first floor will not count as business frontage."

• Guidelines for Signage (pages 49-50vv), specifically page 50- Intent, page 50 d and e- 4-a.2 Objective Maintaining buildings and streetscape free of visual clutter, 4- a.2.b (how much signage is appropriate), guidelines 5-j- Halo effect signs, 5-k- Hanging signs 5q -Wall signs.

Staff Analysis

The Certificate of Appropriateness in review is for the installation of two new signs for a business located on the second floor of the building, *Teasers*. The current ordinance and guidelines for signage stipulates that allowed signs shall be based on the frontage linear footage a business occupies; 1.25 square feet of signage will be permitted per one linear foot of business frontage. Currently there are no legal non-conforming signs installed in the building for this specific business, nor for any other business.

According to the application, the linear frontage of the business is 50'; the proposed wall sign t will be 27 square feet and a hanging sign is 5 square feet, for a total of 32 square feet of signage for the business. If 50 linear feet is multiply by 1.25 this will equals to 62.5 square feet of maximum allowed signage. Nevertheless, the Property Appraisers Records and a survey from the property depict the Duval Street frontage of the site as 48.68'. The linear frontage of this business is the frontage of the staircase facing Duval Street, as the business is above the building's first floor.

Staff opines that the stairs have 10.22' of frontage as they are not above the first floor of the building [48.68' (site frontage width) – 38.46' (building frontage width) = 10.22']. Therefore, the total allowed signage for this business is <u>12.77 square feet</u>. Staff discussed this information with the sign designer, Key West Sign Company, before the application was submitted.

Consistency with Guidelines

It is staff's opinion that the proposed signs are inconsistent with cited regulations. The submitted design surpasses the allowed amount of square footage. Staff also finds that the form of the wall sign is inappropriate for the historic building. The banners in the building are prohibited by current regulations and should be removed, as well as the arrow and "bar" signs located on the south side of the building.

Building/ HARC incomplete application (Building #17-3694) for current wall sign and staff emails to applicant.

-----Original Message-----From: Kelly Perkins Sent: Friday, October 20, 2017 2:00 PM To: signskeywest@aol.com Subject: HARC Application for 218 Duval Street

Good Afternoon Carrie,

I have reviewed your application for a sign at 218 Duval Street. Our new sign guidelines are clear that signage cannot obscure architectural features, and the fanlights above the doorways (currently covered by awnings) are architectural features. From your application, it appears the proposed sign will cover them. I cannot staff approve this application as is. Would you like to meet to go over the guidelines or work on a solution?

Thank you, Kelly Perkins, HARC Assistant Planner Planning Department, City of Key West 1300 White Street, Rear Entrance Key West, Florida 33040 P: 305.809.3975 | E: kperkins@cityofkeywest-fl.gov

-----Original Message-----From: Kelly Perkins Sent: Wednesday, November 29, 2017 3:54 PM To: signskeywest@aol.com Subject: HARC Application for 218 Duval Street

Good Afternoon,

We spoke about this application for a sign at Teasers at 218 Duval Street. Staff cannot approve this application, as the sign does not meet our guidelines. I see that the sign is already installed without a Certificate of Appropriateness or a building permit, but the location is different than what the application states.

Do you want to move this application forward to the December 19th HARC Commission meeting? We are finalizing the agenda currently, and will need an accurate proposal for where the sign is to be installed, include the removal of the awning that was done without a COA, and submit the extra \$350 for the HARC fee for going to a HARC Commission meeting.

Please let me know how you would like to proceed.

Thank you, Kelly Perkins, HARC Assistant Planner Planning Department, City of Key West 1300 White Street, Rear Entrance Key West, Florida 33040 P: 305.809.3975 | E: kperkins@cityofkeywest-fl.gov

2017-00003694

Type (Asc)

(No User Name)

Sign is already installed at location, but not where the application says it should be. I have emailed applicant about revising the application to what was installed, and adding the awning that was removed without a COA or permit. I advised the applicant that this will need to go to the HARC Commission and is afterthe-fact. Accidentally stated we would need \$350, but will in fact need \$750 to cover the after-the-fact fee. 11/29/2017 12:00:00 AM

