Subject: Childrens Montessori School expansion Varela Street

To whom it may concern:

I live with my family at 1220 Varela Street, directly across the street from the Children's Montessori School. I would like to express my support for the school's expansion. Our family enjoys living across the street from the school and we have found them to be excellent neighbors. We also believe they offer a valuable education for the kids of the community, to the point that we have entrusted them to educate our own young children. I hope that the city agrees with us, that allowing the school the opportunity to educate more kids, is in all of our interests.

Thank you for your time,
Billy Litmer
