This application is reviewed pursuant to Section 90-391 through 90-397 of the City of Key West Land Development Regulations (LDRs). The City's LDRs can be found in the Code of Ordinances online at http://www.municode.com/Library/FL/Key_West under Subpart B.

^{*}Please note, variances are reviewed as quasi-judicial hearings, and it is improper for the owner or applicant to speak to a Planning Board member or City Commissioner about the hearing.

Standards for Considering Variances

Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met: Please print your responses.

Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures or buildings in the same zoning district.		
The current residence has 3 bedroom, I bathroom, and 1/2 bathroom		
Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant. The Structure had only I bedroom and 1/2 bathroom.		
Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district. Special privileges not conferred		
Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant. The 3 bedroom and 1½ bathrooms is a hardship for the Family.		
Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure. Only minimum variance granted.		

6.	Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.
	Project is not injurious to public welfare.
7.	Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.
	Existing nonconforming uses of other property was not considered.
rent.	
Th	e Planning Board and/or Board of Adjustment shall make factual findings regarding the following:
•	That the standards established in Section 90-395 have been met by the applicant for a variance. That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."
appl	QUIRED SUBMITTALS: All of the materials listed below must be submitted in order to have a complete lication. Applications will not be processed until all materials are provided. Please submit one (1) paper of the materials to the Planning Department along with one (1) electronic copy of materials on a flash e.
	Correct application fee. Check may be payable to "City of Key West."
	Notarized verification form signed by property owner or the authorized representative.
	Notarized authorization form signed by property owner, if applicant is not the owner.
	Copy of recorded warranty deed
	Monroe County Property record card

Variance Information sheet

City of Key West, Florida • Planning Department

1300 White Street • Key West, Florida 33040 • 305-809-3764 • www.cityofkeywest-fl.gov

Application Fee: \$2,300.00 / After-the-Fact: \$4,300.00

(includes \$200.00 advertising/noticing fee and \$100.00 fire review fee)

Please read the following carefully before filling out the application

This application and all required attachments should be submitted to the City Planning Department at 1300 White Street.

Application Process

- After submittal, the application will be reviewed by Staff and additional modifications to the site plan may be necessary at that time.
- The applicant will be responsible for submitting a landscape approval letter from the Urban Forestry Program Manager and a Stormwater approval letter from the Director of Engineering.
- When the application is determined to be complete, it will be brought forth to the Planning Board. If the application is approved, there is a 30-day appeal period.
- After the 30-day appeal period, the application will be sent to the Department of Environmental Opportunity (DEO) for rendering. The rendering period is 45 days.

PLEASE NOTE:

- Owners and applicants are notified of their scheduled Planning Board hearing date.
- Attendance at the formal public hearing is mandatory.
- Notice of Public Meeting is published in the newspaper.
- Owners of property within 300 feet of the subject property or parcels are notified by mail.
- Notice of public hearing will be posted on the property and must be left up until after the hearing.

Please include the following with this application:

- 1. A **copy of the most recent recorded** warranty deed with the Book and Page numbers from the office of the Clerk of Circuit Court for Monroe County containing a legal description of the subject parcel. The application forms must be signed by all owners listed on the deed. For business/corporate ownership, please attach authorization for name of executive authorized to make the application.
- 2. An application fee is determined according to the attached fee schedule. Make the check payable to the City of Key West and include the site address on the memo portion of the check. Be advised that upon review by the Planning Department, additional or fewer variances may be required necessitating a different fee. It is best to see a Planner before turning in the application.