AMENDED NOTICE OF CODE VIOLATION & ADMINISTRATIVE HEARING

DATE: December 17, 2018 RE: CASE NUMBER CC2018-02029 CERTIFIED MAIL RECEIPT NUMBER: 7018 2290 0000 6414 6839

To: Ramlo Development Corporation Michael Halpern (Registered Agent) 209 Duval Street 2nd floor Key West, FL 33040 Subject Address: 218 Duval St Key West, Fl 33040

TAKE NOTICE that the City of Key West Code Compliance Division has requested the City of Key West Special Magistrate to conduct an administrative hearing regarding code violation(s) reported to you by: NOTICE OF CODE VIOLATION concerning the above noted subject address.

You were noticed that your property is in violation of the City of Key West Code of Ordinances for the following reason(s):

Count-1: Sec.14-37. Building permits; professional plans; display of permits; address; exceptions.

(a) Building permit required; display. Building permits shall be procured from the chief building official before performance of any work or construction of any character, whether permanent or temporary. Within 48 hours after it is issued, the applicant must cause the permit to be posted and displayed at the work site so that it is readily visible from an adjacent public street throughout the term of the work. No work shall be performed unless a proper permit is so posted.

Inspections may not be performed if the permit is not posted and address numbers are not a minimum of 4" high and clearly visible from the street.

Exception 1: Total contract price less than \$1,000.00 per FBC Sect. 105.2.2 Minor Repairs. Ordinary minor repairs may be made with the approval of the chief building official without a building permit, provided the repairs do not include the cutting away of any wall, partition or portion thereof, the removal or cutting of any structural beam or load-bearing support, or the removal or change of any required means of egress, or rearrangements of parts of a structure affecting the egress requirements; additionally, ordinary minor repairs shall not include addition to, alteration of, replacement or relocation of any standpipe, water supply, sewer, drainage, drain leader, gas, soil, waste, vent or similar piping, electrical circuit wiring systems or mechanical equipment or other work affecting public health or general safety, and such repairs shall not violate any of the provisions of the technical codes. Any new electrical circuits or wiring will require a permit.

Exception 2: Painting, both interior and exterior, residential or commercial does not require a permit. Tile repair or installation, floor covering, including carpet, laminate, resilient, and wood, both residential and commercial, do not require a permit.

Work that falls under the \$1,000.00 threshold for a building permit may be performed only by the property owner or a licensed contractor. Unlicensed workers, including 'handymen' are not allowed to conduct any type of work to a residential or commercial structure.

(b) Professional plans required. Professional plans shall be required as follows:

(1) Plans for work requiring a building permit shall be submitted in multiple sets, as determined by the chief building official, to the chief building official and shall be prepared by, and bear the seal of, an architect or structural engineer duly registered in the state, except if the work is by the owner-occupant upon a one- or two-family residence, and the work is cosmetic, nonstructural repair, alteration or addition.

(2) Notwithstanding subsection (b)(1) of this section, plans for work which requires a building permit and which involves mechanical, plumbing or electrical repairs, alterations or additions shall be prepared by and shall bear the impress seal of an engineer duly registered in the state, as reasonably required in the interest of health and safety by the chief building official.

(3) The chief building official may waive the requirements in [subsection] (b)(1) and/or (2) by special permission.

To wit: During a follow up inspection Code Officer Dunlap and I photographed 2 signs that have been relocated. On October 10, 2017 an application was submitted for the Gentlemen's Club. The contractor failed to provide the corrective actions needed to process application #2017-3694. I attached the notes added on the subject application.

Corrective action: Please contact a license contractor to apply for and obtain after the fact permit.

Count-2: Sec.14-40. Permits in historic districts.

(a) Requirements. No building or work permit required by this Code for work in the historic zoning districts of the city or in tidal waters contiguous to and within 600 feet of the historic zoning districts shall be issued until a certificate of appropriateness has been granted by vote of the historic architectural review commission (HARC), attested by signature of its presiding member, and until the chief building official finds that the building or work permit conforms to all laws and regulations of the city.

(b) Contents. All permits issued by the city shall show the nature and extent of the intended work in detail sufficient to demonstrate that the project is consistent with all city laws and regulations and of HARC.

(c) [Scope, etc.] Building permit application shall be identical in scope, description and elevation views of the HARC project.

