

**Historic Architectural Review Commission
Staff Report for Item 13**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Enid Torregrosa, MSHP
Historic Preservation Planner

Meeting Date: May 28, 2019

Applicant: A2O Architecture

Application Number: H2019-0012

Address: #818 Olivia Street

Description of Work

Relocation of existing house forward on site. Rebuild of rear non-historic additions and new rear addition. New footings 1 foot taller than existing ones and relocation of shed.

Site Facts

The building under review is a contributing resource to the historic district. Built circa 1890, the one-story frame vernacular house has an unusual large front yard. The original house consisted of two sawtooths with a transverse rear structure attached at the center of house. Towards the east side of the rear portion of the house there used to be an open porch. New additions on the rear portion of the house have altered the building's historic form. Almost all of the houses on the block have a small front porch.

The plan will require variances from front yard setbacks.

Guidelines and Ordinances Cited on Review

- Section 102-217 (2), demolition for non-contributing or non-historic structures of the Land Development Regulations for demolition of rear addition.

Staff Analysis

A Certificate of Appropriateness is under review for the demolition of rear additions that are not historic. Those additions altered the original form of the rear portion of the house.

The historic architectural review commission shall not issue a certificate of appropriateness that would result in:

- (1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;*

It is staff's opinion that the removal of the non- historic additions will not jeopardize the historic character of the house or the neighborhood. The additions do not define the historic character of the house.

- (2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;*

The cited rear additions are not historic.

- (3) *Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.*

The non-historic rear additions are not significant or important in defining the historic character of the site or surrounding context.

- (4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

It is staff's opinion that the additions will not qualify as a contributing element to the house in a near future.

It is staff's opinion that the Commission can review the request for demolition. If approved this will be the only required reading for demolition of non-historic rear additions.

DATE AND PRINT NAME

DETAILED PROJECT DESCRIPTION OF DEMOLITION

Rebuild non-historic additions & roof @ rear. Move historic structure forward on site w/ new foundations. Demo foundations & cistern.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

The proposed area of Demolition is a non-historic addition, enclosure & facade w/ non-original or historic windows & doors; also area is so greatly modified it does not resemble the original historic configuration.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

no evidence has been found to suggest this.

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

As the house stands today, it has no significant character to the city, as it is hidden from view. Proposed demo is also non-historic.

(d) Is not the site of a historic event with significant effect upon society.

No known historic event occurred at this location.

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

No.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

Area of work does not.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

No.

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

This structure has no presence in the neighborhood, nor is it the best remaining type in the area.

(i) Has not yielded, and is not likely to yield, information important in history.

No.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

Area of Demo is not character defining to the whole structure, nor neighborhood. Proposed work enhances character & proportions.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

Proposed work improves the historic relationship between buildings, and improves the setbacks between structures on adjacent properties.

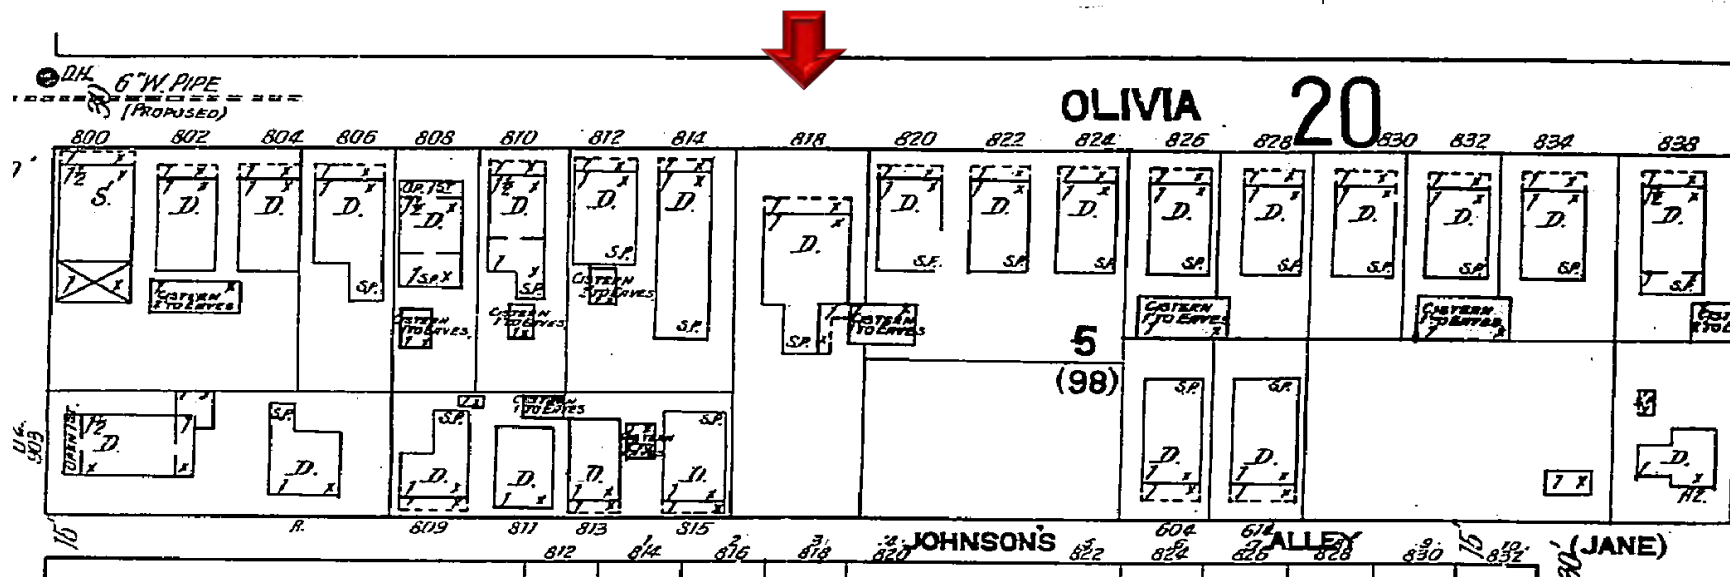

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

Areas of Demo are not character defining; proposed work will improve the properties historic character, both within the site, & the neighborhood.

