Anna Sweet Studios

(RE# 00010040-000000)

Summary

This application is a request for conditional use approval to be able to provide art gallery and studio guests with wine and beer. This would be done in 2 phases. Phase 1 would be to offer wine and beer to guests indoors. Currently there is about 4,000 square feet of indoor space being used by several local artists as a studio. The guests who come in to enjoy a beverage will also be able to see the work of local artists, potentially in action as it is a working studio on one side. Also inside is a gallery and retail space that represents a number of local artists and craftsmen, which guests will be able to enjoy. Phase 2 would include the beautification of the outside area of the building that is currently not being used for anything other than trash can storage and parking for the owner. We would build an approved trash can storage area if phase 2 comes to fruition to make sure they're accessible but hidden from view. The owner also hopes to install a "living wall" that accentuates the flora of the Keys and would like to use indigenous and/or approved plants to create it. This will replace or disguise the current generic chain link fencing, and add greenery to attract butterflies and other pollinators. Additionally, bench seating with sunshades would be installed to make the area attractive to not just pollinators, but guests as well. Phase 2 would not affect the current parking accessibility or change the number of spots in any way.

2. **Buildings Structures and Parking:** 1st Story of the building, second floor is residential and not our space. The building is located in a parking waiver zone but does have a parking spot for 2 compact cars used by the owner. There will still be room for trash cans and 2 compact car spots if phase 2 happens. We will have a plan in place for covering the trash cans from view if we continue with finishing phase 2.

II. Proposed Development

A. Application for use doesn't include a major development plan

III. **Solutions Statement**

Plans for Phase 1 and 2 will not have any negative impact on the immediate surrounding environment; there will be no increase in runoff, no impact on noise, traffic and parking, as we are in the parking waiver zone and only generate foot traffic. There will be minimal increased waste disposal, we will be using reusable glasses for the wine, and glass wine bottles are recyclable. Phase two would include the landscaping of the outside area, which includes the growing of some indigenous Key West plants to highlight the natural beauty of this area. Currently the back area is an eyesore, concrete slab framed with chain link fencing, and we are hoping to have plants that will 'green it up' and attract butterflies as well as look pleasing to passers-by and guests. We will make sure to have a plan for enclosing the trash cans so they remain easily accessible but hidden from view.

CONDITIONAL USE CRITERIA

Sec. 122-61. Purpose and intent

The purpose of this article is to ensure that a conditional use shall only be permitted on specific sites where the proposed use may be adequately accommodated without generating adverse impacts on properties and land uses within the immediate vicinity. This article sets forth provisions and criteria for consideration of conditional uses on specific sites. Conditional uses shall be permitted only upon a finding that the proposed use satisfies this article.

Sec. 122-62. Specific Criteria for Approval

- A. Findings. A conditional use shall be permitted upon a finding by the planning board that the proposed use, application and, if applicable, development plan complies with the criteria specified in this section, including specific conditions established by the planning board and or the city commission during review of the respective application in order to ensure compliance with the comprehensive plan and land development regulations.
- B. Characteristics of use: the following characteristics of a proposed conditional use shall be clearly described as part of the conditional use application:
 - 1. Scale and intensity of the proposed conditional use as measured by the following:

- a. Floor area ratio:
 - b. Traffic Generation: Because we are in a parking waiver zone, it is mostly foot traffic, so it shouldn't generate any.
 - c. Square feet of enclosed building for each specific use: The proposed consumption area would cover all of the existing indoor and outdoor square footage. We envision our guests being able to move freely throughout the space to enjoy the artwork. The space includes the entryway, gallery, production areas, and back patio.
 - d. Proposed Employment: 1-2 additional employees for bar service
 - e. Proposed number and type of service vehicles: none
 - f. Off-street parking needs: in parking waiver zone
2. On- or off-site improvement needs generated by the proposed conditional use and not identified on the list subsection (b)(1) of this section including the following
 - a. Utilities; Impacts of the proposed projects are summarized as follows:
water usage will most likely increase due to having to wash wine glasses and provide people with drinking water
 - b. Public facilities, especially any improvements required to ensure compliance with concurrency management as provided in ch. 94:
updating the exits to conform to fire codes, being handled by TS Neal Architects, see attached life safety documentation
 - c. Roadway or signalization improvements, or other similar improvements;
NONE
 - d. Accessory structures or facilities; During phase 2 we would like to add a "living wall" of plants to hide the unsightly chain link fencing on the outside of the property. This will be a stand alone structure that houses various plants that are recommended/native to key west such as the soldierbush vine and a skyblue cluster vine to provide food for pollinators.
 - e. Other unique facilities/structures proposed as part of site improvements:
see above "living wall" and additionally, if phase 2 comes to fruition we will have trash enclosure built to hide the cans but leave them accessible
3. On-site amenities proposed to enhance site and planned improvements.
Amenities including mitigative techniques such as:

- a. Open space; no change in open space
- b. Setbacks; no change in existing setbacks
- c. Screening and Buffers; No exterior changes to the structure only landscaping and the addition of outdoor seating, also addition of trash bin covering
- d. Landscaped berms proposed to mitigate against impacts to adjacent sites; berms are not proposed
- e. Mitigative techniques for abating smoke, odor, noise and other noxious impacts; the project proposes no use which would induce smoke, odor, noise or other noxious impacts, cigarette smoking will not be allowed anywhere on the premises

C. Criteria for conditional use review and approval. Applications for a conditional use shall clearly demonstrate the following:

- 1. Land use compatibility: as stated previously, this is in a parking-waiver zone and is a heavily foot-trafficked area. It's pedestrian oriented and has many other businesses around providing either retail, bar or galleries for people. We would like to add a unique option for the lively tourist scene and make the area even more dynamic. Showcasing local artists, and opening a creative space for guests and onlookers to enjoy unique wine is our goal.
- 2. Sufficient site size, adequate site specifications, and infrastructure to accommodate the proposed use: The site definitely has sufficient size, and the necessary safety improvements are part of Phase 1 of this plan, including updating all exits to reflect current codes.
- 3. Proper use of mitigative techniques: No adverse impacts to adjacent land uses are anticipated, the nature of this area is a mix of retail, restaurant, and art spaces. Community infrastructure will not be burdened by this project.
- 4. Hazardous Waste; The proposed use will not produce any hazardous waste or use hazardous materials in its operation.
- 5. Compliance with applicable laws and ordinances; all applicable permits required from agencies other than the City of Key West will be obtained
- 6. Additional criteria applicable to specific land uses.

- a. Land uses within a conservation area: The proposed use isn't in a conservation area
- b. Residential development: the proposed use isn't residential
- c. Commercial or mixed use development:
- d. Development within or adjacent to historic district: The property is located within the historic district and is subject to HARC approvals and process
- e. Public Facilities or institutional development:
- f. Commercial use structures, uses and related activities within tidal waters: not applicable
- g. Adult entertainment establishments: not applicable