(d) Stop work order; penalty. The chief building official is authorized to post a signed and dated notice to stop work on any site on which work is being performed in violation of the city laws and regulations or of HARC. Any person shall be guilty of an offense punishable as provided in section 1-15 if the person:

(1) Performs work with actual or constructive knowledge that the work site has been posted by such notice, which notice has not been withdrawn by a dated, signed order of the chief building official; or

(2) Removes, defaces, conceals or alters such notice to stop work, without a dated, signed authorization of the chief building official.

Where such offenses are of a continuing nature, no two separate offenses shall be charged against the same person within any one-hour period.

To wit: The signs at the subject location were installed without the benefit of a certificate of appropriateness.

Corrective action: Please apply for and obtain after the fact certificate of appropriateness.

Count-3: Sec.14-37. Building permits; professional plans; display of permits; address; exceptions.

(a) Building permit required; display. Building permits shall be procured from the chief building official before performance of any work or construction of any character, whether permanent or temporary. Within 48 hours after it is issued, the applicant must cause the permit to be posted and displayed at the work site so that it is readily visible from an adjacent public street throughout the term of the work. No work shall be performed unless a proper permit is so posted.

Inspections may not be performed if the permit is not posted and address numbers are not a minimum of 4" high and clearly visible from the street.

Exception 1: Total contract price less than \$1,000.00 per FBC Sect. 105.2.2 Minor Repairs. Ordinary minor repairs may be made with the approval of the chief building official without a building permit, provided the repairs do not include the cutting away of any wall, partition or portion thereof, the removal or cutting of any structural beam or load-bearing support, or the removal or change of any required means of egress, or rearrangements of parts of a structure affecting the egress requirements; additionally, ordinary minor repairs shall not include addition to, alteration of, replacement or relocation of any standpipe, water supply, sewer, drainage, drain leader, gas, soil, waste, vent or similar piping, electrical circuit wiring systems or mechanical equipment or other work affecting public health or general safety, and such repairs shall not violate any of the provisions of the technical codes. Any new electrical circuits or wiring will require a permit. Any new plumbing fixtures or piping will require a permit.

Exception 2: Painting, both interior and exterior, residential or commercial does not require a permit. Tile repair or installation, floor covering, including carpet, laminate, resilient, and wood, both residential and commercial, do not require a permit.

Work that falls under the \$1,000.00 threshold for a building permit may be performed only by the property owner or a licensed contractor. Unlicensed workers, including 'handymen' are not allowed to conduct any type of work to a residential or commercial structure.

(b) Professional plans required. Professional plans shall be required as follows:

(1) Plans for work requiring a building permit shall be submitted in multiple sets, as determined by the chief building official, to the chief building official and shall be prepared by, and bear the seal of, an architect or structural engineer duly registered in the state, except if the work is by the owner-occupant upon a one- or two-family residence, and the work is cosmetic, nonstructural repair, alteration or addition.

(2) Notwithstanding subsection (b)(1) of this section, plans for work which requires a building permit and which involves mechanical, plumbing or electrical repairs, alterations or additions shall be prepared by and shall bear the impress seal of an engineer duly registered in the state, as reasonably required in the interest of health and safety by the chief building official.

(3) The chief building official may waive the requirements in [subsection] (b)(1) and/or (2) by special permission.

To wit: During a follow up inspection Code Officer Dunlap and I photographed 2 flood lights that were installed without the benefit of an electric permit.

Corrective action: Please contact a license contractor to apply for and obtain after the fact electrical permit.

Count-4: Sec.14-262. Request for inspection.

A request for the inspection of electrical work, such as roughing-in, equipment installations, final inspection or electrical work for light, heat or power of any character, must be made at the building department as soon as the job is ready. The request for inspection must be made by the person installing the wiring, and failure to request such inspection constitutes a violation of this Code.

To wit: Electrical work was performed without the benefit of permit and inspection.

Corrective action: Please contact the building department to obtain required inspection.

In accordance with Florida Statutes § 162 and Code of Ordinances, City of, § 2-631 through § 2-647, The City of Key West has scheduled a hearing to be held at City Hall, 1300 White Street, Key West, Florida at 1:30 P.M. on: Wednesday, January 30, 2019

The Chambers will be open at 1:00 PM. These proceedings may be televised.