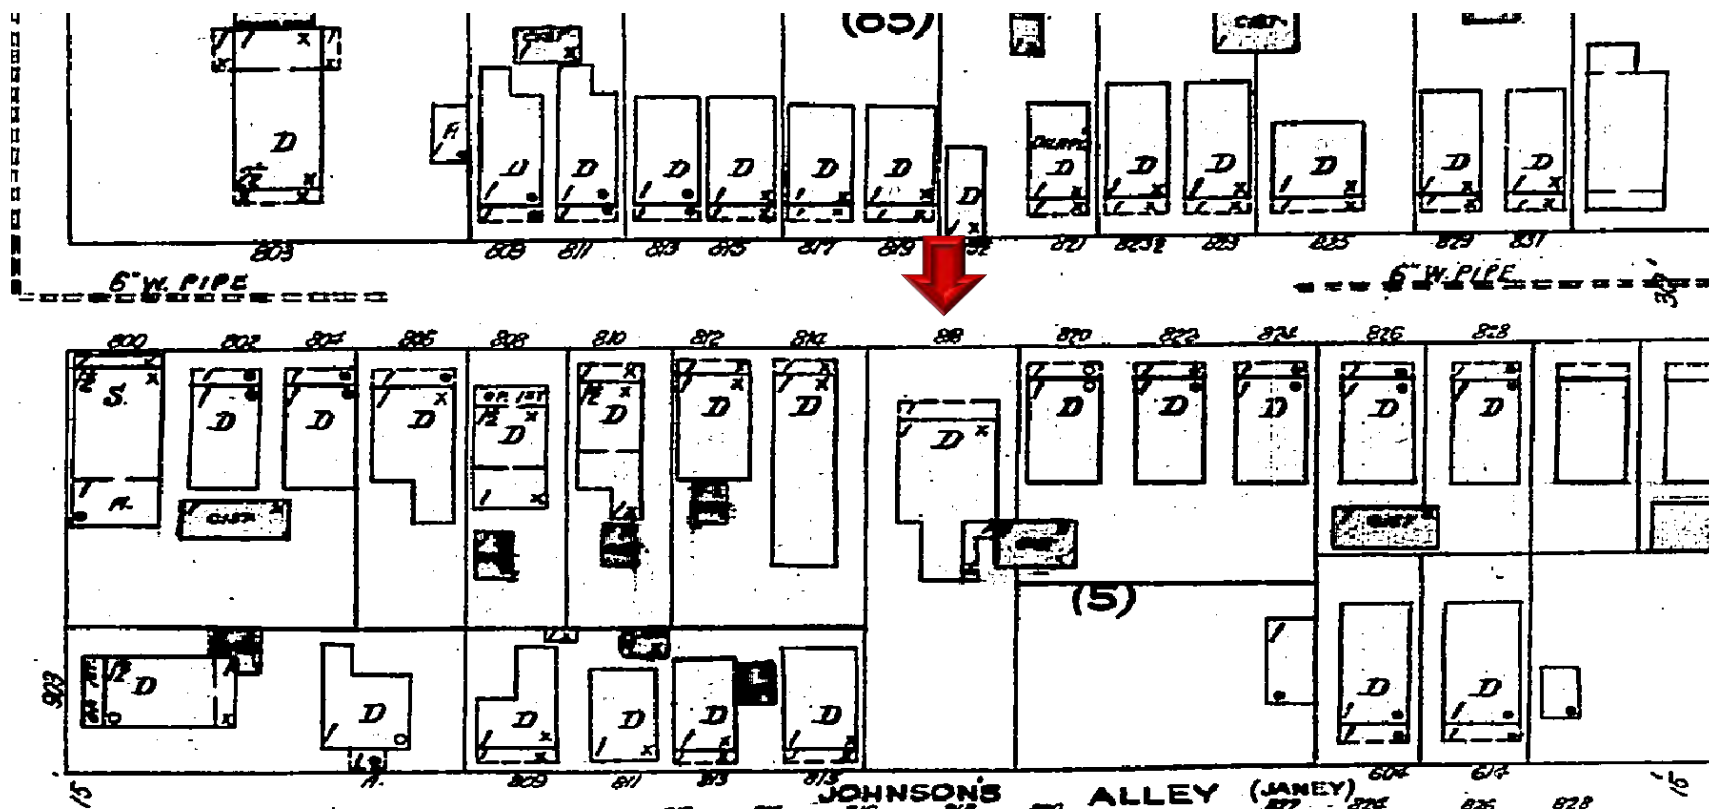

(4) Removing buildings or structures that would otherwise qualify as contributing.

Area of Demo is non historic & not a significant addition to be considered contributing.
