Key West Bight Management District Board
510 Greene Street
Key West, FL 33040

Subj: 2020-01 KWBB Schooner Western Union Restoration Progress Report

The Schooner Western Union has returned to the Keys and she is safely berthed at the 3D boatyard on Stock Island.

- A. The Schooner's keel and hull are secure and relatively sound. There are a few minor leaks but they are easily handled by the automated pumps on board the Schooner.
- B. We finally received the final disbursement of \$125,000 from our original \$500,000 State grant from the State of Florida. We are in the process of settling up amounts owed for the tow from Tarpon Springs and other invoices for maintain the Schooner.
- C. Initial contacts have been made with local Coast Guard inspectors.
- D. We have determined that, with the vessel's substantially reduced weight, due to the removal of the masts, rigging, ballast lead, etc., we will be able to haul out the Schooner at Robbie's Marina. This haulout will facilitate the bottom repairs that remain to be completed. Management at Robbie's has said they will haul the schooner and allow her to be worked at Robbies for no charge.
- E. We are developing plans for this next stage of the restoration and meeting with potential shipwrights.
- F. We are also researching additional opportunities for grants and other support which we may be more likely with the Schooner in her home port.
- G. If you have questions or I can provide additional information, please let me know.

On behalf of the BOD,

John Dolan-Heitlinger