The purpose of this hearing is to determine if a violation(s) exists, the appropriate action to be taken, if any is required, and if any fines or penalties are to be imposed. YOU ARE REQUESTED TO APPEAR AT THIS HEARING to present evidence and/or testimony to show cause, if any, why you should not comply with City Ordinances. YOUR FAILURE TO APPEAR MAY RESULT IN A FINE OR PENALTY BEING IMPOSED AGAINST YOU AND A LIEN BEING IMPOSED UPON YOUR PROPERTY.

You have a right to have an attorney present at the hearing. If an attorney represents you, your attorney must file written notice with this office prior to the hearing date.

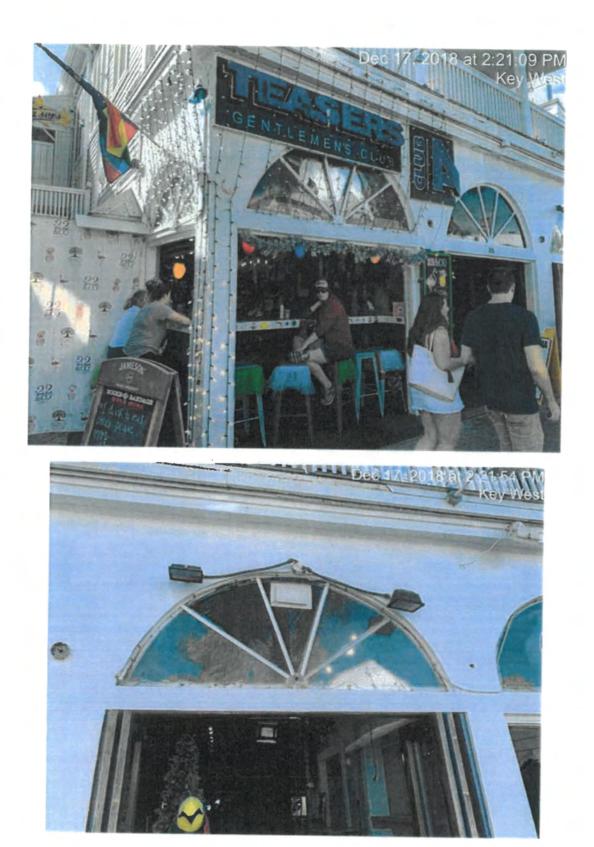

If you intend to request a continuance from the Hearing Date set out above you must submit a written request for a continuance addressed to the Special Magistrate and mailed to PO Box 1409, Key West, FL 33041 or delivered to the Special Magistrate's Legal Analyst at 1300 White Street, Key West, FL 33040. All requests must be received at least five (5) working days prior to the Hearing Date set out above. If the request is not received five (5) working days prior to the Hearing Date set out above. If the request is not received five (5) working days prior to the Hearing Date set out above. If the request is not received five (5) working days prior to the Hearing Date set out above. If the request is not received five (5) working days prior to the Hearing Date set out above. If the request is not received five (5) working days prior to the Hearing Date set out above. If the request is not received five (5) working days prior to the Hearing Date set out above. If the request is not received five (5) working days prior to the Hearing Date set out above. If the request is not received five (5) working days prior to the Hearing Date set out above. If the request is not received five (5) working days prior to the Hearing Date to petition the Special Magistrate for a continuance. If any continuance is granted this will not stay discovery and all records previously requested must be supplied to the City or formally objected to.