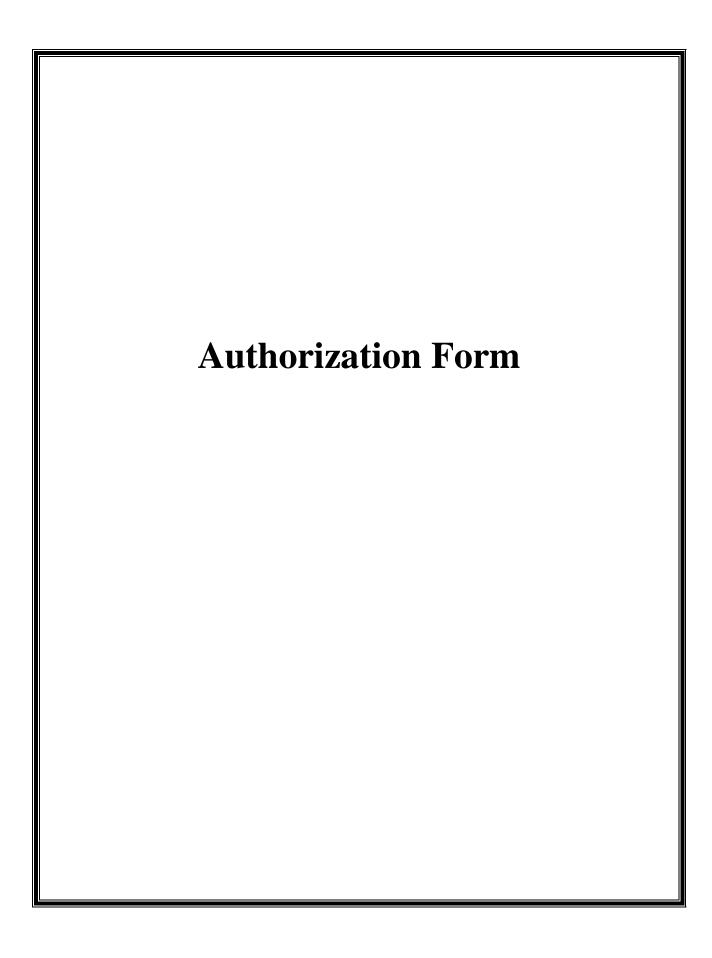

- 3. A site plan or site plans (plans MUST be signed and sealed by an Engineer or Architect) of the subject site, indicating the following:
 - a. **Existing and proposed** lot coverage including buildings, pools, spas, driveways and other walkways, patios, porches, covered areas and decks.
 - b. Location and identification/names of existing trees of 3.5 inches diameter or greater on the property or extending over the proposed work (including access routes and stormwater areas). Please provide photos.
 - c. All proposed changes to what exists, including those which make the variance(s) necessary.
 - d. Lot dimensions on all drawings and the distance from all property lines of all existing and proposed structures.
 - e. Dimensions (existing and proposed) of all the items in (a) above, including the height and number of stories of the structure.
 - f. Parking spaces and dimensions (existing and proposed).
 - g. Easements or other encumbrances on the property.
- 4. One copy of the most recent survey of the property.
- 5. Elevation drawings of proposed structures, indicating finished height above established grade as measured from crown of road.
- 6. Floor Plans of existing and proposed development.
- 7. Stormwater management plan.
- 8. PDF of entire application on Flash Drive

The attached Verification and Authorization Forms must be notarized. This can be done at City Hall or the Planning Department. Identification is required. An out-of-state notarization is acceptable, if necessary.

Make sure that the applicable application and authorization forms are signed by all people listed as owners on the recorded Warranty Deed.

Be advised that the City will not grant a variance unless the City Impact Fees of sewer and solid waste services are paid in full.

If you have any questions, please call the Planning Department. We will be happy to assist you in the application process.

Warranty Deed (STATUTORY FORM - SECTION 689.02, F.S.)

This Indenture made this Z day of December, 2018 between Jeffrey K. Lawrence and Nancy R. La Re, husband and wife whose post office address is 3725 Paula Avenue, Key West, FL 33040 of the County of Monroe, State of Florida, grantor*, and Jillian L. Cranney-Gage, a single woman whose post office address is 3725 Paula Avenue, Key West, FL 33040 of the County of Monroe, State of Florida, grantee*,

Witnesseth that said grantor, for and in consideration of the sum of TEN AND NO/100 DOLLARS (\$10.00) and other good and valuable considerations to said grantor in hand paid by said grantee, the receipt whereof is hereby acknowledged, has granted, bargained, and sold to the said grantee, and grantee's heirs and assigns forever, the following described land, situate, lying and being in Monroe County, Florida, to-wit:

Lot 17, in Block 3, of REPLAT OF BLOCK 3 - PEARLMAN ESTATES, according to the map or plat thereof, as recorded in Plat Book 3, Page 171, of the Public Records of Monroe County, Florida.

Subject to taxes for 2018 and subsequent years; covenants, conditions, restrictions, easements, reservations and limitations of record, if any.

and said grantor does hereby fully warrant the title to said land, and will defend the same against lawful claims of all persons whomsoever.

* "Grantor" and "Grantee" are used for singular or plural, as context requires.

In Witness Whereof, grantor has hereunto set grantor's hand and seal the day and year first above written.

