Dear Planning Board:

I am familiar with William R. Grosscup's ("Captain Bill") intent to build an elevated single-family home on the upland portion of his property located at 13 Hilton Haven Drive, Key West, Florida. I have no objection and strongly support his efforts and rights to do so. Therefore, I remain hopeful the Planning Board will do the right thing and promptly grant his request for variance so he may begin to build his home on his land as soon as possible.