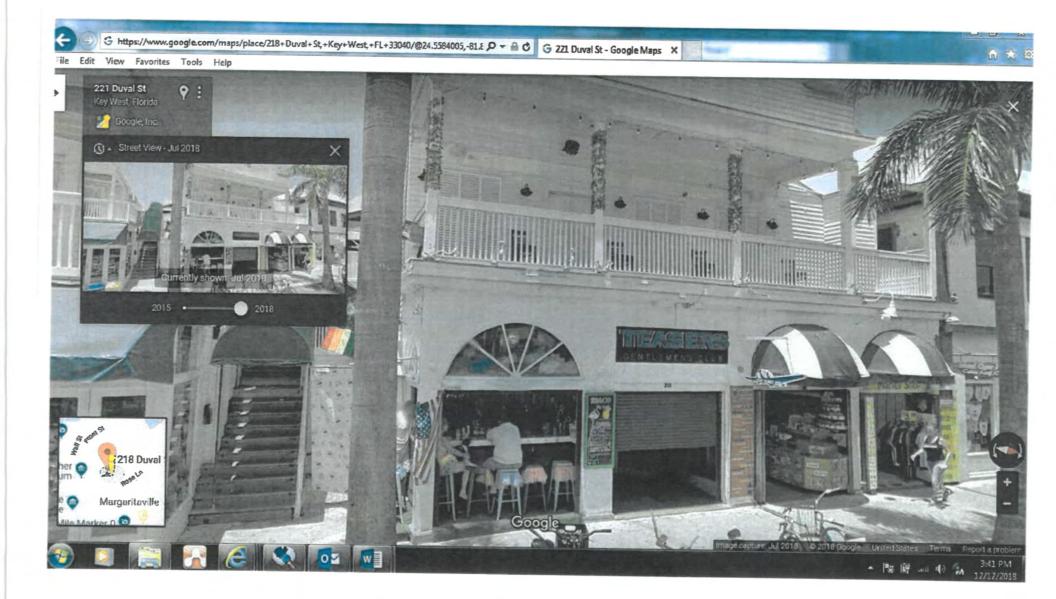

Be advised that, if you decide to appeal any decision of the Special Magistrate in this code enforcement hearing, you shall be responsible to ensure that a verbatim record of the proceedings of this code enforcement hearing is made, such that any evidence and testimony upon which an appeal may be based can be submitted to the appellate court.

If you are found to be in violation of City of, administrative costs in the amount of \$250.00 may be levied for administrative recovery for prosecution and investigation in addition to levied fines associated with the violation(s). Failure to pay these costs will result in a lien against the property in violation.

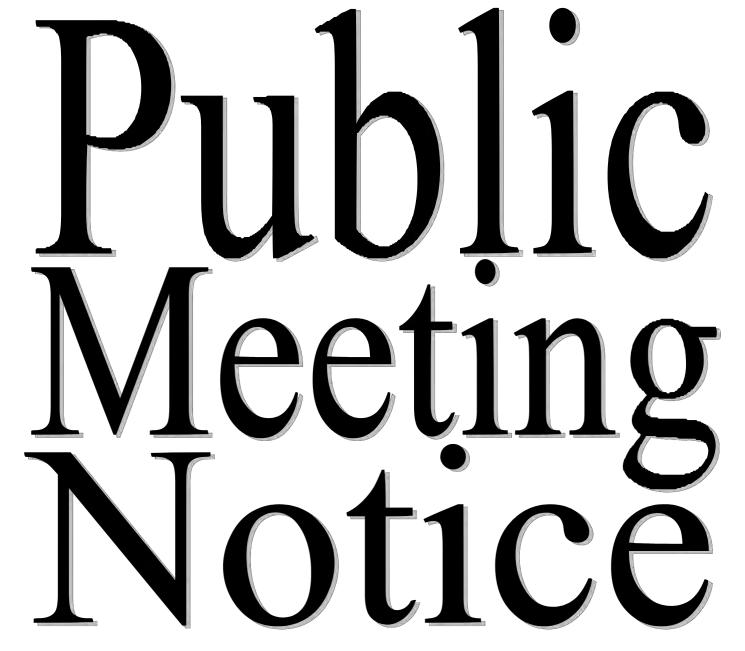

PER STATUTES SECTION 162.09, YOUR FAILURE TO CORRECT THE VIOLATION (S) MAY RESULT IN THE IMPOSITION OF A FINE OF UP TO \$250.00/DAY, AND \$500.00/DAY FOR A REPEAT VIOLATION. IF THE VIOLATION (S) IS IRREPARABLE OR IRREVERSIBLE, A FINE OF UP TO \$5000.00 MAY BE IMPOSED BY THE SPECIAL MAGISTRATE. FINES MAY BE IMPOSED ON A PER DAY/ PER VIOLATION BASIS.

Jorge Lopez Code Compliance Officer City of Key West (305) 809-3735 jlopez@cityofkeywest-fl.gov