Freddie Mac Form 70 March 2005

UAD Version 9/2011

Page 2 of 6

SCOPE OF THE APPRAISAL:							
The term "scope of the appraisal" means the extent of the process of collecting	g, confirming, and reporting data. The sc	ope involves several steps re	egarding				
the subject property. The subject property was physically inspected from the in		•	exterior				
only, unless stated otherwise in the report. In estimating the market value for							
	applicable. The market data used in the approach was obtained from Florida Keys Multiple Listing Service (MLS), office files, other appraisals, lenders,						
Realtors, buyers, and sellers. Finally, after gathering, confirming, and analyzing	g the available data, a final estimate of vi	alue was made.					
The Intended User of this appraisal report is the current owner. The Intended	Ise is to evaluate the property that is the	subject of this appraisal to					
determine the market value of the improvements only, subject to the scope of			, and				
Definition of Market Value. No additional Intended Users are identified by the							
No, employee, director, officer or agent of the lender, or any other third party a							
management company, or partner on behalf of the lender has influenced or at		_					
assignment through coercion, extortion, collusion, compensation, instruction, i	· ·						
contacted by anyone other than the intended user (lender/client as identified or appointment to enter the property. I agree to immediately report any unauthori							
appointment to other the property. Fagree to immediately report any unauthor	20d deritable ettrici personally by priorie	or electronically to the interior	dod door.				
Additional Comments:							
The sales used are the most comparable in regards to quality, design, age an	d GLA. It is typical to use sales that vary	in size by more than 25% ar	nd in age				
by more than 30% when appraising in the Florida Keys.							
This appraisal was not based on a requested minimum valuation, a specific va	luation, or the approval of a loan						
The state of the s	,						
I have not performed services, as an appraiser or in any other capacity, regard	ling the property that is the subject of this	report within the three-year	r period				
immediately preceding acceptance of this assignment.							
Marketing time 3 - 6 months. Exposure time 3 - 6 months. The Florida Keys is	a tourist driven economy with typically hi	gher sales values and lower	r				
marketing times over the winter months as tourist figures increase.							
The typical purchaser would be a primary or secondary owner.							
The typical parenteed freda 50 a primary of 3000 hadry office.							
The appraiser certifies and agrees that this appraisal report was prepared in a	ccordance with the requirements of Title	XI of the Financial Institution	ns,				
Reform, Recovery, and Enforcement Act (FIRREA) of 1989, as amended (12	U.S.C. 3331 et seq.), and any applicable	implementing regulations in	effect at				
the time the appraiser signs the appraisal certification.

Freddie Mac Form 70 March 2005

UAD Version 9/2011

Page 3 of 6

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Freddie Mac Form 70 March 2005

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

Freddie Mac Form 70 March 2005

- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Additional Comments:

The purpose of the appraisal is to determine the as is value of the improvements for FEMA guidelines regarding renovation the 50% rule. In order to determine the market value of the improvements, a sales comparison analysis along with a cost approach must be developed. The sales comparison analysis has been developed to show the % of market depreciation of the improvements, which is then used in the replacement cost estimate.

The estimated value of the home, via the sales comparison analysis including the land is \$595,000, the land value is \$300,000, leaving \$295,000 as the market value of the improvements via the sales comparison analysis. The cost approach using market rate depreciation indicates a value for the improvements only of \$299,175.

It is typical to use sales that vary in age by more than 30% and in size by more than 25% when appraising custom homes in the keys.

HAZARDOUS MATERIALS: Hazardous materials, asbestos and radon gas considerations are presumed not to affect the appraised property unless specifically mentioned as a possibility that should be verified by a professional in that field. In general, the EPA regional office states that Monroe County, Florida does not have a geological formation containing uranium ores that produce radon gas. Moreover, most buildings in the Keys are well ventilated, have no basements and are on pier and beam or stilt-piling foundations.

PREDOMINANT VALUE: Predominant value has no significant relevance to the marketability of homes in the Florida Keys. Predominant value is a statistical concept like the mode of a number of tract houses where a high degree of conformity and uniformity exists, neither of which is found in the Keys. Mainland guidelines normally do not apply in the Keys. The fact that the subject is above or below the predominant value for the neighborhood does not adversely affect its marketability.

When analyzing improved sales for differences including difference in lot size, paired sales are used, not land sales. Raw land does have a different value per square foot, as compared to surplus land. The sales are adjusted for site differences based on paired sales.

Garage/Carport, site, location(if necessary) and GLA adjustments are based on paired sales, the homes in the Florida Keys are custom built there are no text book type paired sales. I have paired the sales for different factors, including site, parking and GLA. Additional sales from the market have been used to determine the adjustments which may not be included in the grid.

The appraiser certifies and agrees that this appraisal report was prepared in accordance with the requirements of Title XI of the Financial Institutions, Reform, Recovery, and Enforcement Act (FIRREA) of 1989, as amended (12 U.S.C. 3331 et seq.), and any applicable implementing regulations in effect at the time the appraiser signs the appraisal certification.

The reported analyses, opinions and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute."

The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives."

"As of the date of this report, I Kevin Talbott have completed the continuing education program for Designated members of the Appraisal Institute."

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.*

*Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

O.S

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

05

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.
