

Hawk Missile Site Proposal

Inspirational Art Park

Good evening and thank you for allowing me to be here this evening to present my proposal for the beautification of the hawk missile site on government road.

A while back I noticed a Facebook post about local law-enforcement cleaning up some unwanted old graffiti at the site, which provoked a few questions in my head.

1. Why didn't they cover the graffiti that was actually offensive?
2. Had anyone thought to put inspirational fine art there in place of the unwanted art?

So I made a few phone calls and figured out that this in fact had become a public park which made me curious if such an art project were a possibility. Which after a few emails and phone calls with Mr Parks, brings me before you today.

Having been involved in the arts from a young age I was always inspired by people's creative minds and art in public places. My goal with this project is to put something up on these walls that inspires people to be there. Not just painted by myself but with a handful of local artists that I would choose to provide a splash of creativity that blends well together and changes the vibe from tired to inspired. Knowing what the costs are from doing murals the past decade, I know we are going to need some help monetarily to complete the project.

My questions for the committee are:
What is the time frame for this project
Start/finish date?
Are there funds allocated for such a project?

- The following images show the current state of the buildings and that's followed by what we would like to do.

space**

Lastly, the street/ground is also a canvas we could use and you would see it from the sky. That can be further disused another time.

I usually charge by the square foot, 10-30 dollars a square foot depending on details, scale, and whether or not lifts are needed. With the proposed murals I set fourth I see this normally being in the 15 per square foot.

I estimate that approximately:

400 cans of aerosol

30 gallons of quality exterior roller paint

3 packs of rollers

2 Drop cloths

And 2 lifts if possible, but definitely 1 for at least a week

Also, as mentioned I will bear responsibility for refacing anything the gets graffitied or defaced.

I also understand that this project is pretty massive And I don't want to ask for too much because I want to be the one who gets it done, so I will be as flexible as possible. I think it could be done for 7-10 dollars per square foot if the budget calls for it. Thank you for your time and I hope to hear from you soon!

Nick Soto
